PART II

Central Administration (ss 4-5)

4. Declaring of planning areas

The Minister may, from time to time, declare, by order published in the *Gazette*, areas of land in Botswana to be planning areas and the provisions of this Act shall apply to any planning area declared as aforesaid from such date or dates as shall be appointed by the Minister.

PART III

6. Preparation of development plan

(1) In any planning area the Minister shall, as soon as may be practicable after the appointed day, carry out a survey of the whole of the planning area.

(2) Not later than two years after the appointed day, or within such extended period as the National Assembly may by resolution allow, the Minister shall prepare in draft a development plan consisting of a report of the survey together with a plan indicating the manner in which he proposes that the land in the planning area may be used (whether by the carrying out thereon of development or otherwise) and the stages by which any such development may be carried out.

(3) A development plan shall include such maps and such descriptive matter as may be necessary to illustrate the proposals aforesaid with such degree of particularity as may be appropriate to different parts of the planning area; and a development plan may in particular-

- (a) define the sites of proposed roads, public and other buildings and works, airfields, parks, pleasure grounds, nature reserves and other open spaces; and
- (b) allocate areas of land for use for agricultural, forestry, mining, water resource, industrial, residential, or other purposes of any class specified in the plan.

(4) Without prejudice to the provisions of subsection (3), a development plan may make provision for any of the matters mentioned in the Second Schedule.

(5) At any time before a development plan with respect to the whole of a planning area has been made by the Minister under this section, the Minister may prepare in draft a development plan relating to any part of the planning area, and the foregoing provisions of this section shall apply in relation to any such plan as they apply in relation to a plan relating to the whole of a planning area.

7. Revision of development plan

The Minister may at any time prepare proposals for such alterations or additions to any development plan as appear to him to be expedient.

8. Making of development plan

(1) The Minister shall, in the course of preparing a development plan relating to any land, or proposals for the revision of any such plan, consult with any local authority in whose district such development plan will have effect and may consult with such other persons, bodies of persons or authorities as he thinks fit.

(2) Notice shall be published in the *Gazette* and in one newspaper circulating in the planning area that the Minister has prepared in draft any such plan or proposals for the revision of any such plan, and of the place or places where the copies of such plan or proposals may be inspected by the public.

(3) If any objection or representation with respect to any such plan or proposals for the revision of any such plan is made in writing to the Minister within one month of the publication of the notice in the *Gazette* referred to in subsection (2), the Minister shall take into consideration the objection or representation and, having done so, shall make the development plan with or without modification of the draft plan or proposals.

(4) If, as a result of any objection or representation considered in connection with a development plan or proposals for a revision of such a plan, the Minister is of the opinion that a person, body or authority ought to be consulted before he decides to make the plan either with or without modifications, or to revise the plan, as the case may be, the Minister shall consult that person, body or authority but he shall not be obliged to consult any other person, body or authority or to afford any opportunity for further objections or representations.

PART IV

Control of Development of Land and Permission for Development (ss 9-30)

9. Provisions as to development

(1) Subject to the provisions of this section and to the following provisions of this Act, permission shall be required under this Part for any development of land that is carried out after the appointed day.

(2) In this Act, except where the context otherwise requires, the expression "development" means the carrying out of building, engineering, mining or other operations in, on, over or under any land or the making of any material change in the use of any buildings or other land:

Provided that the following operations or uses of land shall not be deemed for the purposes of this Act to involve development of land-

- (i) the carrying out of works for the maintenance, improvement or other alteration of any building, if the works affect only the interior of the building or do not affect the external appearance of the building;
- (ii) the carrying out of any works for the purpose of inspecting, repairing or renewing any sewers, mains, pipes, cables or other apparatus, including the breaking open of any street or other land for the purpose;
- (iii) the use of any buildings or other land within the curtilage of a dwelling-house for any purpose incidental to the enjoyment of the dwelling-house as such;

(iv) in the case of buildings or other land which are used for a purpose of any class specified in an order made by the Minister under this section, the use thereof for any other purposes of the same class.

(3) For the purposes of this section-

- (a) the use of a building resulting in an increase or in a reduction of the number of dwelling units in which the building was previously used involves a material change in the use of the building and of each part thereof which is so used;
- (b) the deposit of refuse or waste materials on land involves a material change in the use thereof;
- (c) without prejudice to the provisions of any regulations made under this Act relating to the control of advertisements, the use for the display of advertisement of any external part of a building which is not normally used for that purpose involves a material change in the use of that part of the building.

