# BILL

To provide for the equitable division of revenue raised nationally among the national, provincial and local spheres of government for the 2020/21 financial year; the determination of each province's equitable share; allocations to provinces, local government and municipalities from national government's equitable share; the responsibilities of all three spheres pursuant to such division and allocations; and to provide for matters connected therewith.

## PREAMBLE

**WHEREAS** section 214(1) of the Constitution requires an Act of Parliament to provide for—

- (a) the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
- (b) the determination of each province's equitable share of the provincial share of that revenue; and
- (c) any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and any conditions on which those allocations may be made; and

**WHEREAS** section 7(1) of the Money Bills and Related Matters Act, 2009 (Act No. 9 of 2009), requires the introduction of the Division of Revenue Bill at the same time as the Appropriation Bill is introduced,

**B**E IT THEREFORE ENACTED by the Parliament of the Republic of South Africa, as follows:—

## Objects of Act

2. The objects of this Act are—

- (a) as required by section 214(1) of the Constitution, to provide for—
- (i) the equitable division of revenue raised nationally among the three spheres of government; 25
  - (ii) the determination of each province’s equitable share of the provincial share of that revenue; and
  - (iii) other allocations to provinces, local government or municipalities from the national government’s share of that revenue and conditions on which those allocations are made; 30
- (b) to promote predictability and certainty in respect of all allocations to provinces and municipalities, in order that provinces and municipalities may plan their budgets over a multi-year period and thereby promote better coordination between policy, planning and budgeting; and
- (c) to promote transparency and accountability in the resource allocation process, by ensuring that all allocations, except Schedule 6 allocations, are reflected on the budgets of provinces and municipalities and the expenditure of conditional allocations is reported on by the receiving provincial departments and municipalities. 35

## CHAPTER 2 40

### EQUITABLE SHARE ALLOCATIONS

#### Equitable division of revenue raised nationally among spheres of government

3. (1) Revenue raised nationally in respect of the 2020/21 financial year must be divided among the national, provincial and local spheres of government as set out in Column A of Schedule 1. 45

(2) The envisaged division among the national, provincial and local spheres of government of revenue anticipated to be raised nationally in respect of the 2021/22 financial year and the 2022/23 financial year, and which is subject to the Division of Revenue Acts for those financial years, is set out in Column B of Schedule 1.

#### Equitable division of provincial share among provinces 50

4. (1) Each province’s equitable share of the provincial share of revenue raised nationally in respect of the 2020/21 financial year is set out in Column A of Schedule 2.

(2) The envisaged equitable share for each province of revenue anticipated to be raised nationally in respect of the 2021/22 financial year and the 2022/23 financial year,

and which is subject to the Division of Revenue Acts for those financial years, is set out in Column B of Schedule 2.

(3) The National Treasury must transfer each province's equitable share referred to in subsection (1) to the corporation for public deposits account of the province in accordance with the payment schedule determined in terms of section 23. 5

### **Equitable division of local government share among municipalities**

5. (1) Each municipality's equitable share of local government's share of revenue raised nationally in respect of the 2020/21 financial year is set out in Column A of Schedule 3.

(2) The envisaged equitable share for each municipality of revenue anticipated to be raised nationally in respect of the 2021/22 financial year and the 2022/23 financial year, and which is subject to the Division of Revenue Acts for those financial years, is set out in Column B of Schedule 3. 10

(3) The national department responsible for local government must transfer a municipality's equitable share referred to in subsection (1) to the primary bank account of the municipality in three transfers on 7 July 2020, 8 December 2020 and 16 March 2021, in the amounts determined in terms of section 23(2). 15

### **Shortfalls and excess revenue**

6. (1) If the actual revenue raised nationally in respect of the 2020/21 financial year falls short of the anticipated revenue set out in Column A of Schedule 1, the national government bears the shortfall. 20

(2) If the actual revenue raised nationally in respect of the 2020/21 financial year exceeds the anticipated revenue set out in Column A of Schedule 1, the excess accrues to the national government, and may be used to reduce borrowing or pay debt as part of its share of revenue raised nationally. 25

(3) A portion of national government's equitable share or excess revenue envisaged in subsection (2), may be appropriated through the applicable legislation envisaged in section 12 of the Money Bills and Related Matters Act, 2009 (Act No. 9 of 2009), to make further allocations to—

- (a) national departments; or 30
- (b) provinces or municipalities.

## **CHAPTER 3**

### **CONDITIONAL ALLOCATIONS TO PROVINCES AND MUNICIPALITIES**

#### *Part 1*

#### *Conditional allocations* 35

#### **Conditional allocations to provinces**

7. (1) Conditional allocations to provinces for the 2020/21 financial year from the national government's share of revenue raised nationally are set out in—

- (a) Part A of Schedule 4, specifying allocations to provinces to supplement the funding of programmes or functions funded from provincial budgets; 40
- (b) Part A of Schedule 5, specifying specific-purpose allocations to provinces;
- (c) Part A of Schedule 6, specifying allocations-in-kind to provinces for designated special programmes; and
- (d) Part A of Schedule 7, specifying funds that are not allocated to specific provinces, that may be released to provinces to fund an immediate response to a declared disaster or housing emergency. 45

(2) An envisaged division of conditional allocations to provinces from the national government's share of revenue anticipated to be raised nationally for the 2021/22 financial year and the 2022/23 financial year, which is subject to the annual Division of Revenue Acts for those years, is set out in Column B of the Schedules referred to in subsection (1). 50

## Conditional allocations to municipalities

8. (1) Conditional allocations to municipalities in respect of the 2020/21 financial year from the national government's share of revenue raised nationally are set out in—
- (a) Part B of Schedule 4, specifying allocations to municipalities to supplement the funding of functions funded from municipal budgets; 5
  - (b) Part B of Schedule 5, specifying specific-purpose allocations to municipalities;
  - (c) Part B of Schedule 6, specifying allocations-in-kind to municipalities for designated special programmes; and
  - (d) Part B of Schedule 7, specifying funds that are not allocated to specific municipalities that may be released to municipalities to fund an immediate response to a declared disaster or housing emergency. 10
- (2) An envisaged division of conditional allocations to municipalities from the national government's share of revenue anticipated to be raised nationally for the 2021/22 financial year and the 2022/23 financial year, which is subject to the annual Division of Revenue Acts for those years, is set out in Column B of the Schedules referred to in subsection (1). 15
- (3) If approved by the National Treasury after consultation with the national Department of Transport, allocations for specific transport contracts for capital projects from the envisaged conditional allocations for the Public Transport Network Grant listed in Column B of Part B of Schedule 5, may not be altered downwards in the Division of Revenue Acts for the 2021/22 financial year and 2022/23 financial year. 20
- (4) (a) A municipality that intends to pledge a conditional allocation, or a portion thereof, as security for any obligations in terms of section 48 of the Municipal Finance Management Act, must, in addition to notifying the National Treasury in terms of section 46(3) of that Act, notify the transferring officer and the relevant provincial treasury of that intention and provide the transferring officer and National Treasury at least 21 days to comment before seeking the approval of the municipal council. 25
- (b) A municipality must submit financial and non-financial reports, in the format and on the dates determined by the National Treasury, for any project pledged to be partially or fully funded by using a conditional allocation, or a portion thereof, as security as envisaged in paragraph (a). 30

## Part 2

### *Duties of accounting officers in respect of Schedule 4 to 7 allocations*

#### **Duties of transferring officer in respect of Schedule 4 allocations** 35

9. (1) The transferring officer of a Schedule 4 allocation must—
- (a) ensure that transfers to all provinces and municipalities are—
    - (i) deposited only into the primary bank account of the relevant province or municipality; and
    - (ii) made in accordance with the payment schedule determined in terms of section 23, unless allocations are withheld or stopped in terms of section 18 or 19;
  - (b) monitor information on financial and non-financial performance of programmes partially or fully funded by an allocation in Part A of Schedule 4, in accordance with subsection (2) and the applicable framework; 45
  - (c) monitor information on financial and non-financial performance of the Urban Settlements Development Grant and Integrated City Development Grant against the capital budget and the service delivery and budget implementation plan;
  - (d) comply with the applicable framework; 50
  - (e) submit a quarterly financial and non-financial performance report within 45 days after the end of each quarter to the National Treasury in terms of the applicable framework; and
  - (f) evaluate the performance of programmes funded or partially funded by the allocation and submit such evaluations to the National Treasury within four months after the end of the 2020/21 financial year applicable to a provincial department or a municipality, as the case may be. 55

- (2) Any monitoring programme or system that is used to monitor information on financial and non-financial performance of a programme partially or fully funded by a Schedule 4 allocation must—
- (a) be approved by the National Treasury;
  - (b) not impose any excessive administrative responsibility on receiving officers beyond the provision of standard management and budget information; 5
  - (c) be compatible and integrated with and not duplicate other relevant national, provincial and local systems; and
  - (d) support compliance with section 11(2).
- (3) A transferring officer may only transfer the Urban Settlements Development Grant or the Integrated City Development Grant to a recipient metropolitan municipality if the municipality has— 10
- (a) submitted a built environment performance plan in terms of section 14(1); or
  - (b) been exempted in terms of section 14(5).
- (4) A framework may impose a duty on the accounting officer of a national or provincial department, other than the transferring officer or receiving officer, that contributes to achieving the purpose of the allocation, and the accounting officer must comply with the duty. 15

### **Duties of transferring officer in respect of Schedule 5 or 6 allocations**

- 10.** (1) The transferring officer of a Schedule 5 or 6 allocation must— 20
- (a) not later than 14 days after this Act takes effect, certify to the National Treasury that—
    - (i) any monitoring or system that is used, is compatible and integrated with and does not duplicate other relevant national, provincial and local systems; and 25
    - (ii) any plans required in terms of the framework of a Schedule 5 allocation regarding the use of the allocation by—
      - (aa) a province, have been approved before the start of the financial year; or
      - (bb) a municipality, shall be approved before the start of the financial year; 30
  - (b) in respect of Schedule 5 allocations—
    - (i) transfer funds only after receipt of all information required to be submitted by the receiving officer in terms of this Act and after submission of all relevant information to the National Treasury; 35
    - (ii) transfer funds in accordance with the payment schedule determined in terms of section 23, unless allocations are withheld or stopped in terms of section 18 or 19; and
    - (iii) deposit funds only into the primary bank account of the relevant province or municipality; and 40
  - (c) comply with the applicable framework.
- (2) The transferring officer must submit all relevant information and documentation referred to in subsection (1)(a) to the National Treasury within 14 days after this Act takes effect.
- (3) A transferring officer, who has not complied with subsection (1), must transfer the allocation in the manner instructed by the National Treasury, including transferring the allocation as an unconditional allocation. 45
- (4) Before making the first transfer of any allocation in terms of subsection (1)(b), the transferring officer must take note of any notice in terms of section 31(1) containing the details of the relevant primary bank accounts. 50
- (5) The transferring officer of a Schedule 5 allocation to a municipality is responsible for monitoring financial and non-financial performance information on programmes funded by the allocation.
- (6) (a) The transferring officer of a Schedule 5 or 6 allocation must, as part of the reporting envisaged in section 40(4)(c) of the Public Finance Management Act, but subject to paragraph (b), submit information, in the format determined by the National Treasury, for the month in question, and for the 2020/21 financial year up to the end of that month, on— 55
- (i) the amount of funds transferred to a province or municipality;
  - (ii) the amount of funds for any province or municipality withheld or stopped in terms of section 18 or 19, the reasons for the withholding or stopping and the 60

- steps taken by the transferring officer and the receiving officer to deal with the matters or causes that necessitated the withholding or stopping of the payment;
- (iii) the actual expenditure incurred by the province or municipality in respect of a Schedule 5 allocation;
  - (iv) the actual expenditure incurred by the transferring officer in respect of a Schedule 6 allocation; 5
  - (v) any matter or information that may be required by the applicable framework for the particular allocation; and
  - (vi) such other matters as the National Treasury may determine.
- (b) For purposes of the application of paragraph (a) to Part B of Schedule 5, the period of 15 days envisaged in section 40(4)(c) of the Public Finance Management Act must be construed to mean a period of 20 days. 10
- (7) A transferring officer must submit to the National Treasury—
- (a) a monthly provincial report on infrastructure expenditure partially or fully funded by the Health Facility Revitalisation Grant, National Health Grant, School Infrastructure Backlogs Grant or Maths, Science and Technology Grant, within 22 days after the end of each month, in the format determined by the National Treasury; and 15
  - (b) a quarterly performance report on all programmes partially or fully funded by a Schedule 5 or 6 allocation within 45 days after the end of each quarter, in accordance with the applicable framework. 20
- (8) The transferring officer must evaluate the performance of all programmes partially or fully funded by a Schedule 5 or 6 allocation and submit such evaluations to the National Treasury within four months after the end of the 2020/21 financial year applicable to a provincial department or a municipality, as the case may be. 25
- (9) The transferring officer for the Public Transport Network Grant or Neighbourhood Development Partnership Grant to a metropolitan municipality—
- (a) may only transfer the Grant if the municipality has—
    - (i) submitted a built environment performance plan in terms of section 14(1); or 30
    - (ii) been exempted in terms of section 14(5); and
  - (b) must take into account that built environment performance plan, if applicable, when monitoring and evaluating the performance of the municipality and assessing envisaged plans and allocations for the municipality.
- (10) The transferring officer of the Human Settlements Development Grant may only transfer the Grant to a province after the relevant receiving officer has complied with section 12(6)(a) and (b). 35
- (11) A framework may impose a duty on the accounting officer of a national or provincial department, other than the transferring officer or receiving officer, that contributes to achieving the purpose of the allocation and the accounting officer must comply with the duty. 40

#### **Duties of receiving officer in respect of Schedule 4 allocations**

- 11.** (1) The receiving officer of a Schedule 4 allocation is responsible for—
- (a) complying with the applicable framework; and
  - (b) the manner in which the allocation received from a transferring officer is allocated and spent. 45
- (2) The receiving officer of a municipality must—
- (a) ensure and certify to the National Treasury that the municipality—
    - (i) indicates each programme partially or fully funded by a Schedule 4 allocation in its annual budget and that the allocation is specifically and exclusively appropriated in that budget for utilisation only according to the purpose of the allocation; and 50
    - (ii) makes public, in terms of section 21A of the Municipal Systems Act, the conditions and other information in respect of the allocation, to facilitate performance measurement and the use of required inputs and outputs; 55
  - (b) when submitting the municipality's statements in terms of section 71 of the Municipal Finance Management Act for September 2020, December 2020, March 2021 and June 2021, report to the transferring officer, the relevant provincial treasury and the National Treasury— 60