10. Development order

(1) The Minister may, by order published in the *Gazette*, provide for the grant of permission for the development of land under this Part, and such permission may be granted-

- (a) in the case of any development specified in any such order, or in the case of development of any class so specified, by that order itself;
- (b) in any other case, by the Board on an application in that behalf made to it in accordance with the provisions of the order.

(2) The permission granted by any development order may be granted either unconditionally or subject to such conditions or limitations as may be specified in such order.

11. Planning permission for development

(1) Subject to this section and to sections 12, 13 and 14, where an application is made to the Board for permission to develop land, the Board, in dealing with the application, shall have regard to the provisions of the development plan, so far as is material to the application, and to any other material consideration, and-

- (a) may grant permission, either unconditionally or subject to such conditions as it thinks fit; or
- (b) may refuse permission.

(2) Without restricting the generality of subsection (1), conditions may be imposed on the grant of permission to develop land thereunder-

- (a) for regulating the development or use of any land under the control of the applicant (whether or not it is land in respect of which the application was made) or requiring the

carrying out of works on any such land, so far as appears to the Board to be expedient for the purposes of or in connection with the development authorized by the permission;

- (b) for requiring the removal of any buildings or works authorized by the permission, or the discontinuance of any use of land so authorized, at the expiration of a specified period, and the carrying out of works required for the reinstatement of land at the expiration of that period,

and any permission granted subject to any such condition as is mentioned in paragraph (b) is in this Act referred to as permission granted for a limited period only.

- (3) All decisions of the Board shall be communicated to the Minister forthwith.

12. Decision of Town and Country Planning Board

(1) If the decision of the Board on any application made to it under section 11 is a decision which grants permission for the development of land (whether unconditionally or subject to conditions) the operation of the decision shall be suspended for a period of 14 days from the date of the meeting of the board at which the decision was made and during the said period of 14 days the decisions shall be subject to disallowance by order in writing of the Minister.

(2) If the Minister disallows a decision of the Board he shall state his reasons for so doing in the order disallowing the decision, and any such order shall be recorded in the register required to be kept by the Board under section 13(2).

(3) The decision of the Minister under this section shall be final and shall not be challenged in any court.

(4) Subject to the provisions of this section, a decision of the Board which grants permission for the development of land (whether unconditionally or subject to conditions) shall come into operation on the expiration of a period of 14 days from the date of the meeting of the Board at which the decision was made.

13. Method of applying for planning permission

(1) Provision may be made by a development order for regulating the manner in which applications for permission to develop land are to be made to, and be dealt with, by the Board and in particular-

- (a) for enabling the Minister to give directions restricting the grant of permission by the Board, during such period as may be specified in the directions, in respect of any such development, or in respect of development of any such class, as may be so specified;
- (b) for requiring the Board before granting or refusing permission for any development to consult with such authorities or persons as may be prescribed by the order or by

directions given by the Minister thereunder;

- (c) for requiring the Board to give to any applicant for permission, within such time as may be prescribed by the order, such notice as may be so prescribed as to the manner in which his application has been dealt with; and
- (d) for requiring the Board to furnish to the Minister, and to such other persons as may be prescribed by or under the order, such information as may be so prescribed with respect to applications for permission made to them, including information as to the manner in which any such application has been dealt with.

(2) The Board shall keep, in such manner as may be prescribed by the development order, a register containing such information as may be so prescribed with respect to applications for permission made to the Board including information as to the manner in which such applications have been dealt with; and every such register shall be available for inspection by the public at all reasonable hours.

14. Referral of applications to Minister

(1) The Minister may give directions to the Board requiring that any application made to the Board for permission to develop land, or all such applications of any class specified in the directions, shall be referred to the Minister instead of being dealt with by the Board, and any such application shall be referred accordingly.

(2) Where an application for permission to develop land is referred to the Minister under this section, the provisions of section 11(1) and (2) shall apply, subject to any necessary modifications, in relation to the determination of the application by the Minister as they apply in relation to the determination of such an application by the Board.

(3) The decision of the Minister on any application referred to him under this section shall be final and shall not be challenged in any court; any such decision shall be communicated to the Board and shall be recorded in the register required to be kept by the Board under section 13(2).

15. Appeals

(1) Where application is made to the Board for permission to develop land, or for any approval of the Board required under a development order, and that permission or approval is refused by the Board, or is granted by it subject to conditions, then if the applicant is aggrieved by the Board's decision he may, by notice served within the period referred to in subsection (2), and in the manner prescribed by the development order, appeal to the Minister.

(2) The period mentioned in subsection (1) shall be one month from the date of the notification of the decision to the applicant by the Board.

(3) Where an appeal is brought under this section from a decision of the Board, the Minister may allow or dismiss the appeal or may reverse or vary any part of the decision of the Board whether or not the appeal relates to that part, and deal with the application as if it had been

made to the Minister in the first instance; and the provisions of section 11 shall apply, subject to any necessary modifications, in relation to the determination of an application by the Minister on appeal under this section as they apply in relation to the determination by the Board of an application made to the Board under section 11.

(4) Unless within such period as may be prescribed by the development order (or within such extended period as may at any time be agreed upon in writing between the applicant and the Board) the Board either-

- (a) gives notice to the applicant of its decision; or
- (b) gives notice to him that the application has been referred to the Minister in accordance with directions given by him under section 14,

the provisions of subsection (1) shall apply in relation to the application as if the permission or approval to which it relates had been refused by the Board and as if notification of its decision had been received by the applicant at the expiration of the period prescribed by the development order or such extended period as aforesaid, as the case may be.

(5) The decision of the Minister under this section shall be final and shall not be challenged in any court.

16. Supplementary provisions as to grant of planning permission

(1) The power to grant permission to develop land under this Part shall include power to grant permission for the retention on land of any buildings or works constructed or carried out thereon before the date of the application, or for the continuance of any use of land instituted before that date (whether without permission granted under this Part or in accordance with permission so granted for a limited period only); and references in this Part to permission to develop land or to carry out any development of land, and to applications for such permission, shall be construed accordingly.

(2) Any such permission as is mentioned in subsection (1) may be granted so as to take effect from the date on which the buildings or works were constructed or carried out or the use was instituted, or from the expiration of the said period, as the case may be.

(3) Where permission is granted under this Part for the erection of a building, the grant of permission may specify the purposes for which the building may be used; and if no purpose is so specified the permission shall be construed as including permission to use the building for the purpose for which it is designed.

(4) Where permission to develop land is granted under this Part, then, except as may be otherwise provided by the permission, the grant of permission shall enure for the benefit of the land and of all persons for the time being interested therein, but without prejudice to the provisions of this Part with respect to the revocation and modification of permission granted thereunder.

(5) Where permission to develop land is granted under this Part for a limited period only,

nothing in this Part shall be construed as requiring permission to be obtained thereunder for the resumption, at the expiration of that period, of the use of the land for the purpose for which it was normally used before the permission was granted.

(6) In determining for the purposes of subsection (5) the purposes for which land was normally used before the grant of permission, no account shall be taken of any use of the land begun in contravention of the provisions of this Part.

17. Revocation and modification of planning permission

(1) Subject to the provisions of this section, if it appears to the Minister that it is expedient, having regard to the development plan and to any other material considerations, that any permission to develop land granted on an application made in that behalf under this Part should be revoked or modified, he may by order revoke or modify the permission to such extent as appears to him to be expedient as aforesaid.

(2) The power conferred by this section to revoke or modify permission to develop land may be exercised-

- (a) where the permission relates to the carrying out of building or other operations, at any time before those operations have been completed;
- (b) where the permission relates to a change of the use of any land, at any time before the change has taken place:

Provided that the revocation or modification of permission for the carrying out of building or other operations shall not affect so much of those operations as has been previously carried out.

(3) Where permission to develop land is revoked or modified by an order made under this section, then if, on a claim made to the Minister within 12 months of the making of the order, it is shown that any person interested in the land has incurred expenditure in carrying out work which is rendered abortive by the revocation or modification or has otherwise sustained loss or damage that is directly attributable to the revocation or modification, the Minister shall, subject to subsection (4), pay to that person compensation in respect of that expenditure, loss or damage.

(4) No compensation shall be payable under subsection (3) in respect of loss or damage consisting of the depreciation in value of any interest in the land by virtue of the revocation or modification.

(5) For the purposes of this section, any expenditure incurred in the preparation of plans for the purposes of any work or upon other similar matters preparatory thereto shall be deemed to be included in the expenditure incurred in carrying out that work but, except as aforesaid, no compensation shall be paid under this section in respect of any work carried out before the grant of the permission that is revoked or modified, or in respect of any other loss or damage arising out of anything done or omitted to be done before the grant of that permission.