- (i) in respect of the Urban Settlements Development Grant and the Integrated City Development Grant, on financial performance against its capital budget and the measures defined in its service delivery and budget implementation plan; and
- (ii) in respect of any other Schedule 4 allocation, on financial performance of programmes partially or fully funded by the allocation; and
- (c) within 30 days after the end of each quarter, report to the transferring officer and the National Treasury—
  - (i) in respect of the Urban Settlements Development Grant and the Integrated City Development Grant, on non-financial performance for that quarter against the measures defined in its service delivery and budget implementation plan; and
  - (ii) in respect of any other Schedule 4 allocation, on non-financial performance of programmes partially or fully funded by the allocation.
- (3) The National Treasury must make the report submitted to it in terms of subsection (2)(b) or (c) available to the transferring officer of the Urban Settlements Development Grant, Public Transport Network Grant and Integrated National Electrification Programme Grant and the accounting officer of any other national department having responsibilities relating to the applicable allocation.
- (4) The receiving officer of a provincial department must submit to the relevant provincial treasury and the transferring officer—
  - (a) as part of the report required in section 40(4)(c) of the Public Finance Management Act, reports on financial and non-financial performance of programmes partially or fully funded by a Schedule 4 allocation;
  - (b) a quarterly non-financial performance report of programmes partially or fully funded by a Schedule 4 allocation within 30 days after the end of each quarter; and
  - (c) a monthly provincial report on infrastructure programmes partially or fully funded by a Schedule 4 allocation within 15 days after the end of each month, in the format determined by the National Treasury.
- (5) The receiving officer must report on programmes partially or fully funded by a Schedule 4 allocation against the applicable framework in its annual financial statements and annual report.
- (6) The receiving officer must evaluate the financial and non-financial performance of the provincial department or municipality, as the case may be, in respect of programmes partially or fully funded by a Schedule 4 allocation and submit such evaluation to the transferring officer and the relevant provincial treasury within two months—
  - (a) in respect of a provincial department, after the end of the 2020/21 financial year of the provincial department; and
  - (b) in respect of a municipality, after the end of the 2020/21 financial year of the municipality.

#### **Duties of receiving officer in respect of Schedule 5 or 7 allocations**

- 12. (1) The receiving officer of a Schedule 5 or 7 allocation must comply with the applicable framework.
- (2) The relevant receiving officer must, in respect of a Schedule 5 or 7 allocation transferred to—
  - (a) a province, as part of the report required in section 40(4)(c) of the Public Finance Management Act, report on the matters referred to in subsection (3) and submit a copy of that report to the relevant provincial treasury and the transferring officer;
  - (b) a municipality, as part of the report required in terms of section 71 of the Municipal Finance Management Act, report on the matters referred to in subsection (4) and submit a copy of that report to the relevant provincial treasury, the National Treasury and the relevant transferring officer; and
  - (c) a province or municipality, submit a quarterly non-financial performance report within 30 days after the end of each quarter.
- (3) A report for a province in terms of subsection (2)(a) must set out for the month in question and for the 2020/21 financial year up to the end of the month—
  - (a) the amount received by the province;
  - (b) the amount of funds stopped or withheld in terms of section 18 or 19, the reason for the stopping or withholding and any remedial action taken;

- (c) the actual expenditure by the province in respect of Schedule 5 and 7 allocations;
  - (d) the amount transferred to any national or provincial public entity to implement a programme funded by a Schedule 5 allocation on behalf of a province or to assist the province in implementing the programme; 5
  - (e) the available figures regarding the expenditure by a public entity referred to in paragraph (d);
  - (f) the extent of compliance with this Act and with the conditions of the allocation provided for in its framework, based on the available information at the time of reporting; 10
  - (g) an explanation of any material difficulties experienced by the province regarding an allocation which has been received and a summary of the steps taken to deal with such difficulties;
  - (h) any matter or information that may be determined in the framework for the allocation; and 15
  - (i) such other matters and information as the National Treasury may determine.
- (4) A report for a municipality in terms of subsection (2)(b) must set out for the month in question and for the 2020/21 financial year up to the end of the month—
- (a) the amount received by the municipality;
  - (b) the amount of funds stopped or withheld in terms of section 18 or 19, the reason for the stopping or withholding and any remedial action taken; 20
  - (c) the extent of compliance with this Act and with the conditions of the allocation or part of the allocation provided for in its framework;
  - (d) an explanation of any material difficulties experienced by the municipality regarding an allocation which has been received and a summary of the steps taken to deal with such difficulties; 25
  - (e) any matter or information that may be determined in the framework for the allocation; and
  - (f) such other matters and information as the National Treasury may determine.
- (5) The receiving officer must evaluate the financial and non-financial performance of the provincial department or municipality, as the case may be, in respect of programmes partially or fully funded by a Schedule 5 allocation and submit such evaluation to the transferring officer and the relevant provincial treasury within two months after the end of the 2020/21 financial year applicable to a provincial department or a municipality, as the case may be. 30 35
- (6) (a) The receiving officer of the Human Settlements Development Grant must, in consultation with the transferring officer and after consultation with each affected municipality, publish in the *Gazette*, within 14 days after this Act takes effect, the planned expenditure from the Human Settlements Development Grant, for the 2020/21 financial year, the 2021/22 financial year and the 2022/23 financial year per municipality with level one or level two accreditation. 40
- (b) The planned expenditure must—
    - (i) indicate the expenditure to be undertaken directly by the province and transfers to each municipality; and
    - (ii) include a payment schedule for transfers to each municipality in the 2020/21 financial year. 45
  - (c) The receiving officer of the Human Settlements Development Grant may, by notice in the *Gazette*, after taking into account the performance of the municipality and after consultation with the affected municipality and in consultation with the transferring officer, amend the planned expenditure for that municipality published in terms of paragraph (a). 50

### **Duties of receiving officer in respect of infrastructure conditional allocations to provinces**

- 13.** (1) The receiving officer of the Education Infrastructure Grant, Health Facility Revitalisation Grant, Human Settlements Development Grant or Provincial Roads Maintenance Grant must— 55
- (a) submit to the relevant provincial treasury a list of all infrastructure projects partially or fully funded by the relevant Grant over the medium term expenditure framework for tabling as part of the estimates of provincial expenditure in the provincial legislature in the format determined by the National Treasury; 60

- (b) within seven days after the tabling in the legislature, submit the list to the transferring officer and the National Treasury;
  - (c) after consultation with the relevant provincial treasury and the transferring officer, submit any amendments to the list, together with reasons for the amendments, to the provincial treasury for tabling with the adjusted estimates of provincial expenditure; 5
  - (d) within seven days after the tabling in the legislature, submit the amended list to the transferring officer and the National Treasury;
  - (e) report, in the format and on the date determined by the National Treasury, to the transferring officer, relevant provincial treasury and the National Treasury, on all infrastructure expenditure partially or fully funded by the relevant Grant; 10
  - (f) within 15 days after the end of each month, in the format determined by the National Treasury, submit to the relevant provincial treasury and transferring officer, a draft report on infrastructure programmes partially or fully funded from those Grants; 15
  - (g) within 22 days after the end of each month, submit to the National Treasury, a final report on infrastructure programmes partially or fully funded from those Grants; and
  - (h) within two months after the end of the 2020/21 financial year— 20
    - (i) based on the infrastructure budget of the province, evaluate the financial and non-financial performance of the province in respect of programmes partially or fully funded by the Grant; and
    - (ii) submit the evaluation to the transferring officer, the relevant provincial treasury and the National Treasury. 25
- (2) The receiving officer of the Education Infrastructure Grant or Health Facility Revitalisation Grant must—
- (a) within 22 days after the end of each quarter, submit to the transferring officer, the relevant provincial treasury and the National Treasury, a final report on the filling of posts on the approved establishment for the infrastructure unit of the affected provincial department; and 30
  - (b) ensure that projects comply with infrastructure delivery management best practice standards and guidelines, as identified and approved by the National Treasury.

#### **Infrastructure conditional allocations to metropolitan municipalities** 35

- 14.** (1) The receiving officer of a metropolitan municipality must, unless exempted in terms of subsection (5) and by 29 May 2020, submit to the National Treasury a built environment performance plan that includes all projects partially or fully funded by—
- (a) the Integrated City Development Grant, Urban Settlements Development Grant, Public Transport Network Grant or Neighbourhood Development Partnership Grant referred to in Part B of Schedule 4 and Part B of Schedule 5; and 40
  - (b) money allocated for the Human Settlements Development Grant received from a province.
- (2) The built environment performance plan, referred to in subsection (1), must— 45
- (a) be in the format determined by the National Treasury, including information on the project pipeline for catalytic urban development projects;
  - (b) demonstrate that the planned expenditure in the municipality's integration zones from all the Grants referred to in subsection (1)(a) collectively, increases annually; and 50
  - (c) be approved by its municipal council.
- (3) The National Treasury must, within seven days after the submission of a built environment performance plan in terms of subsection (1), make the built environment performance plan available to all affected transferring officers and provincial departments. 55
- (4) (a) The receiving officer must report in its annual financial statements on the expenditure from each of the Grants mentioned in subsection (1)(a) in each integration zone of the municipality against its built environment performance plan.
- (b) The transferring officer of the Integrated National Electrification Programme Grant, referred to in Part B of Schedule 6, must report in its annual financial statements on the expenditure in each integration zone of every municipality against the built environment performance plan of the municipality. 60

- (5) The National Treasury may—
- (a) if satisfied that the planning processes of a metropolitan municipality incorporates the content, practices, processes and approach in a built environment performance plan; and
  - (b) on application of the municipality in the form determined by the National Treasury, 5
- exempt the municipality from submitting a built environment performance plan.

#### **Duties in respect of annual financial statements and annual reports for 2020/21**

- 15.** (1) The 2020/21 financial statements of a national department responsible for transferring an allocation in Schedule 4, 5 or 7 must, in addition to any requirement of any other legislation— 10
- (a) indicate the total amount of that allocation transferred to a province or municipality;
  - (b) indicate any transfer withheld or stopped in terms of section 18 or 19 in respect of each province or municipality and the reason for the withholding or stopping; 15
  - (c) indicate any transfer not made in accordance with the payment schedule or amended payment schedule, unless withheld or stopped in terms of section 18 or 19, and the reason for the non-compliance;
  - (d) indicate any reallocations by the National Treasury in terms of section 20; 20
  - (e) certify that all transfers to a province or municipality were deposited into the primary bank account of a province or municipality; and
  - (f) indicate the funds, if any, used for the administration of the allocation by the receiving officer.
- (2) The 2020/21 annual report of a national department responsible for transferring an allocation in Schedule 4, 5 or 7 must, in addition to any requirement of any other legislation, indicate— 25
- (a) the reasons for the withholding or stopping of all transfers to a province or municipality in terms of section 18 or 19;
  - (b) the extent that compliance with this Act by provinces or municipalities was monitored; 30
  - (c) the extent that the allocation achieved its objectives and outputs; and
  - (d) any non-compliance with this Act and the steps taken to address the non-compliance.
- (3) The 2020/21 financial statements of a provincial department receiving an allocation in Schedule 4, 5 or 7 must, in addition to any requirement of any other legislation— 35
- (a) indicate the total amount of all allocations received;
  - (b) indicate the total amount of allocations received that were budgeted to be transferred to municipalities and public entities, including— 40
    - (i) the amounts transferred to municipalities and public entities, respectively; and
    - (ii) the reasons for any discrepancies;
  - (c) indicate the total amount of actual expenditure on each Schedule 5 or 7 allocation; and 45
  - (d) certify that all transfers of allocations in Schedules 4, 5 and 7 to the province were deposited into the primary bank account of the province.
- (4) The 2020/21 annual report of a provincial department receiving an allocation in Schedule 4, 5 or 7 must, in addition to any requirement of any other legislation— 50
- (a) indicate the extent that the provincial department complied with this Act;
  - (b) indicate the steps taken to address non-compliance with this Act;
  - (c) indicate the extent that the allocation achieved its objectives and outputs;
  - (d) contain any other information that may be specified in the framework for the allocation; and
  - (e) contain such other information as the National Treasury may determine. 55
- (5) The 2020/21 financial statements and annual report of a municipality receiving an allocation in Schedule 4, 5 or 7 must be prepared in accordance with the Municipal Finance Management Act.

(6) To facilitate the monitoring of performance and the audit of the allocations for the 2020/21 financial year, the National Treasury may determine the format in which receiving officers must report on conditional allocations to municipalities in terms of sections 11(2)(c) and 12(2)(c).

### Part 3

5

#### *Matters relating to Schedule 4 to 7 allocations*

#### **Publication of allocations and frameworks**

- 16.** (1) The National Treasury must, within 14 working days after this Act takes effect, publish by notice in the *Gazette*—
- (a) the conditional allocations per municipality for Part B of Schedule 5 allocations;
  - (b) the indicative conditional allocations per province for Part A of Schedule 6 allocations and per municipality for Part B of Schedule 6 allocations; and
  - (c) the framework for each conditional allocation in Schedules 4 to 7.
- (2) For purposes of correcting an error or omission in an allocation or framework published in terms of subsection (1)(a) or (c), the National Treasury must—
- (a) on its initiative and after consultation with the relevant transferring officer; or
  - (b) at the written request of the relevant transferring officer,
- by notice in the *Gazette*, amend the affected allocation or framework.
- (3) The National Treasury may, after consultation with the relevant transferring officer and by notice in the *Gazette*, amend an indicative conditional allocation in Schedule 6 published in terms of subsection (1)(b).
- (4) Before amending a framework in terms of subsection (2), the National Treasury must submit the proposed amendment to Parliament for comment for a period of 14 days when Parliament is in session.
- (5) An amendment of an allocation or framework in terms of subsection (2) or (3) takes effect on the date of publication of the notice in the *Gazette*.

#### **Expenditure in terms of purpose and subject to conditions**

- 17.** (1) Despite any other legislation to the contrary, an allocation referred to in Schedules 4 to 7 may only be used for the purpose stipulated in the Schedule concerned and in accordance with the applicable framework.
- (2) (a) A framework may provide for components within a conditional allocation that are subject to specific conditions.
- (b) A transferring officer may shift funds from one component to another—
    - (i) after consulting the relevant receiving officer;
    - (ii) with the approval of the National Treasury; and
    - (iii) in accordance with the applicable appropriation legislation.
  - (c) The National Treasury must publish a notice in the *Gazette* of a shift of funds in terms of paragraph (b).
- (3) A receiving officer may not allocate any portion of a Schedule 5 allocation to any other organ of state for the performance of a function, unless the receiving officer and the organ of state agree on the obligations of both parties and a payment schedule, the receiving officer has notified the transferring officer, the relevant provincial treasury and the National Treasury of the agreed payment schedule and—
- (a) the allocation—
    - (i) is approved in the budget for the receiving provincial department or municipality; or
    - (ii) if not already so approved—
      - (aa) the receiving officer notifies the National Treasury that the purpose of the allocation is not to artificially inflate the expenditure estimates of the relevant provincial department or municipality and indicates the reasons for the allocation; and
      - (bb) the National Treasury approves the allocation; or
  - (b) the allocation is for the payment for goods or services procured in accordance with the procurement prescripts applicable to the relevant province or municipality and, if it is an advance payment, paragraph (a)(ii) applies with the necessary changes.

- (4) The receiving officer must submit a copy of the agreement envisaged in subsection (3) to the transferring officer and the National Treasury before payment is made.
- (5) For purposes of the implementation of a Schedule 6 allocation to a municipality—
- (a) Eskom Holdings Limited may receive funds directly from the transferring officer of the Department of Energy; or 5
  - (b) a water board, as defined in section 1 of the Water Services Act, 1997 (Act No. 108 of 1997), may receive funds directly from the transferring officer of the Department of Water and Sanitation.
- (6) (a) For purposes of the Human Settlements Development Grant, a receiving officer and a municipality with level one or two accreditation or functions assigned in terms of section 126 of the Constitution to administer all aspects, including financial administration of a national housing programme (herein called “assigned functions”) as at 1 April 2020, must, by the date determined by the National Treasury—
- (i) enter into a payment schedule; and 10
  - (ii) submit, through the relevant provincial treasury, the payment schedule to the National Treasury. 15
- (b) If a municipality receives accreditation after 1 April 2020, the National Treasury may approve that paragraph (a) applies to that municipality.
- (c) If the transfer of the Human Settlements Development Grant to a municipality with assigned functions is withheld or stopped in terms of section 18 or 19, the receiving officer must request the National Treasury to amend the payment schedule in terms of section 24. 20
- (7) If a function, which is partially or fully funded by a conditional allocation to a province, is assigned to a municipality, as envisaged in section 10 of the Municipal Systems Act— 25
- (a) the funds from the conditional allocation for the province for the function must be stopped in terms of section 19 and reallocated in terms of section 20 to the municipality, which has been assigned the function;
  - (b) if possible, the province must finalise any project or fulfil any contract regarding the function before the date the function is assigned and, if not finalised, the province must notify the relevant municipality and the National Treasury; 30
  - (c) any project or contract regarding the function not finalised or fulfilled at the date at which the function is assigned, must be subjected to an external audit and the province and the municipality must enter into an agreement to complete the project or fulfil the contract through ceding it to the municipality; 35
  - (d) money that is retained by the province for any contract related to the function that is not ceded to the municipality must be spent by 31 March 2021 and shall not be available in terms of section 30 of the Public Finance Management Act or section 22(2); 40
  - (e) the receiving officer of the province must, within seven days after the function is assigned, submit to the transferring officer and the National Treasury a list of liabilities that are attached to the function, but that were not transferred to the municipality, to provide for the adjustment of the applicable allocations; and 45
  - (f) the receiving officer of the municipality must, within one month from the date of the stopping of funds in paragraph (a), submit to the transferring officer a revised plan for its planned expenditure. 50

### **Withholding of allocations**

- 18.** (1) Subject to subsections (2) and (3), a transferring officer may withhold the transfer of a Schedule 4 or 5 allocation, or any portion thereof, for a period not exceeding 30 days, if—
- (a) the province or municipality does not comply with any provision of this Act; 55
  - (b) roll-overs of conditional allocations approved by the National Treasury in terms of section 22 have not been spent; or
  - (c) a satisfactory explanation is not given for significant under-expenditure on previous transfers during the 2020/21 financial year.

(2) If an allocation is withheld in terms of subsection (1), it suspends the applicable payment schedule, approved in terms of section 23(3), until it is amended in terms of section 24.

(3) The amount withheld in terms of this section in the case of the Health Professions Training and Development Grant or the National Tertiary Services Grant listed in Part A of Schedule 4 may not exceed five per cent of the next transfer as contained in the relevant payment schedule. 5

(4) A transferring officer must, at least seven working days before withholding an allocation in terms of subsection (1)—

(a) give the relevant receiving officer— 10

(i) notice of the intention to withhold the allocation;

(ii) an opportunity to submit written representations as to why the allocation should not be withheld; and

(iii) the period within which to submit written representations; and

(b) inform the relevant provincial treasury and the National Treasury, and in respect of any conditional allocation to a municipality, also the provincial department responsible for local government of the withholding. 15

(5) A notice envisaged in subsection (4)(a)(i) must include the reasons for withholding the allocation and the intended duration of the withholding to inform the amendment of the payment schedule in terms of section 24. 20

(6) (a) The National Treasury may instruct, or approve a request from, the transferring officer to withhold an allocation in terms of subsection (1) for a period longer than 30 days, but not exceeding 120 days, if the withholding shall—

(i) facilitate compliance with this Act; or

(ii) minimise the risk of under-spending by the relevant provincial department or municipality. 25

(b) When requesting the withholding of an allocation in terms of this subsection, a transferring officer must submit to the National Treasury proof of compliance with subsection (4) and any representations received from the receiving officer.

(c) The transferring officer must again comply with subsection (4) when the National Treasury instructs, or approves a request by, the transferring officer in terms of paragraph (a). 30

### Stopping of allocations

**19.** (1) Despite section 18, the National Treasury may, in its discretion or on request of a transferring officer or a receiving officer, stop the transfer of a Schedule 4 or 5 allocation, or a portion thereof, to a province or municipality— 35

(a) in the case of—

(i) a province, if a serious or persistent material breach of this Act, as envisaged in section 216(2) of the Constitution, occurs; or

(ii) a municipality, if— 40

(aa) a serious or persistent material breach of this Act, as envisaged in section 216(2) of the Constitution, read with section 38(1)(b)(i) of the Municipal Finance Management Act, occurs; or

(bb) a breach or failure to comply, as envisaged in section 38(1)(b)(ii) of the Municipal Finance Management Act, occurs; 45

(b) if the National Treasury anticipates that a province or municipality shall substantially underspend on the allocation, or any programme, partially or fully funded by the allocation, in the 2020/21 financial year; or

(c) for purposes of the assignment of a function from a province to a municipality, as envisaged in section 10 of the Municipal Systems Act. 50

(2) The National Treasury must, before stopping an allocation in terms of subsection (1)(a)(i) or (b)—

(a) comply with the procedures in section 18(4)(a); and

(b) inform the relevant provincial treasury of its intention to stop the allocation.

(3) The National Treasury must, before stopping an allocation in terms of subsection (1)(a)(ii), comply with the applicable provisions of section 38 of the Municipal Finance Management Act. 55

(4) The National Treasury must give notice in the *Gazette* of the stopping of an allocation in terms of this section and include in the notice the effective date of, and reason for, the stopping. 60

- (5) (a) If—
- (i) an allocation, or any portion thereof, is stopped in terms of subsection (1)(a) or (b); and
  - (ii) the relevant transferring officer certifies, in writing, to the National Treasury that the payment of an amount in terms of a statutory or contractual obligation is overdue and the allocation, or a portion thereof, was intended for payment of the amount,

the National Treasury may, by notice in the *Gazette*, approve that the allocation, or any portion thereof, be used to pay that amount partially or fully.

(b) The utilisation of funds envisaged in this subsection is a direct charge against the National Revenue Fund.

### Reallocation of funds

20. (1) When a Schedule 4 or 5 allocation, or a portion thereof, is stopped in terms of section 19(1)(a) or (b), the National Treasury may, after consultation with the transferring officer and the relevant provincial treasury, determine the portion of the allocation to be reallocated, as the same type of allocation as it was allocated originally, to one or more provinces or municipalities, on condition that the allocation must be spent by the end of the 2020/21 financial year.

(2) (a) When a Schedule 4 or 5 allocation, or a portion thereof, is stopped in terms of section 19(1)(c), the National Treasury must, after consultation with the transferring officer and the relevant provincial treasury, determine the portion of the allocation to be reallocated, as the same type of allocation as it was allocated originally, to the affected municipalities, on condition that the allocation must be spent by the end of the 2020/21 financial year.

(b) The portion of the allocation reallocated in terms of paragraph (a) is, with effect from the date of the notice in the *Gazette* in terms of subsection (4)(a), regarded as having been converted to an allocation in Part B of the same Schedule it appears before the reallocation.

(3) (a) If the transferring officer of a Schedule 6 allocation indicates, in writing, to the National Treasury that a portion of the allocation is likely to be underspent, or needs to be reprioritised to meet a priority, the National Treasury may, at the request of the transferring officer, determine that the portion be reallocated, as the same type of allocation as it was allocated originally, to a provincial department of another province or to another municipality.

(b) Before requesting a reallocation, the transferring officer must notify the affected provincial department or municipality of the proposed reallocation and give the provincial department or municipality at least 14 days to provide comments and propose changes.

(c) When making a request in terms of paragraph (a), the transferring officer must submit to the National Treasury comments and proposed changes provided by the affected provincial department or municipality in terms of paragraph (b).

(d) The reallocated portion must, as far as possible, be spent by the end of the 2020/21 financial year.

(e) The reallocated portion is regarded as having been converted to an allocation to the relevant provincial department or municipality with effect from the date of the notice in the *Gazette* in terms of subsection (4)(a).

(4) (a) The National Treasury must—

- (i) give notice in the *Gazette* of a reallocation in terms of subsection (1), (2) or (3); and
- (ii) provide a copy of the notice to the transferring officer and each affected receiving officer.

(b) The reallocation of a portion of an allocation not spent by the end of the 2020/21 financial year is eligible for a roll-over in terms of section 22(2).

(5) (a) When an intervention in terms of section 100 or 139 of the Constitution or section 137, 139 or 150 of the Municipal Finance Management Act takes place, the National Treasury may, despite subsection (1) and on such conditions as it may determine, authorise in relation to—

- (i) section 100 of the Constitution, the transferring officer to spend an allocation stopped in terms of section 19 on behalf of the relevant province;
- (ii) section 139 of the Constitution or section 137 or 139 of the Municipal Finance Management Act, the intervening province to spend an allocation stopped in terms of section 19 on behalf of the relevant municipality; or

(iii) section 150 of the Municipal Finance Management Act, the relevant transferring officer to spend an allocation stopped in terms of section 19 on behalf of the relevant municipality.

(b) An allocation that is spent by the transferring officer or intervening province referred to in paragraph (a) must, for the purposes of this Act, be regarded as a Schedule 6 allocation from the date on which the authorisation is given. 5

(6) (a) On a joint request by the transferring officer and the National Disaster Management Centre, established by section 8 of the Disaster Management Act, 2002 (Act No. 57 of 2002), the National Treasury may approve that a conditional allocation in Schedule 4, 5 or 6, or a portion thereof, be reallocated to pay for the alleviation of the impact of a declared disaster or the reconstruction or rehabilitation of infrastructure damage caused by a declared disaster. 10

(b) Before the National Treasury approves a reallocation, the receiving officer of the conditional allocation in Schedule 4 or 5 or the transferring officer of a Schedule 6 allocation must confirm that the affected funds are not committed in terms of any statutory or contractual obligation. 15

(c) The reallocated funds must be used in the 2020/21 financial year in the same sphere that the allocation was originally made and for the same functional area that the original allocation relates to.

(d) The transferring officer must, after consultation with the National Disaster Management Centre and with the approval of the National Treasury, determine the conditions for spending the reallocated funds. 20

(e) Subsection (4) applies, with the necessary changes, to a reallocation in terms of this subsection to another province or municipality.