(6) Where permission for the development of land granted by a development order has been withdrawn, whether by the revocation or amendment of the order or by the issue of directions under powers in that behalf conferred by the order, then, if on an application made in that behalf under this Part permission for that development is refused or is granted subject to conditions other than those previously imposed by the development order, the foregoing provisions of this section shall apply as if the permission granted by the development order had been granted by the Board under this Part and had been revoked or modified by an order under this section.

(7) Where, by virtue of the provisions of this section, compensation is payable in respect of expenditure incurred in carrying out any work on land, then if a competent authority acquires any interest in that land any compensation payable in respect of the acquisition of that interest shall be reduced by an amount equal to the value of the works in respect of which compensation is payable under this section.

(8) If the Minister revokes or modifies any permission to develop land he shall state his reasons for so doing in the order revoking or modifying that permission; and every such order shall be communicated to the Board and shall be recorded in the register required to be kept under section 13(2).

18. Enforcement procedure

(1) If it appears to the Minister that any development of land has been carried out after the appointed day without the grant of permission required in that behalf under this Part, or that any conditions subject to which such permission was granted in respect of any development have not been complied with, then the Minister may, within four years of such development being carried out, or, in case of non-compliance with a condition, within three years after the date of the alleged failure to comply with it, if he considers it expedient to do so having regard to the provisions of the development plan and to any material considerations, serve on the owner and occupier of the land a notice under this section.

(2) Any notice served under this section (hereinafter referred to as "an enforcement notice") shall specify the development which is alleged to have been carried out without the grant of such permission as aforesaid or, as the case may be, the matters in respect of which it is alleged that any such conditions as aforesaid have not been complied with.

(3) An enforcement notice may require that no further development, or no such further development as may be specified in the notice, shall be carried out and may require that such steps as may be specified be taken for restoring the land to its condition before the development took place, or for securing compliance with the conditions, as the case may be; and in particular any such notice may, for the purpose aforesaid, require the demolition or alteration of any buildings or works, the discontinuance of any use of land, or the carrying out on land of any building or other operations.

(4) Except as otherwise provided in this section, an enforcement notice shall-

(a) in respect of any requirement prohibiting further development, take effect immediately

upon service of the notice; and

- (b) in respect of any other requirement, take effect at the expiration of such period (not being less than 21 days after the service thereof) as may be specified therein.

(5) When, within the period mentioned in subsection (4), an application is made to the Board under this Part for permission-

- (a) for the retention on the land of any buildings or works to which the enforcement notice relates; or

- (b) for the continuance of any use of the land to which the enforcement notice relates,

the operation of the enforcement notice, in respect of any requirement other than a requirement prohibiting further development, shall be suspended pending the final determination of the application and if the permission applied for is granted on that application and comes into operation the enforcement notice shall cease to have any effect.

(6) When, within the period mentioned in subsection (7), an appeal is made to the court under this section by a person on whom the enforcement notice was served, the operation of the enforcement notice, in respect of any requirement other than a requirement prohibiting further development, shall be suspended pending the final determination or withdrawal of the appeal.

(7) If any person on whom an enforcement notice is served under this section is aggrieved by the enforcement notice, he may, by application filed at any time within 21 days of the service of the notice, appeal against the enforcement notice to a court presided over by a Magistrate Grade I or over, and on any such appeal the court-

- (a) if satisfied that permission was granted under this Part for the development to which the enforcement notice relates, or that no such permission was required in respect thereof, or, as the case may be, that the conditions subject to which such permission was granted have been complied with, shall quash the enforcement notice to which the appeal relates;

- (b) in any other case, shall dismiss the appeal.

(8) Where the appeal is dismissed the court may, if it thinks fit, direct that, in respect of any requirement other than a requirement prohibiting further development, the enforcement notice shall not come into force until such date (not being later than 21 days from the determination of the appeal) as the court thinks fit.