#### **Conversion of allocations**

25

**21.** (1) If satisfied that the relevant provincial department or municipality has demonstrated the capacity to implement projects, the National Treasury may, at the request of the transferring officer and after consultation with the receiving officer, convert any portion of—

(a) an allocation listed in Part B of Schedule 6 to one listed in Part B of Schedule 5; 30

(b) the School Infrastructure Backlogs Grant to the Education Infrastructure Grant; or

(c) the National Health Insurance Indirect Grant listed in Part A of Schedule 6 to the Health Facility Revitalisation Grant, HIV, TB, Malaria and Community Outreach Grant, Statutory Human Resources, Training and Development Grant or the National Health Insurance Grant listed in Part A of Schedule 5. 35

(2) The National Treasury may, after consultation with the relevant transferring officer, receiving officer and provincial treasury, convert any portion of an allocation listed in Part B of Schedule 5 to one listed in Part B of Schedule 6, if it is satisfied that— 40

(a) the conversion shall prevent under-expenditure or improve the level of service delivery in respect of the allocation in question;

(b) the affected national or provincial department or municipality has demonstrated the capacity to implement projects;

(c) the transferring officer has made a demonstrable effort to strengthen the capacity of the receiving officer to implement the allocation, but the receiving officer is still not capable of meeting all the requirements of the allocation; and 45

(d) there is a history of poor performance in the previous two financial years for the relevant allocation to the receiving officer, including withholding and stopping of allocations. 50

(3) If satisfied that a municipality has failed to follow the applicable procurement prescripts, the National Treasury may, at the request of the transferring officer or in its discretion, after consultation with the relevant transferring officer and receiving officer, convert any portion of an allocation listed in Part B of Schedule 5 to one listed in Part B of Schedule 6. 55

(4) (a) Any portion of an allocation, except the School Infrastructure Backlogs Grant, converted in terms of subsections (1), (2) or (3) must—

(i) be used for the same province or municipality to which the allocation was originally made; and

- (ii) if—
  - (aa) possible, be used to implement the same project or projects that were planned if the allocation had not been converted; or
  - (bb) not possible, the receiving officer must sign an agreement that defines any new project to be funded, before it is implemented. 5
- (b) The School Infrastructure Backlogs Grant must be used—
  - (i) for the same province to which the allocation was originally made; and
  - (ii) to implement the same project or projects that were planned if the allocation had not been converted.
- (5) The National Treasury must— 10
  - (a) give notice in the *Gazette* of a conversion in terms of subsection (1), (2) or (3); and
  - (b) provide a copy of the notice to the transferring officer and each affected receiving officer.
- (6) A conversion in terms of subsection (1), (2) or (3) takes effect on the date of publication of the notice in terms of subsection (5)(a). 15
- (7) If an allocation listed in Part B of Schedule 7 is insufficient for a declared disaster or housing emergency referred to in section 26(3)(a), the National Treasury may, after consultation with, or on the request of, the relevant transferring officer, convert any portion of— 20
  - (a) the Provincial Disaster Relief Grant listed in Part A of Schedule 7 to the Municipal Disaster Relief Grant listed in Part B of Schedule 7;
  - (b) the Municipal Disaster Relief Grant listed in Part B of Schedule 7 to the Provincial Disaster Relief Grant listed in Part A of Schedule 7;
  - (c) the Provincial Emergency Housing Grant listed in Part A of Schedule 7 to the Municipal Emergency Housing Grant listed in Part B of Schedule 7; or 25
  - (d) the Municipal Emergency Housing Grant listed in Part B of Schedule 7 to the Provincial Emergency Housing Grant listed in Part A of Schedule 7.
- (8) The National Treasury must—
  - (a) in the notice published in terms of section 26(3)(c), include notification of the conversion in terms of subsection (7) and the effective date referred to in subsection (9); and 30
  - (b) provide a copy of the notice to the transferring officer.
- (9) A conversion in terms of subsection (7) takes effect on the date that the National Treasury approves it. 35

### Unspent conditional allocations

22. (1) Despite a provision to the contrary in the Public Finance Management Act or the Municipal Finance Management Act, any conditional allocation, or a portion thereof, that is not spent at the end of the 2020/21 financial year reverts to the National Revenue Fund, unless the roll-over of the allocation is approved in terms of subsection (2). 40
- (2) The National Treasury may, at the request of a transferring officer, receiving officer or provincial treasury, approve a roll-over of a conditional allocation to the 2021/22 financial year if the unspent funds are committed to identifiable projects.
- (3) (a) The receiving officer must ensure that any funds that must revert to the National Revenue Fund in terms of subsection (1), are paid into that Fund by the date determined by the National Treasury. 45
- (b) The receiving officer must—
  - (i) in the case of a provincial department, request the roll-over of unspent funds through its provincial treasury; and 50
  - (ii) inform the transferring officer of all processes regarding the request.
- (4) (a) The National Treasury may, subject to paragraphs (b) and (c), offset any funds that must revert to the National Revenue Fund in terms of subsection (1), but not paid into that Fund by the date determined in terms of subsection (3)(a)—
  - (i) in respect of a province, against future transfers of conditional allocations to that province; or 55
  - (ii) in respect of a municipality, against future transfers of the equitable share or conditional allocations to that municipality.
- (b) Before any funds are offset in terms of paragraph (a), the National Treasury must give the relevant transferring officer, province or municipality— 60

- (i) notice of the intention to offset amounts against future allocations, the intended amount to be offset against allocations, the intended date for the offsetting and the reasons for the offsetting; and
- (ii) an opportunity, within 14 days of receipt of the notice, to—
  - (aa) propose an alternative date for offsetting; 5
  - (bb) make written submissions why the full or a part of the amount should not be offset; or
  - (cc) propose an alternative date or dates by which the amount, or portions thereof, must be paid into the National Revenue Fund.
- (c) The National Treasury must— 10
  - (i) accept the date or dates proposed in terms of paragraph (b)(ii)(aa) or (cc) or determine a different date or dates; or
  - (ii) accept or reject the submissions made in terms of paragraph (b)(ii)(bb).
- (5) (a) The National Treasury may amend the amount of the equitable share or a conditional allocation offset in terms of subsection (4). 15
  - (b) If the amendment envisaged in paragraph (a) results in an underpayment to a municipality—
    - (i) in respect of the equitable share of the municipality, the department responsible for local government must, despite section 5(3), transfer the difference to the municipality within 10 days; or 20
    - (ii) in respect of a conditional allocation of the municipality, the transferring officer must, despite the payment schedule envisaged in section 23(3), transfer the difference to the municipality within 10 days.
  - (c) If the amendment in terms of paragraph (a) results in an overpayment to a municipality, section 25 applies. 25

## CHAPTER 4

### MATTERS RELATING TO ALL ALLOCATIONS

#### Payment requirements

- 23.** (1) (a) The National Treasury must, after consultation with the provincial treasury, determine the payment schedule for the transfer of a province's equitable share allocation. 30
- (b) In determining the payment schedule, the National Treasury must take into account the monthly expenditure commitments of provinces and seek to minimise risk and debt servicing costs for national and provincial government.
- (c) Despite paragraph (a), the National Treasury may advance funds to a province in respect of its equitable share, or a portion thereof, which has not yet fallen due for transfer in terms of the payment schedule— 35
- (i) for cash management purposes relating to the corporation for public deposits account or when an intervention in terms of section 100 of the Constitution takes place; and 40
  - (ii) on such conditions as it may determine.
- (d) Any advance in terms of paragraph (c) must be offset against transfers to the province, which would otherwise become due in terms of the payment schedule.
- (2) (a) The National Treasury must, after consultation with the national department responsible for local government, determine the amount of a municipality's equitable share allocation to be transferred on each date referred to in section 5(3). 45
- (b) If an amount less than the amount approved in terms of paragraph (a) is paid to a municipality, the difference must, despite section 5(3), be paid within 10 days after it comes to the attention of the national department responsible for local government.
- (c) Despite paragraph (a), the National Treasury may approve a request or direct that the equitable share, or a portion thereof, which has not yet fallen due for transfer in terms of section 5(3), be advanced to a municipality— 50
- (i) after consultation with the national department responsible for local government; 55
  - (ii) for purposes of cash management in the municipality or an intervention in terms of section 139 of the Constitution or section 137, 139 or 150 of the Municipal Finance Management Act; and
  - (iii) on such conditions as the National Treasury may determine.

(d) Any advance in terms of paragraph (c) must be offset against transfers to the municipality, which would otherwise become due in terms of section 5(3).

(3) (a) Subject to section 28(1), the National Treasury must, within 14 days after this Act takes effect, approve the payment schedule for the transfer of an allocation listed in Schedule 4 or 5 to a province or municipality. 5

(b) The transferring officer of a Schedule 4 or 5 allocation must submit a payment schedule to the National Treasury for approval before the first transfer is made.

(c) Before the submission of a payment schedule in terms of paragraph (b), the transferring officer must, in relation to a Schedule 4 or 5 allocation, consult the relevant receiving officer. 10

(4) The transferring officer of a Schedule 4 or 5 allocation must provide the receiving officer and the relevant provincial treasury with a copy of the approved payment schedule before making the first transfer in terms thereof.

(5) The transfer of a Schedule 4 or 5 allocation to a municipality must accord with the financial year of the municipality. 15

(6) Each transfer of an equitable share or a conditional allocation to a municipality in terms of this Act must be made through a payment system provided by the National Treasury.

### **Amendment of payment schedule**

**24.** (1) (a) Subject to subsection (2), a transferring officer of a Schedule 4 or 5 allocation must, within seven days of the withholding or stopping of an allocation in terms of section 18 or 19, submit an amended payment schedule to the National Treasury for approval. 20

(b) No transfers may be made until the National Treasury has approved the amended payment schedule. 25

(2) For purposes of better management of debt and cash-flow or addressing financial mismanagement or financial misconduct or slow or accelerated expenditure, the National Treasury may amend any payment schedule for an allocation listed in Schedule 2, 4 or 5, after notifying, in the case of—

(a) an allocation to a province, its provincial treasury; 30

(b) an allocation to a municipality, the national department responsible for local government;

(c) a Schedule 4 or 5 allocation, the relevant transferring officer.

(3) The amendment of a payment schedule in terms of subsection (1) or (2) must take into account— 35

(a) the monthly expenditure commitments of provinces or municipalities;

(b) the revenue at the disposal of provinces or municipalities; and

(c) the minimisation of risk and debt servicing costs for all three spheres of government.

(4) The transferring officer must immediately inform the receiving officer of any amendment to a payment schedule in terms of subsection (1) or (2). 40

### **Transfers made in error or fraudulently**

**25.** (1) Despite any other legislation to the contrary, the transfer of an allocation that is an overpayment to a province, municipality or public entity, made in error or fraudulently, is regarded as not legally due to that province, municipality or public entity, as the case may be. 45

(2) The responsible transferring officer must, without delay, recover an overpayment referred to in subsection (1), unless an instruction has been issued in terms of subsection (3).

(3) The National Treasury may instruct that the recovery referred to in subsection (2) be effected by setoff against future transfers to the affected province, municipality or public entity in terms of a payment schedule. 50

### **New allocations during financial year and Schedule 7 allocations**

**26.** (1) If further allocations are made to provinces or municipalities, as envisaged in section 6(3), the National Treasury must, before the transfer of any funds to a province or municipality, by notice in the *Gazette* and as applicable— 55

(a) amend any allocation or framework published in terms of section 16;

- (b) publish the allocation per municipality for any new Part B of Schedule 5 allocation or the indicative allocation per municipality for any new Part B of Schedule 6 allocation; or
  - (c) publish a framework for any new Schedule 4, 5, 6 or 7 allocation.
- (2) Section 16(2) to (5) applies, with the necessary changes, to allocations and frameworks published in terms of subsection (1). 5
- (3) (a) The transferring officer may, with the approval of the National Treasury, make one or more transfers of a Schedule 7 allocation to a province or municipality for—
- (i) a declared disaster within the period envisaged in section 27(5), 41(5) or 55(5) of the Disaster Management Act, 2002 (Act No. 57 of 2002); or 10
  - (ii) a housing emergency within 100 days after the date of the declaration of a housing emergency.
- (b) The transferring officer must notify the relevant provincial treasury and the National Treasury within 14 days of a transfer of a Schedule 7 allocation to a province or municipality. 15
- (c) The National Treasury must, within 21 days after the end of the 100-day period envisaged in paragraph (a), by notice in the *Gazette*, publish all transfers of a Schedule 7 allocation made for a declared disaster.
- (d) Despite any other legislation to the contrary, the National Treasury may approve that funds allocated in Schedule 7 be used at any time. 20
- (e) The funds approved in terms of paragraph (d) must be included either in the provincial adjustments appropriation legislation, municipal adjustments budgets or other appropriation legislation.

#### **Preparations for 2021/22 financial year and 2022/23 financial year**

- 27.** (1) (a) A category C municipality that receives a conditional allocation in terms of this Act must, using the indicative conditional allocations to that municipality for the 2021/22 financial year and the 2022/23 financial year as set out in Column B of the Schedules to this Act, by 2 October 2020— 25
- (i) agree on the provisional allocations and the projects to be funded from those allocations in the 2021/22 financial year and the 2022/23 financial year with each category B municipality within the category C municipality's area of jurisdiction; and 30
  - (ii) submit to the transferring officer—
    - (aa) the provisional allocations referred to in subparagraph (i); and
    - (bb) the projects referred to in subparagraph (i), listed per municipality. 35
- (b) If a category C municipality and a category B municipality cannot agree on the allocations and projects referred to in paragraph (a), the category C municipality must request the relevant transferring officer to facilitate agreement.
- (c) The transferring officer must take all necessary steps to facilitate agreement as soon as possible, but no later than 60 days after receiving a request referred to in paragraph (b). 40
- (d) Any proposed amendment or adjustment of the allocations that is intended to be published in terms of section 30(3)(b) must be agreed with the relevant category B municipality, the transferring officer and the National Treasury, before publication and the submission of the allocations referred to in paragraph (a)(ii). 45
- (e) If agreement is not reached between the category C municipality and the category B municipality on the provisional allocations and projects referred to in paragraph (a) before 2 October 2020, the National Treasury, after consultation with the relevant provincial treasury, must determine the provisional allocations and provide those provisional allocations to the affected municipalities and the transferring officer. 50
- (f) (i) The transferring officer must submit the final allocations, based on the provisional allocations referred to in paragraphs (a)(i) and (ii) and (e), to the National Treasury by 30 November 2020.
- (ii) If the transferring officer fails to submit the allocations referred to in subparagraph (i) by 30 November 2020, the National Treasury may determine the appropriate allocations, taking into consideration the indicative allocations for the 2021/22 financial year. 55
- (2) (a) The transferring officer of a conditional allocation, using the indicative conditional allocations for the 2021/22 financial year and the 2022/23 financial year, as set out in Column B of the affected Schedules to this Act, must, by 28 September 2020, submit to the National Treasury— 60

- (i) the provisional allocations to each province or municipality in respect of new conditional allocations to be made in the 2021/22 financial year;
- (ii) any amendments to the indicative allocations for each province or municipality set out in Column B of the affected Schedules in respect of existing conditional allocations; 5
- (iii) the draft frameworks for the allocations referred to in subparagraphs (i) and (ii); and
- (iv) electronic copies of any guidelines, business plan templates and other documents referred to in the draft frameworks referred to in subparagraph (iii). 10
- (b) A transferring officer must consult the accounting officer of a national or provincial department, other than the transferring or receiving officer, on a duty in the draft framework, before submission to the National Treasury in terms of paragraph (a).
- (c) When a document, referred to in a draft framework, that is submitted in terms of paragraph (a)(iii), is amended, the transferring officer must immediately provide the National Treasury and each receiving officer with electronic copies of the revised 15 document.
- (d) The National Treasury must approve any proposed amendment or adjustment for the 2021/22 financial year of the allocation criteria of an existing conditional allocation before the submission of the provisional allocations and draft frameworks.
- (e) The transferring officer must, under his or her signature, submit to the National Treasury, by 30 November 2020, the final allocations and frameworks based on the provisional allocations and frameworks. 20
- (f) If the transferring officer fails to comply with paragraph (a) or (e), the National Treasury may determine the appropriate draft or final allocations and frameworks, taking into consideration the indicative allocations for the 2021/22 financial year. 25
- (g) (i) The National Treasury may amend final allocations and frameworks in order to ensure equitable and stable allocations and fair and consistent conditions.
- (ii) The National Treasury must give notice, in writing, to the transferring officer of the intention to amend allocations and frameworks and invite the transferring officer to submit written comments within seven days after the date of the notification. 30
- (h) The draft and final allocations and frameworks must be submitted in the format determined by the National Treasury.
- (3) The National Treasury may instruct transferring officers, accounting officers of the provincial treasuries and receiving officers to submit to it such plans and information for any conditional allocation, as it may determine, at specified dates before the start of the 2021/22 financial year. 35
- (4) (a) For purposes of the Education Infrastructure Grant or Health Facility Revitalisation Grant in the 2021/22 financial year, the receiving officer of the relevant provincial department must, in the format and on the date determined by the National Treasury, submit to the transferring officer, the relevant provincial treasury and the National Treasury— 40
- (i) a user asset management plan for all infrastructure programmes for a period of at least 10 years;
- (ii) an infrastructure programme management plan, including a construction procurement strategy for infrastructure programmes and projects envisaged to commence within the period for the medium term expenditure framework; and 45
- (iii) a document that outlines how the infrastructure delivery management system must be implemented in the province and is approved by the Executive Council of the province before or after the commencement of this Act.
- (b) The receiving officer of the relevant provincial department must review the document, referred to in paragraph (a)(iii), and if any substantive change is made to the document during the 2020/21 financial year, the amended document must be approved by the Executive Council of the province before submission to the National Treasury within 14 days after such approval. 50
- (5) (a) Any category B municipality may apply to qualify for the Integrated Urban Development Grant, by submitting an application to the Department of Cooperative Governance by 24 July 2020. 55
- (b) The Department of Cooperative Governance must determine the form of the application, including the minimum qualifying conditions.
- (c) The Department of Cooperative Governance must submit, by 2 October 2020, to the National Treasury for approval, a list of any proposed additional qualifying municipalities and any municipalities that have failed to meet the qualifying conditions to continue to qualify for approval. 60

- (d) A municipality that is informed by the Department of Cooperative Governance that it will qualify for the Integrated Urban Development Grant, must submit to the National Treasury—
- (i) by 26 March 2021, a first draft of its three-year capital programme and the 10-year Capital Expenditure Framework to the Department of Cooperative Governance; and 5
  - (ii) by 31 May 2021, the final versions of its three-year capital programme and the 10-year Capital Expenditure Framework, which must be evaluated by the Department of Cooperative Governance after consultation with relevant stakeholders. 10

#### **Transfers before commencement of Division of Revenue Act for 2021/22 financial year**

- 28.** (1) Despite the Division of Revenue Act for the 2021/22 financial year not having commenced on 1 April 2021, the National Treasury may determine that an amount, not exceeding 45 per cent of the total amount of each— 15
- (a) equitable share in terms of section 4(1), be transferred to the relevant province;
  - (b) equitable share in terms of section 5(1), be transferred to the relevant municipality;
  - (c) allocation made in terms of section 7(1) or 8(1), as the case may be, be transferred to the relevant province or municipality. 20
- (2) An amount transferred in terms of subsection (1)(c) is, with the necessary changes, subject to the applicable framework for the 2020/21 financial year and the other requirements of this Act, as if it is an amount of an allocation for the 2020/21 financial year. 25

### **CHAPTER 5**

#### **DUTIES AND POWERS OF MUNICIPALITIES, PROVINCIAL TREASURIES AND NATIONAL TREASURY**

##### **Duties of municipalities**

- 29.** (1) (a) In addition to the requirements of the Municipal Finance Management Act, the accounting officer of a category C municipality must, within 10 days after this Act takes effect, submit to the National Treasury, the relevant provincial treasury and all category B municipalities within that municipality's area of jurisdiction, the budget, as tabled in accordance with section 16 of the Municipal Finance Management Act, for the 2020/21 financial year, the 2021/22 financial year and the 2022/23 financial year, except if submitted in terms of any other legislation before the end of the 10-day period. 30
- (b) The budget must indicate all allocations from its equitable share and conditional allocations to be transferred to each category B municipality within the category C municipality's area of jurisdiction and disclose the criteria for allocating funds between the category B municipalities. 35
- (2) A category C municipality that is providing a municipal service must, before implementing any capital project for water, electricity, roads or any other municipal service, consult the category B municipalities within whose area of jurisdiction the project must be implemented, and agree, in writing, which municipality is responsible for the operational and maintenance costs and the collection of user fees. 40
- (3) A category C municipality must ensure that it does not duplicate a function currently performed by a category B municipality and must transfer funds for the provision of services, including basic services, to the relevant category B municipality that is providing municipal services, despite the fact that— 45
- (a) the category C municipality retains the function in terms of the Municipal Structures Act; and 50
  - (b) a service delivery agreement for the provision of services by the category B municipality on behalf of the category C municipality has not been concluded.
- (4) A category B municipality which is not authorised to perform a function in terms of the Municipal Structures Act may not extend the scope or type of services that it currently provides, without— 55

- (a) entering into a service delivery agreement with the category C municipality which is authorised to perform the function in terms of the Municipal Structures Act; or
- (b) obtaining authorisation to perform the function in terms of the Municipal Structures Act. 5
- (5) (a) A category C municipality and a category B municipality must, before the commencement of a financial year, agree to a payment schedule in respect of the allocations, referred to in subsection (1)(b), to be transferred to the category B municipality in that financial year, and the category C municipality must submit the payment schedule to the National Treasury before the commencement of the financial year. 10
- (b) A category C municipality must make transfers in accordance with the payment schedule submitted in terms of paragraph (a).
- (6) (a) The National Treasury may withhold or stop any allocation to the category C municipality and reallocate the allocation to the relevant category B municipalities if a category C municipality fails to— 15
- (i) make allocations referred to in subsection (1)(b);
- (ii) reach an agreement envisaged in subsection (2); or
- (iii) submit a payment schedule in accordance with subsection (5)(a).
- (b) The following provisions apply to the withholding or stopping of an allocation in accordance with paragraph (a): 20
- (i) Section 216 of the Constitution;
- (ii) in the case of withholding an allocation, section 18(4)(a), with the necessary changes; and
- (iii) in the case of stopping an allocation, section 19(2)(a), (3), (4) and (5) with the necessary changes. 25
- (c) If an allocation is stopped in terms of this subsection, the National Treasury may, after consultation with the transferring officer, determine that a portion of the allocation that will not be spent, be reallocated to one or more municipalities, on condition that the allocation must be spent by the end of the 2020/21 financial year or the 2021/22 financial year. 30
- (7) A municipality must ensure that any allocation made to it in terms of this Act, or by a province or another municipality, that is not reflected in its budget as tabled in accordance with section 16 of the Municipal Finance Management Act, is reflected in its budget to be considered for approval in accordance with section 24 of the Municipal Finance Management Act. 35

### **Duties and powers of provincial treasuries**

- 30.** (1) A provincial treasury must reflect allocations listed in Part A of Schedule 5 to the province separately in the appropriation Bill of the province.
- (2) (a) A provincial treasury must, on the same day that its budget is tabled in the provincial legislature, or a date not later than 14 days after this Act takes effect and approved by the National Treasury, publish, by notice in the *Gazette*— 40
- (i) the indicative allocation per municipality for every allocation to be made by the province to municipalities from the province's own funds and from conditional allocations to the province; 45
- (ii) the indicative allocation to be made per school and per hospital in the province in the format determined by the National Treasury;
- (iii) the indicative allocation to any national or provincial public entity for the implementation of a programme funded by an allocation in Part A of Schedule 5 on behalf of a province or for assistance provided to the province in implementing the programme; 50
- (iv) the envisaged division of the allocation envisaged in subparagraphs (i) and (ii), in respect of each municipality, school and hospital, for the 2021/22 financial year and the 2022/23 financial year; and
- (v) the conditions and other information in respect of the allocations, referred to in subparagraphs (i), (ii) and (iii), to facilitate performance measurement and the use of required inputs and outputs. 55
- (b) The allocations referred to in paragraph (a) must be regarded as final when the provincial appropriation Act takes effect.
- (c) If the provincial legislature amends its appropriation Bill, the provincial treasury must publish amended allocations and budgets, by notice in the *Gazette*, within 14 days 60

after the appropriation Act takes effect, and those allocations and budget must be regarded as final.

(d) Allocations to municipalities in terms of subsection (2)(a) must be consistent with the terms of any agreement concluded between the province and a municipality.

(3) (a) Despite subsection (2) or any other legislation, a provincial treasury may, in accordance with a framework determined by the National Treasury, amend the allocations referred to in subsection (2) or make additional allocations to municipalities that were not published in terms of subsection (2). 5

(b) Any amendments to the allocations published in terms of subsection (2)(a) or (c) must be published, by notice in the *Gazette*, not later than 5 February 2021 and takes effect on the date of publication. 10

(4) A provincial treasury must, as part of its report in terms of section 40(4)(b) and (c) of the Public Finance Management Act, in the format determined by the National Treasury, report on—

(a) actual transfers received by the province from national departments and actual expenditure on such transfers, excluding Schedule 4 allocations, up to the end of that month; and 15

(b) actual transfers made by the province to municipalities and public entities and actual expenditure by municipalities and public entities on such transfers, based on the latest information available from municipalities and public entities at the time of reporting. 20

(5) (a) A provincial treasury must—

(i) ensure that a payment schedule, or any amendment thereof, is agreed between each provincial department and receiving institution envisaged in subsection (2)(a); 25

(ii) ensure that transfers are made promptly to the relevant receiving officer in terms of the agreed payment schedule; and

(iii) submit the payment schedules to the National Treasury within 14 days after this Act takes effect and any amended payment schedule, agreed to, within 14 days of it being agreed to. 30

(b) If a provincial department and receiving institution do not agree to a payment schedule in time for submission to the National Treasury, the provincial treasury must, after consultation with the transferring officer, determine the payment schedule.

(6) If a provincial treasury fails to make a transfer in terms of subsection (5)(a), the relevant receiving officer may request the provincial treasury to immediately make the transfer or to provide written reasons, within three working days, as to why the transfer has not been made. 35

(7) If a provincial treasury fails to make the transfer requested by the receiving officer or provide reasons in terms of subsection (6), or the receiving officer disputes the reasons provided by the provincial treasury as to why the transfer has not been made, the receiving officer may request the National Treasury to investigate the matter. 40

(8) On receipt of a request in terms of subsection (7), the National Treasury must—

(a) consult the transferring officer on the matter;

(b) investigate the matter, assess any reasons given by the provincial treasury as to why the transfer was not made; 45

(c) direct the provincial treasury to immediately effect the transfer or provide reasons to the receiving officer, confirming why the provincial treasury was correct in not making the transfer; and

(d) advise the provincial treasury and the receiving officer as to what steps must be taken to ensure the transfer. 50

### **Duties and powers of National Treasury**

**31.** (1) The National Treasury must, within 14 days after this Act takes effect, submit a notice to all transferring officers containing the details of the primary bank accounts of each province and municipality.

(2) The National Treasury must, together with the statement envisaged in section 32(2) of the Public Finance Management Act, publish a report on actual transfers of all allocations listed in Schedules 4, 5, 6 and 7 or made in terms of section 26. 55

(3) The National Treasury may include in a report on the equitable share and conditional allocations in terms of this Act, any report it publishes—

(a) that aggregates statements published by provincial treasuries envisaged in section 71(7) of the Municipal Finance Management Act; and 60

(b) in respect of municipal finances.

## CHAPTER 6

### GENERAL

#### **Liability for costs incurred in violation of principles of cooperative governance and intergovernmental relations**

**32.** (1) An organ of state involved in an intergovernmental dispute regarding any provision of this Act or any division of revenue matter or allocation must, before approaching a court to resolve such dispute, make every effort to settle the dispute with the other organ of state concerned, including exhausting all mechanisms provided for the settlement of disputes in relevant legislation. 5

(2) If a dispute is referred back by a court in accordance with section 41(4) of the Constitution, due to the court not being satisfied that the organ of state approaching the court has complied with subsection (1), the expenditure incurred by that organ of state in approaching the court must be regarded as fruitless and wasteful. 10

(3) The amount of any such fruitless and wasteful expenditure must, in terms of the applicable procedures in the Public Finance Management Act or the Municipal Finance Management Act, be recovered, without delay, from every person who caused the organ of state not to comply with subsection (1). 15

#### **Irregular expenditure**

**33.** Expenditure of an allocation in Part B of Schedule 4 or Part B of Schedule 5 contrary to this Act is irregular expenditure in terms of the Municipal Finance Management Act, except if it is unauthorised expenditure in terms of the Municipal Finance Management Act. 20

#### **Financial misconduct**

**34.** (1) Despite any other legislation to the contrary, any wilful or negligent non-compliance with a provision of this Act constitutes financial misconduct. 25

(2) Section 84 of the Public Finance Management Act or section 171 of the Municipal Finance Management Act, as the case may be, applies in respect of financial misconduct envisaged in subsection (1).

#### **Delegations and assignments**

**35.** (1) The Minister may, in writing, delegate any of the powers entrusted to, and assign any of the duties imposed on, the National Treasury in terms of this Act, to an official of the National Treasury. 30

(2) A delegation or assignment in terms of subsection (1) to an official of the National Treasury—

(a) is subject to any limitations or conditions that the Minister may impose; 35

(b) may authorise that official to sub-delegate, in writing, the delegated power or assigned duty, to any other official of the National Treasury; and

(c) does not divest the National Treasury of the responsibility concerning the exercise of the delegated power or the performance of the assigned duty.