19. Supplementary provisions as to enforcement

(1) If within the period specified in an enforcement notice, or within such extended period as the Minister may allow, any steps required by the enforcement notice to be taken (other than the discontinuance of any use of land) have not been taken, the Minister may request a court presided over by a Magistrate Grade I or over, by means of an application, for authority to

enter on the land and take those steps, and upon such authority being given he, or any other person authorized by him in that behalf, may enter on the land and take those steps, and may recover as a civil debt in any court of competent jurisdiction from the person who is then the owner of the land any expenses reasonably incurred by the Minister in that behalf; and if that person, having been entitled to appeal to the court under section 18, failed to make such an appeal, he shall not be entitled in proceedings under this subsection to dispute the validity of the action taken by the Minister upon any ground which could have been raised by such an appeal.

(2) Any expenses incurred by the owner or occupier of any land for the purpose of complying with an enforcement notice served under section 18 in respect of any development, and any sums paid by the owner of any land under subsection (1) in respect of the expenses of the Minister in taking steps required to be taken by such an enforcement notice, shall be deemed to be incurred or paid for the use and at the request of the person by whom the development was carried out.

(3) Nothing in this Part shall be construed as requiring permission to be obtained thereunder for the use of any land for the purpose for which it could lawfully have been used under this Part if the development in respect of which an enforcement notice is served under section 18 had been carried out.

20. Penalties, etc., in connection with enforcement notices

(1) Where an enforcement notice has been served under section 18 on the person who was, when the notice was served on him, the owner of the land to which the enforcement notice relates and any requirement of that notice prohibiting further development has not been complied with, or within the period specified in the enforcement notice, or within such extended period as the Minister may allow, any steps required by the enforcement notice to be taken (other than the discontinuance of any use of land) have not been taken, that person shall be guilty of an offence and liable to a fine not exceeding P5000, and, in the case of a continuing offence, to a further fine not exceeding P500 for every day after the first day during which any of the requirements of the enforcement notice (other than the discontinuance of any use of land) remain unfulfilled.

(2) Where, by virtue of an enforcement notice, any use of land is required to be discontinued, or any conditions are required to be complied with in respect of any use of land or in respect of the carrying out of any operations thereon, then if any person, without the grant of permission in that behalf under this Part, uses the land or causes or permits the land to be used, or carries out or causes or permits to be carried out those operations, in contravention of the enforcement notice, he shall be guilty of an offence and liable to a fine not exceeding P5000, and, in the case of a continuing offence, to a further fine not exceeding P500 for every day after the first day during which the use is so continued.

21. Continued operations of enforcement notice

(1) Notwithstanding compliance with an enforcement notice, whether as regards-

- (a) the demolition or alteration of any buildings or works;
- (b) the discontinuance of any use of land; or
- (c) any other requirement of the enforcement notice,

the enforcement notice shall remain in operation.

(2) Without restricting the generality of subsection (1), where any development is carried out on land by way of reinstating or restoring buildings or works which have been demolished or altered in compliance with an enforcement notice, the enforcement notice shall, notwithstanding that its terms are not apt for the purpose, be deemed to apply in relation to the buildings or works as reinstated or restored as it applied in relation to the buildings or works before they were demolished or altered, and section 19(1) and (2) shall apply accordingly.

(3) Without affecting the operations of sections 19 and 20, a person who carries out any development on land by way of reinstating or restoring buildings or works which have been demolished or altered in compliance with the enforcement notice shall be guilty of an offence and liable to a fine not exceeding P5000.

22. Transfer of planning functions

(1) The functions of the Board under this Part to grant or refuse permission for development may, by order published in the *Gazette*, be transferred by the Minister to such authority (in this section referred to as "the responsible authority") as he thinks fit subject to such conditions, limitations and reservations as the Minister thinks appropriate in any particular case.

(2) Where functions are transferred under the provisions of subsection (1) the provisions of this Part shall apply to any decision or action by the responsible authority taken in the discharge of those functions as if that decision or action had been a decision or action by the Board.

23. Trees and woodlands

(1) If it appears to the Minister that it is expedient in the interests of amenity to make provision for the preservation of any tree, trees or woodland in any area, he may for that purpose make an order (in this Act referred to as a "tree preservation order") with respect to any such tree, trees, groups of trees or woodland as may be specified in the order, and, in particular, provision may be made by any such order-

- (a) for prohibiting (subject to any exemptions for which provision may be made by the order) the cutting down, topping, lopping or wilful destruction of trees except with the consent of the Minister which may be given subject to conditions;
- (b) for securing the replanting, in such manner as may be prescribed by or under the order, of any part of a woodland area which is felled in the course of forestry operations permitted by or under the order;