(3) The Minister may vary or revoke any decision taken by an official as a result of a delegation or assignment, subject to any rights that may have vested as a consequence of the decision. 40

(4) A Member of the Executive Council responsible for finance in a province may, in writing, delegate any power entrusted to, and assign any duty imposed on, the provincial treasury in terms of this Act, to an official of the provincial treasury. 45

(5) (a) A transferring officer may, in writing, delegate any power entrusted to, and assign any duty imposed on, the transferring officer in terms of this Act, to an official in his or her department.

(b) A copy of the written delegation must be submitted to the National Treasury.

(6) Subsections (2) and (3) apply, with the necessary changes, to a delegation or assignment in terms of subsection (4) or (5). 50

## Departures

- 36.** (1) The Minister may, if good grounds exist, approve a departure from a provision of a framework, a regulation made under section 37 or a condition imposed in terms of this Act.
- (2) For purposes of subsection (1), good grounds include the fact that the provision of the framework, regulation or condition—
- (a) cannot be implemented in practice;
  - (b) impedes the achievement of any object of this Act;
  - (c) impedes an immediate response to a declared disaster; or
  - (d) undermines the financial viability of the affected national or provincial department or municipality.
- (3) Any departure approved in terms of subsection (1) must set out the period and conditions of the departure, if any, and must be published, by notice in the *Gazette*.

## Regulations

- 37.** The Minister may, by notice in the *Gazette*, make regulations regarding—
- (a) anything which must or may be prescribed in terms of this Act; or
  - (b) any ancillary or incidental administrative or procedural matter that is necessary to prescribe for the proper implementation or administration of this Act.

## Transitional measures for municipal election in 2021

- 38.** (1) (a) A releasing municipality must continue to spend its allocations for the 2020/21 financial year made in terms of this Act, in that particular area or municipality, as if that area was not transferred to a receiving municipality, unless the affected municipalities have entered into an agreement that ensures that the transferred area or municipality is not negatively affected.
- (b) The transferring officer of an allocation made in terms of this Act and the receiving municipality must monitor that the releasing municipality complies with paragraph (a).
- (c) The releasing municipality must, at the request of the transferring officer, the receiving municipality or the National Treasury, demonstrate compliance with paragraph (a).
- (2) (a) Sections 18 and 19 apply, with the necessary changes, where a releasing municipality fails to comply with subsection (1)(a) or (c) in respect of a Schedule 4, 5, 6 or 7 allocation.
- (b) The National Treasury may, where it withholds or stops an allocation in terms of paragraph (a), after consultation with the transferring officer, determine that a portion of the allocation be reallocated to the receiving municipality.
- (3) The National Treasury may, where a releasing municipality fails to comply with subsection (1)(a) or (c), reallocate a portion of the releasing municipality's equitable share allocation, referred to in section 5, to the receiving municipality.
- (4) (a) The allocations referred to in sections 5(2) and 8(2) are subject to adjustments required following a redetermination in terms of section 21(1)(b) of the Municipal Demarcation Act.
- (b) The transferring officer of a Schedule 4, 5, 6 or 7 allocation must, by 2 October 2020, inform the National Treasury of any adjustments to the allocations, referred to in section 8(2), that must be reflected in the Division of Revenue Act for the 2021/22 financial year.

## Repeal of laws and savings

- 39.** (1) Subject to subsection (2)—
- (a) the Division of Revenue Act, 2019 (Act No. 16 of 2019), except sections 16 and 26, is hereby repealed;
  - (b) sections 16 and 26 of the Division of Revenue Act, 2019, is hereby repealed with effect from 1 July 2020 or the date that this Act takes effect, whichever is the later date; and
  - (c) the Division of Revenue Amendment Act, 2019 (Act No. 30 of 2019), is hereby repealed.

- (2) Any repeal referred to in subsection (1) does not affect—
- (a) any duty to be performed in terms of any provision of an Act, referred to in subsection (1), after the end of the 2020/21 financial year; and
  - (b) any obligation in terms of any provision of an Act, referred to in subsection (1), the execution of which is outstanding. 5
- (3) Any framework published in terms of section 16 of the Division of Revenue Act, 2019, as amended in terms of section 16 or 26 of that Act, applies to funds of a conditional allocation approved for roll-over in terms of section 22(2) of that Act, if that conditional allocation does not continue to exist in terms of this Act. 10

**Short title and commencement** 10

**40.** This Act is called the Division of Revenue Act, 2020, and takes effect on 1 April 2020 or the date of publication in the *Gazette*, whichever is the later date.

## MEMORANDUM ON THE OBJECTS OF THE DIVISION OF REVENUE BILL, 2020

### 1. BACKGROUND

- 1.1 Section 214(1) of the Constitution of the Republic of South Africa, 1996, (“the Constitution”), requires that an Act of Parliament must provide for—
  - (a) the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
  - (b) the determination of each province’s equitable share of the provincial share of that revenue; and
  - (c) any other allocations to provinces, local government or municipalities from the national government’s share of that revenue, and for any conditions on which those allocations may be made.
- 1.2 Section 10 of the Intergovernmental Fiscal Relations Act, 1997 (Act No. 97 of 1997), requires that, as part of the process of the enactment of the Act of Parliament referred to in paragraph 1.1, each year when the annual budget is introduced, the Minister of Finance must introduce in the National Assembly a Division of Revenue Bill (“the Bill”), for the financial year to which that budget relates.
- 1.3 The Intergovernmental Fiscal Relations Act, 1997, requires that the Bill be accompanied by a memorandum explaining—
  - (a) how the Bill takes account of each of the matters listed in section 214(2)(a) to (j) of the Constitution;
  - (b) the extent to which account was taken of any recommendations of the Financial and Fiscal Commission (“the FFC”), that were submitted to the Minister of Finance or were raised during consultations with the FFC; and
  - (c) any assumptions or formulae used in arriving at the respective shares of the three spheres of government and the division of the provincial share between the nine provinces.
- 1.4 In terms of section 7(4) of the Money Bills and Related Matters Act, 2009 (Act No. 9 of 2009), when tabling the budget, a report must also be tabled that responds to the recommendations made in the reports by the Parliamentary Committees on Finance on the proposed fiscal framework in the Medium Term Budget Policy Statement and the reports by the Committees on Appropriations regarding the proposed division of revenue and the conditional grant allocations to provinces and local government as contained in the Medium Term Budget Policy Statement. The report must explain how the Bill and the national budget give effect to, or the reasons for not taking into account, the recommendations contained in the Committee reports.
- 1.5 The memorandum referred to in paragraph 1.3 is attached to this Memorandum and will also be attached as “Annexure W1” to the Budget Review, and the report referred to in paragraph 1.4 will be tabled with the budget.
- 1.6 The Bill is introduced in compliance with the Constitution, the Intergovernmental Fiscal Relations Act, 1997, and the Money Bills and Related Matters Act, 2009, as set out in paragraphs 1.1 to 1.4.
- 1.7 The allocations contemplated in section 214(1) of the Constitution are set out in the following Schedules to the Bill:
  - *Schedule 1* contains the equitable shares of the three spheres of government;
  - *Schedule 2* sets out provincial equitable share allocations;
  - *Schedule 3* sets out local government equitable share allocations per municipality;

- *Schedules 4 to 7* deal with conditional allocations for provinces and municipalities, including allocations to supplement funding of functions funded from provincial and municipal budgets, specific purpose allocations, allocations-in-kind (indirect transfers to provinces and local government) and the release of funds to provinces and municipalities for immediate response to a disaster.

## 2. SUMMARY OF BILL

The following is a brief summary of the Bill:

- **Clause 1** contains definitions;
- **Clause 2** sets out the objects of the Bill, which are to provide for the equitable division of revenue raised nationally among the three spheres of government and to promote predictability and certainty in respect of allocations to provinces and municipalities as well as transparency and accountability in the resource allocation process;
- **Clause 3** provides for the equitable division of anticipated revenue raised nationally among the national, provincial and local spheres of government, which is set out in Schedule 1;
- **Clause 4** provides for each province's equitable share, which is set out in Schedule 2, and that it must be transferred in terms of a payment schedule;
- **Clause 5** provides for each municipality's equitable share of revenue, which is set out in Schedule 3 and that it must be transferred on dates specified in clause 5 in amounts as determined in terms of clause 23(2);
- **Clause 6** determines what must happen if actual revenue raised falls short or is in excess of anticipated revenue for the financial year, and allows for additional conditional and unconditional allocations to be made from the national government's portion of the equitable share or excess revenue;
- **Clause 7** provides for conditional allocations to provinces in Part A of Schedules 4 to 7;
- **Clause 8** provides for conditional allocations to municipalities in Part B of Schedules 4 to 7;
- **Clauses 9 and 10** set out the duties of a transferring national officer in respect of Schedules 4, 5 and 6 allocations;
- **Clauses 11 and 12** set out the duties of a receiving officer in respect of Schedules 4, 5 and 7 allocations;
- **Clauses 13 and 14** set out the additional duties of a receiving officer in respect of infrastructure conditional allocations to provinces and to metropolitan municipalities;
- **Clause 15** prescribes the duties in respect of annual financial statements and annual reports for the 2020/21 financial year;
- **Clause 16** requires the publication of certain allocations and all conditional grant frameworks in the *Government Gazette*;
- **Clause 17** requires that spending must only be in accordance with the purpose and subject to the conditions set out in the frameworks for Schedules 4 to 7 allocations, and sets out funding related arrangements if a function partially or fully funded by a conditional grant is assigned by a province to a municipality;
- **Clauses 18 and 19** provide for the withholding and stopping of allocations;
- **Clause 20** provides for the reallocation of funds;

- *Clause 21* provides for the possible conversion of certain allocations in order to prevent under-spending on the allocation, if the affected national or provincial department has demonstrated the capacity to implement projects;
- *Clause 22* provides for the management of unspent conditional allocations;
- *Clauses 23 and 24* provide for payment schedules and their amendment;
- *Clause 25* provides for the recovery of any allocation transferred in error or fraudulently;
- *Clause 26* provides for new allocations during a financial year and the use of funds allocated in Schedule 7;
- *Clause 27* provides for preparations for the 2021/22 and 2022/23 financial years;
- *Clause 28* deals with transfers before the commencement of the Division of Revenue Act for the 2021/22 financial year and the conditions attached to such transfers;
- *Clause 29* sets out the duties of municipalities;
- *Clause 30* sets out the duties and powers of provincial treasuries;
- *Clause 31* sets out the duties and powers of the National Treasury;
- *Clauses 32 to 38* provide for general matters such as liability for costs incurred in violation of principles of co-operative governance and intergovernmental relations, irregular expenditure, financial misconduct, delegations and assignments, departures, the power of the Minister of Finance to make regulations and the transitional measures for the municipal election in 2021;
- *Clause 39* provides for the repeal of laws;
- *Clause 40* provides for the short title and commencement.

### **3. ORGANISATIONS AND INSTITUTIONS CONSULTED**

The following institutions were consulted on the Bill—

- Financial and Fiscal Commission;
- South African Local Government Association; and
- National and provincial departments.

### **4. FINANCIAL IMPLICATIONS TO THE STATE**

This memorandum outlines the proposed division of revenue between the three spheres of government, and the financial implications to the State are the total amounts provided for in the Schedules to the Bill.

### **5. CONSTITUTIONAL IMPLICATIONS**

The Bill gives effect to section 214 of the Constitution.

### **6. PARLIAMENTARY PROCEDURE**

- 6.1 The State Law Advisers and the National Treasury are of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 76(1) of the Constitution, since it provides for legislation envisaged in Chapter 13 of the Constitution, and it includes provisions affecting the financial interests of the provincial sphere of government, as contemplated in section 76(4)(b) of the Constitution.

- 6.2 Chapter 4 of the Constitution provides for the procedures that Bills must follow in Parliament. Section 76 of the Constitution provides for parliamentary procedure for ordinary Bills affecting the provinces. In terms of section 76(3) a Bill must be dealt with in accordance with the procedure established by either section 76(1) or (2) if it falls within a functional area listed in Schedule 4.
- 6.3 In *Tongoane and Others v Minister for Agriculture and Land Affairs and Others*, 2010 (8) BCLR 741 (CC) at paragraphs 70 and 72, the Constitutional Court stated that the test for determining how a Bill is to be tagged must be broader than that for determining legislative competence. Whether a Bill is a section 76 Bill is determined in two ways. First by the explicit list of legislative matters in section 76(3), and second by whether the provisions of a Bill in substantial measure fall within a concurrent legislative competence.
- 6.4 This test compels us to consider the substance, purpose and effect of the subject matter of the proposed Bill.
- 6.5 As already pointed out, the Bill provides for legislation envisaged in Chapter 13 of the Constitution. Furthermore, the Bill includes provisions affecting the financial interests of the provincial sphere of government as contemplated in section 76(4)(b) of the Constitution. We are therefore of the opinion that the Bill must be dealt with in accordance with the procedure envisaged by section 76(1) of the Constitution.
- 6.6 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or the customs of traditional communities.

# ANNEXURE W1

## Explanatory memorandum to the division of revenue

### ■ Background

Section 214(1) of the Constitution requires that every year a Division of Revenue Act determine the equitable division of nationally raised revenue between national government, the nine provinces and 257 municipalities. This process takes into account the powers and functions assigned to each sphere, fosters transparency and is at the heart of constitutional cooperative governance.

The Intergovernmental Fiscal Relations Act (1997) prescribes the steps for determining the equitable sharing and allocation of nationally raised revenue. Sections 9 and 10(4) of the act set out the consultation process to be followed with the Financial and Fiscal Commission (FFC), including considering recommendations made regarding the division of revenue.

This explanatory memorandum to the 2020 Division of Revenue Bill fulfils the requirement set out in section 10(5) of the Intergovernmental Fiscal Relations Act that the bill be accompanied by an explanatory memorandum detailing how it takes account of the matters listed in sections 214(2)(a) to (j) of the Constitution, government's response to the FFC's recommendations, and any assumptions and formulas used in arriving at the respective divisions among provinces and municipalities. This memorandum complements the discussion of the division of revenue in Chapter 6 of the *Budget Review*. It has six sections:

- Part 1 lists the factors that inform the division of resources between national, provincial and local government.
- Part 2 describes the 2020 division of revenue.
- Part 3 sets out how the FFC's recommendations on the 2020 division of revenue have been taken into account.
- Part 4 explains the formula and criteria for dividing the provincial equitable share and conditional grants among provinces.
- Part 5 sets out the formula and criteria for dividing the local government equitable share and conditional grants among municipalities.
- Part 6 summarises issues that will form part of subsequent reviews of provincial and local government fiscal frameworks.

The Division of Revenue Bill and its underlying allocations are the result of extensive consultation between national, provincial and local government. The Budget Council deliberated on the matters discussed in this memorandum at several meetings during the year. The approach to local government allocations was discussed with organised local government at technical meetings with the South African Local Government

Association (SALGA), culminating in meetings of the Budget Forum (made up of the Budget Council and SALGA). The division of revenue, and the government priorities that underpin it, was agreed for the next three years at a Cabinet meeting in October 2019.

## ■ Part 1: Constitutional considerations

Section 214 of the Constitution requires that the annual Division of Revenue Act be enacted after factors in sub-sections (2)(a) to (j) are taken into account. The constitutional principles considered in the division of revenue are briefly noted below.

### National interest and the division of resources

The national interest is captured in governance goals that benefit the nation. The National Development Plan sets out a long-term vision for the country's development, including for economic development, environmental sustainability and building a capable and developmental state. It also sets goals for specific provincial and local government functions, including basic education, health, agriculture, human settlements, electricity, water and sanitation. In the June 2019 State of the Nation Address, the President set out the following seven priorities for this administration:

1. Economic transformation and job creation
2. Education, skills and health
3. Consolidating the social wage through reliable and quality basic services
4. Spatial integration, human settlements and local government
5. Social cohesion and safe communities
6. Building a capable, ethical and developmental state
7. A better Africa and world.

These priorities have informed deliberations in the budget process on how resources will be allocated between the different spheres of government. They will also form the basis of the next five-year implementation plan for the National Development Plan, which is expected to be published by the Department of Planning, Monitoring and Evaluation in 2020.

In the 2019 *Medium Term Budget Policy Statement (MTBPS)*, the Minister of Finance outlined how the resources available to government over the 2020 medium-term expenditure framework (MTEF) period would be allocated to help achieve government's goals in a difficult economic environment. Chapter 4 of the 2019 MTBPS and Chapters 5 and 6 of the 2020 *Budget Review* discuss how funds have been allocated across the three spheres of government based on these priorities. The framework for each conditional grant also notes how the grant is linked to the seven priorities.

### Provision for debt costs

The resources shared between national, provincial and local government include proceeds from national government borrowing used to fund public spending. National government provides for the resulting debt costs to protect the country's integrity and credit reputation. Chapter 7 of the 2020 *Budget Review* provides a more detailed discussion.

### National government's needs and interests

The Constitution assigns exclusive and concurrent powers and functions to each sphere of government. National government is solely responsible for functions that serve the national interest and are best centralised. National and provincial government have concurrent responsibility for a range of functions. Provincial and local government receive equitable shares and conditional grants to enable them to provide basic services and perform their functions. Functions may shift between spheres of government to better meet the country's needs, which is then reflected in the division of revenue. Changes continue to be made to

various national transfers to provincial and local government to improve their efficiency, effectiveness and alignment with national strategic objectives.

### **Provincial and local government basic services**

Provinces and municipalities are responsible for providing education, health, social development, housing, roads, electricity and water, and municipal infrastructure services. They have the autonomy to allocate resources to meet basic needs and respond to provincial and local priorities, while giving effect to national objectives. The division of revenue provides equitable shares to provinces and local government to enable them to meet their basic service obligations. In addition, conditional grants are provided to enable them to improve and expand services.

Over half of non-interest spending is allocated to provinces and local government. These allocations also grow at a faster rate than those to national departments over the 2020 MTEF period, reflecting the priority placed on health, education and basic services, as well as the rising costs of these services as a result of population growth and higher bulk electricity and water costs.

### **Fiscal capacity and efficiency**

National government has primary revenue-raising powers, with it collecting most of the largest taxes such as income taxes, value-added tax, fuel levies and customs and excise duties. The difference between the assignment of revenue-raising powers and spending responsibilities between the spheres of government is compensated for through the transfer of nationally raised revenue to provinces and local government.

Provinces have limited tax-raising powers. Licences for vehicles and gambling are their largest sources of own tax revenue. Provincial functions such as basic education, public healthcare and social welfare do not lend themselves to self-funding or cost recovery. Due to their limited revenue-raising ability, and their responsibility to implement costly services at no or low fees to most recipients, provinces receive a larger share of nationally raised revenue than local government.

Municipalities are assigned significant own revenue-raising powers, including the collection of property rates, which is a tax equivalent to more than 1 per cent of gross domestic product (GDP) and is worth slightly more than nationally collected revenue from customs duties. Municipalities also provide services such as electricity and water, the costs of which can be recovered through tariffs. As a result, local government finances most of its expenditure through property rates, user charges and fees. However, the ability of individual municipalities to raise revenue varies greatly – rural municipalities raise significantly less revenue than large urban and metropolitan municipalities. The design of the local government fiscal framework acknowledges that, as a result of their lower own revenue capacity, many rural municipalities will depend on transfers for most of their funding. The local government equitable share formula incorporates a revenue adjustment factor that considers the fiscal capacity of each recipient municipality (full details of the formula are provided in Part 5 of this annexure). The equitable share also provides funding to enable all municipalities to provide free basic water, electricity, sanitation and waste management services to poor households. To support the expansion of these services, local government's share of nationally raised revenue has increased from 3 per cent in 2000/01 to 8.8 per cent over the 2020 MTEF period.

The mechanisms for allocating funds to provinces and municipalities are regularly reviewed to improve their efficiency. To maximise the impact of allocations, many provincial and local government conditional grants consider the recipient's efficiency in using previous allocations. The reductions in planned transfers over the 2020 MTEF period also took account of past performance of conditional grants, both in terms of their spending levels and their efficiency in meeting their objectives with the funds that were spent.

### **Developmental needs**

Developmental needs are accounted for at two levels. First, in the determination of the division of revenue, which continues to grow the provincial and local government shares of nationally raised revenue faster than inflation, and second, in the formulas used to divide national transfers among municipalities and provinces. Developmental needs are built into the equitable share formulas for provincial and local government and

included in specific conditional grants, such as the *municipal infrastructure grant*, which allocates funds according to the number of households in a municipality without access to basic services. Various infrastructure grants and the capital budgets of provinces and municipalities aim to boost economic and social development.

### **Economic disparities**

The equitable share and infrastructure grant formulas redistribute funds towards poorer provinces and municipalities (parts 4 and 5 of this annexure provide statistics illustrating this). Through the division of revenue, government continues to invest in economic infrastructure (such as roads) and social infrastructure (such as schools, hospitals and clinics) to stimulate economic development, create jobs, and address economic and social disparities.

### **Obligations in terms of national legislation**

The Constitution gives provincial governments and municipalities the power to determine priorities and allocate budgets. National government is responsible for developing policy, fulfilling national mandates, setting national norms and standards for provincial and municipal functions, and monitoring the implementation of concurrent functions.

The 2020 MTEF, through the division of revenue, continues to fund the delivery of provincial, municipal and concurrent functions through a combination of conditional and unconditional grants.

### **Predictability and stability**

Provincial and local government equitable share allocations are based on estimates of nationally raised revenue. If this revenue falls short of estimates within a given year, the equitable shares of provinces and local government will not be reduced. Allocations are assured (voted, legislated and guaranteed) for the first year and are transferred according to a payment schedule. To contribute to longer-term predictability and stability, estimates for a further two years are published with the annual proposal for appropriations. Adjusted estimates as a result of changes to data underpinning the equitable share formulas and revisions to the formulas themselves are phased in to ensure minimal disruption.

### **Flexibility in responding to emergencies**

Government has a contingency reserve for emergencies and unforeseeable events. In addition, four conditional grants for disasters and housing emergencies allow government to swiftly allocate and transfer funds to affected provinces and municipalities in the immediate aftermath of a disaster. Sections 16 and 25 of the Public Finance Management Act (1999) provide for the allocation of funds to deal with emergency situations. Section 30(2) deals with adjustment allocations for unforeseeable and unavoidable expenditure. Section 29 of the Municipal Finance Management Act (2003) allows a municipal mayor to authorise unforeseeable and unavoidable expenditure in an emergency.

## **Part 2: The 2020 division of revenue**

The central fiscal objectives over the MTEF period are to stabilise the growth of debt as a share of GDP and to strictly adhere to the planned expenditure ceiling (see Chapter 3 of the 2020 *Budget Review*). However, the most important public spending programmes that help poor South Africans, contribute to growth and create jobs have been protected from major reductions. The 2020 division of revenue reprioritises existing funds to ensure these objectives are met.

Excluding debt-service costs and the contingency reserve, allocated expenditure shared across government amounts to R1.53 trillion in 2020/21, R1.59 trillion in 2021/22 and R1.65 trillion in 2022/23. The division of these funds between the three spheres takes into account government's spending priorities, each sphere's revenue-raising capacity and responsibilities, and input from various intergovernmental forums and the FFC.

The provincial and local equitable share formulas are designed to ensure fair, stable and predictable revenue shares, and to address economic and fiscal disparities.

### Reductions to transfers

The fiscal objectives that determined the spending envelope are set out in Chapter 3 of the 2020 *Budget Review*. Reductions to previously announced spending levels were made across all three spheres of government to fit within the revised expenditure ceiling. The 2019 MTBPS announced that provincial transfers have been reduced by R20.3 billion over the MTEF period and transfers to local government have been reduced by R20.5 billion.

Following the 2019 MTBPS, further changes were made. In total, the provincial equitable share has been reduced by R7.3 billion through a 2 per cent reduction in all non-compensation spending per year and a R5.2 billion reduction in compensation of employees. Direct conditional grants to provinces have been reduced by a net R13.3 billion, as the reduction of R16.2 billion is partly offset by reprioritisations of R2.9 billion. The local government reductions comprise R3.2 billion from the local government equitable share and R16.8 billion in reductions to direct conditional grants.

All direct conditional grants have been lowered, except for the *early childhood development grant* and the *learners with profound intellectual disabilities grant*. To manage the impact on services, the amount reduced from each grant considers:

- Past spending and performance.
- Whether it funds salaries, medicines and food.
- Whether there has been significant real growth in allocations in recent years.

Larger reductions are also made to grants to urban municipalities, which have more capacity to offset the effect of cuts by increasing their own revenue investments. Parts 4 and 5 of this annexure set out in more detail how the changes to the baseline affect provincial and local government transfers.

The proposed changes to the wage bill discussed in Chapter 3 of the *Budget Review* are not yet reflected in the allocations to national and provincial departments shown in the Division of Revenue Bill. Once these changes are agreed in the Public Service Co-ordinating Bargaining Council, they will be implemented in the 2020/21 adjustment budget and 2020 MTBPS. This will reduce the national and provincial shares, and increase the local government share, of the division of revenue in relative terms.

### Reprioritisations

To meet policy objectives while remaining within the revised expenditure ceiling, existing budgets need to be reprioritised to meet government's policy goals. Priorities over the 2020 MTEF period that are funded through reprioritisations in the division of revenue include:

- Increasing the per-child subsidy for early childhood development services from R15 per day to R17 per day in 2020/21, rising to R18.57 per day by 2022/23.
- Addressing shortfalls in the funding of community outreach services in the health sector.
- Supporting the continued rollout of free sanitary products to learners from low-income households.
- Repairing wastewater treatment infrastructure in the Vaal River System.

These reprioritisations complement baselines that provide R2.07 trillion to provinces and R426.4 billion to local government in transfers over the 2020 MTEF period. These transfers fund many core policy priorities, including basic education, health, social development, roads, housing and municipal services.

### The fiscal framework

Table W1.1 presents the medium-term macroeconomic forecasts for the 2020 Budget. It sets out the growth assumptions and fiscal policy targets on which the fiscal framework is based.

The 2020 *Budget Review* sets out in detail how constitutional considerations and government's priorities are taken into account in the division of revenue. It describes economic and fiscal policy considerations, revenue issues, debt and financing considerations, and expenditure plans. Chapter 6 focuses on provincial and local government financing.

## Part 3: Response to the FFC's recommendations

Section 9 of the Intergovernmental Fiscal Relations Act requires the FFC to make recommendations regarding:

- a) "An equitable division of revenue raised nationally, among the national, provincial and local spheres of government;
- b) the determination of each province's equitable share in the provincial share of that revenue; and
- c) any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and any conditions on which those allocations should be made."

The act requires that the FFC table these recommendations at least 10 months before the start of each financial year. The FFC tabled its *Submission for the Division of Revenue 2020/21* to Parliament in May 2019. This year's theme is "reprioritising local government finances". The 2020/21 recommendations cover the following areas: local government financing framework, municipal government capacity building, local government sustainability, infrastructure management and efficiency, investment and developmental challenges in the local government sector.

Section 214 of the Constitution requires that the FFC's recommendations be considered before tabling the division of revenue. Section 10 of the Intergovernmental Fiscal Relations Act requires that the Minister of Finance table a Division of Revenue Bill with the annual budget in the National Assembly. The bill must be accompanied by an explanatory memorandum setting out how government has taken into account the FFC's

recommendations when determining the division of revenue. This part of the explanatory memorandum complies with this requirement.

The FFC's recommendations can be divided into three categories:

- Recommendations that apply directly to the division of revenue
- Recommendations that indirectly apply to issues related to the division of revenue
- Recommendations that do not relate to the division of revenue.

Government's responses to the first and second categories are provided below. Recommendations that do not relate to the division of revenue have been referred to the officials to whom they were addressed – the Minister of Cooperative Governance and Traditional Affairs and the President of SALGA – and they will respond directly to the FFC. All the FFC recommendations can be accessed at [www.ffc.co.za](http://www.ffc.co.za).

## **Recommendations that apply directly and indirectly to the division of revenue**

### **Chapter 2: Reviewing the Local Government Fiscal Framework**

#### *Supplementary revenue sources for local government*

The FFC recommends the following: “The Minister of Finance should take steps (including piloting) to add the following supplementary revenue sources to the list of allowable taxes for different types of municipalities in a differentiated manner that could include the development charges, tourism levies, land value capture mechanisms, tourism levies and fire levies. Fire service levies in particular should be considered for the municipalities that are to be authorised for this function. The greater potential for expansion of own revenue sources in urban areas should be compensated for by changes to the division of revenue to increase transfers to rural areas.”

#### *Government response*

Government supports this recommendation. Additional revenue sources to municipalities should be fully explored. Government has prioritised various reforms to supplement the revenue sources of municipalities. These include:

- Amending the Municipal Fiscal Powers and Functions Act (2007) to ensure development charges are uniformly regulated. Government acknowledges that, despite their potential scope to generate substantial revenue and support the provision of infrastructure to unlock growth, development charges have not been fully explored due to lack of clarity on how they should be levied. The legislative amendments contained in the draft Municipal Fiscal Powers and Functions Amendment Bill, published for comment in January 2020, address this challenge.
- Updating the municipal borrowing policy framework to clarify the funding instruments that municipalities are allowed to use to leverage their borrowing. These include, among others, land value capture mechanisms, tax increment financing, project finance and the use of public-private partnerships.

Furthermore, the Municipal Fiscal Powers and Functions Act already allows municipalities to apply to the Minister of Finance to levy additional taxes such as the tourism levies and fire levies recommended by the FFC. The act also allows the Minister of Finance to introduce new municipal taxes on his own initiative. Applications from municipalities to implement new revenue sources provide a good mechanism for piloting new revenue sources like these as it ensures that the pilot municipalities are ready and willing to implement the new taxes. To be considered by the Minister of Finance, an application to introduce additional taxes must include the following:

- What the revenue from the proposed new municipal tax will be used for.

- Its compliance with section 229(2)(a) of the Constitution, which requires that municipal taxes not prejudice national economic policy.
- The tax base, the desired tax rate, people liable for the tax and tax relief measures.
- The tax collecting authority.
- Particulars of any consultations conducted, including consultations with, where applicable, a provincial government, organised local government and municipalities, and the outcomes of the consultations.

Government also agrees that future increases in own revenue collection in urban areas will create scope for government to reduce transfers to these municipalities and use those funds to increase transfers to rural municipalities that have less potential to increase their own revenues. This stance is reflected in the way reductions to transfers have been implemented in the 2020 MTEF, with larger reductions made to urban grants.

#### *Land value capture*

The FFC recommends that, “The Minister of Finance should proactively inform municipalities on various land value capture mechanisms that municipalities can take advantage of in order to supplement their current own revenue sources.”

#### *Government response*

Government views land value capture mechanisms as strategic funding tools for local government. These mechanisms should be used to augment municipal revenues to fund investment in infrastructure needed to support development. The National Treasury has called on municipalities to use all available options to increase their own revenues for several years in the *Budget Review* and the MTBPS.

Municipalities, including the City of Johannesburg and the City of Cape Town, are already implementing land value capture mechanisms such as tax incremental financing and development rights.

Government agrees that further information can enable more municipalities to take advantage of these mechanisms. It continues to research and analyse various land value capture mechanisms to better advise municipalities on their implementation.

### **Chapter 3: Municipal Government Capacity Building**

#### *Municipal functionality*

The FFC recommends that, “The Minister of COGTA, the Minister of Finance and the President of SALGA jointly lead the development of a government-wide accepted definition of ‘municipal functionality’. The definition should be based on the six factors put forward by the Commission: maintenance and performance of systems, processes and practices in governance, service delivery, financial management, leadership, political management, and human resources. Further, they should ensure that the accepted indices for measuring dysfunctionality should be explicit. Indicators of dysfunctionality should be chosen carefully and should exclude factors that are outside the current control of municipality. This definition can be used across government, including in targeting capacity support grants and further differentiating conditional grants.”

#### *Government response*

Government supports the proposal of a collaborative process to better understand and define municipal functionality. The Minister of Finance has proposed that a special local government Budget Forum lekgotla be held in May or June 2020 to discuss issues affecting the structure of the local government fiscal framework. The proposed agenda for this lekgotla includes a discussion on municipal functionality, and officials from the Department of Cooperative Governance, SALGA, the National Treasury and the FFC will work together to prepare options on how municipal viability should be understood and measured.

### *Capacity building*

The FFC recommends that, “Based on an assessment of the specific needs of a municipality, the Minister of Finance and Minister of COGTA jointly, and in consultation with provincial governments, should prioritise technical support for new systems, innovative business process redesign and change management.”

### *Government response*

Government agrees with the recommendation. When new systems, innovative business process redesign and change management are introduced, technical support to local government is necessary. The new municipal Standard Chart of Accounts (mSCOA) is an example of prioritising technical support in implementing new systems. mSCOA significantly changed municipal financial management as it introduced a standard chart of accounts for the first time. This required changes to the way municipalities recorded transactions, so that transactions would be comparable across all municipalities. To facilitate this change, government provided mSCOA training and training manuals, guidelines and an interactive multimedia learning webpage, which is on the National Treasury Municipal Financial Management Act website ([mfma.treasury.gov.za](http://mfma.treasury.gov.za)).

Government also invests more than R3 billion each year in capacity building and support to local government. In 2019/20, a review of the capacity building and support system of local government was announced. This review will identify overlaps, gaps and duplications and propose systematic measures to rectify them. The main work of the review is expected to be concluded during 2020.

### *Minimum competency*

The FFC recommends that, “The Minister of Finance should conduct regular assessments of the minimum competency regulations to determine their impact and whether there are tangible improvements as a result of complying.”

### *Government response*

Government agrees on the need to review the impact of its programmes and policies. Reviews should take place after an initiative has had sufficient time to have a measurable impact. The Municipal Regulations on Minimum Competency Levels were amended by the Minister of Finance, acting with the agreement of the Minister of Cooperative Governance and Traditional Affairs (COGTA), through a gazette published on 26 October 2018. As such, it is too soon to review the impact of the minimum competency regulations. Their impact will be reviewed in due course.

## **Chapter 4: Local Government Infrastructure Management and Efficiency**

### *Local government infrastructure management and efficiency*

The FFC recommends that, “The Minister of COGTA and the Minister of Finance jointly should, as part of the ongoing local government infrastructure grant reforms, strengthen the linkage between technical project planning processes and budgeting and foster smooth intergovernmental infrastructure coordination, including the following:

- (i) Time-bound plans for consolidating all municipal infrastructure grants into the respective existing sector-specific grants and thereby provide the key sector department with the authority to carry out their infrastructure support mandate;
- (ii) Clarification of roles and responsibilities especially in the delivery of water and electricity services between local municipalities and district municipalities on the one hand, and public entities, including the water authorities and Eskom respectively. With respect to specific local geographic areas, these roles and responsibilities must receive further expression in a Memorandum of Understanding. This will enable more direct targeting of funding for services in the Division of Revenue Act.”

### Government response

Government acknowledges the need to consolidate municipal infrastructure grants and to strengthen the linkages between the technical project planning process and the budgeting. The review of local government infrastructure grants has identified consolidation and rationalisation in the number of grants received by each municipality as a key area for reforming the grant system. A number of reforms have been made to the infrastructure grant system in this regard. As early as 2015, two separate public transport grants to cities – one for capital and one for operational expenditures – were merged into a consolidated *public transport network grant*. This began the process of reducing duplication in the grant system. It also enhanced the link between capital investment and the sustainability of ongoing operational costs. This was followed by the rationalisation of four overlapping water and sanitation grants into two grants, each with direct and indirect components. The *regional bulk infrastructure grant* remains a stand-alone grant to fund large bulk-water and sanitation projects. The *municipal water infrastructure grant*, the *water services operating subsidy grant* and the *rural households infrastructure grant* were merged into one grant – the *water services infrastructure grant* – to fund construction and refurbishment of reticulation schemes and on-site services in rural municipalities. This responded to the concerns over duplication and fragmentation in water and sanitation grants. Most recently, the electrification funds for metropolitan municipalities from the *Integrated National Electrification Programme (municipal) grant* were shifted into the *urban settlements development grant*. This responds to several challenges noted by the Department of Mineral Resources and Energy with the grant, including problems in coordinating the timing of projects with the provision of other services and will help reduce the reporting burden for cities.

As the various grants in the system serve different purposes, the consolidation and rationalisation process requires extensive consultation before grants can be merged. Grant consolidation must not adversely affect projects already being implemented through one of the affected grants (for example, as a result of changed conditions in the merged grant). It is therefore not appropriate to set definitive timelines on when grants will be consolidated, but government is committed to achieving the vision of a differentiated grant system that recognises the varying contexts faced by different types of municipalities while reducing the number of separate grants each municipality receives.

Government also agrees that sector departments must carry out their infrastructure support and oversight mandates, whether this is for a sector-specific grant or as part of a consolidated grant that more holistically funds municipal infrastructure investment plans. The Division of Revenue Act (2019) includes new requirements that sector departments must be consulted on their responsibilities with respect to consolidated conditional grants before the draft frameworks are submitted to the National Treasury. This new requirement, which came into effect in preparing the 2020/21 conditional grant frameworks, should strengthen coordination between national departments.

Government agrees that greater clarity on roles and responsibilities in the delivery of water and electricity is needed. Sections 29(2) and (3) of the Division of Revenue Act make provision for district and local municipalities to agree on their respective roles and responsibilities in providing services. Section 29(2) requires that district municipalities providing a service must, before implementing any capital project for water, electricity, roads or other municipal service, consult the local municipalities within whose area of jurisdiction the project will be implemented. Section 29(3) requires that district municipalities ensure they do not duplicate any function provided by a local municipality and must transfer funds for the provision of services to the relevant local municipality providing the service. Section 29(5) requires that district and local municipalities must agree to a payment schedule for funds that must be transferred from the district municipality to the local municipality for functions they perform on behalf of the district municipality. However, the Division of Revenue Act can only allocate transfers to the municipality formally assigned the responsibility for a function. The conclusion of an agreement between the district and local municipalities allows for smoother transfers between them, but would not allow national government to transfer funds directly to a municipality that is not assigned the relevant function.

The Department of Mineral Resources and Energy is developing an electrification master plan, which will provide guidance on which areas should be electrified by Eskom and which by municipalities. However, the

final decision on whether electricity distribution licences are granted to municipalities or Eskom is determined by the National Energy Regulator of South Africa.

#### *Infrastructure inspectorate*

The FFC recommends that, “The Minister of COGTA should establish an infrastructure inspectorate through the Municipal Infrastructure Support Agency (MISA) to assess management performance processes and capacity within municipalities to implement grant-funded and non-grant-funded infrastructure projects on a continuous basis.”

The FFC also recommends that, “The MISA inspectorate should undertake infrastructure delivery management capability assessments, quality inspections of new and existing built infrastructure, project management and delivery audits and advise on alternative approaches, materials or technologies for infrastructure delivery through the development of infrastructure blueprints for various types of municipal facilities.”

Finally, the FFC recommends that, “The Minister of COGTA should align inspectorate assessments to the Division of Revenue Bill conditions for allocation, reporting and the disbursement of grants. This must be in line with the recently established Budget Facility for Infrastructure Programme criteria for appraising and budgeting for infrastructure projects.”

#### *Government response*

Government acknowledges the need for improved oversight of the implementation of municipal infrastructure projects. The infrastructure inspectorate proposed by the FFC would require significant institutional capacity to implement successfully. As a result, the decision of whether an inspectorate is the best mechanism through which to improve oversight, and whether this capacity should be located in MISA or another institution, needs to be considered carefully. The National Treasury has recommended to MISA that it ask the Department of Planning, Monitoring and Evaluation to conduct a formal review of MISA’s operational efficiency. This independent assessment will identify which activities are improving municipal infrastructure delivery and which are not. This will help us to identify where there is scope to reprioritise resources within MISA to fund new activities such as the work of the proposed inspectorate.

Developments in late 2019 are likely to affect MISA’s ability to implement significant new programmes in the short term. However, this recommendation will be considered further within government during 2020. In the meantime, government will continue to implement measures to review and strengthen municipal capacity building and to improve coordination and project management capacity, as described in the responses to other recommendations.

#### *Shared project management capacity in district municipalities*

The FFC recommends that, “The Minister of Finance, jointly with the Minister of COGTA, MECs for Finance and other provincial government departments, should within a district municipality area pull together the various project management resources present from GTAC, MISA, MIG administration and the respective municipal PMUs, to create a shared project management facility to improve the oversight capacity in respect of projects and to protect the financial interest of local government against contractor misconduct.”

#### *Government response*

Government agrees on the importance of improving the coordination of infrastructure delivery. President Ramaphosa launched pilots of the district development model in O.R. Tambo District Municipality, eThekweni Metropolitan Municipality and Waterberg District Municipality. The model aims to develop and implement One Plan for each district or metropolitan area that coordinates the efforts of different stakeholders within the respective municipality. This includes better coordination of project management capacity, as recommended by the FFC.

To complement efforts to improve project implementation, government is also investing in improved capacity to prepare projects. Sound project preparation will make implementation much smoother. Additional support and funding for project preparation is being made available through a new facility at the Development Bank of Southern Africa, established in support of the Infrastructure Fund. Government has also introduced dedicated grant funding for project preparation in metropolitan municipalities (this may be extended to other municipalities in future). From 2020/21, metropolitan municipalities will be funded for infrastructure project and programme preparation costs through the *integrated city development grant*, on condition that they meet certain requirements with respect to their project and programme preparation and authorisation processes and that they contribute funds from their own resources.

## Part 4: Provincial allocations

Provincial government receives two forms of allocations from nationally raised revenue, the equitable share and conditional grants. Sections 214 and 227 of the Constitution require that an equitable share of nationally raised revenue be allocated to provincial government to provide basic services and perform its allocated functions. The equitable share is an unconditional transfer to provinces and constitutes their main source of revenue. Due to their limited revenue-raising abilities, provinces receive 43 per cent of nationally raised revenue. In addition, they receive conditional grants to help them fulfil their mandates. Transfers to provinces account for over 90 per cent of provincial revenue.

This section outlines national transfers to provinces for the 2020 MTEF period, including the fiscal consolidation measures announced in the 2019 MTBPS, as well as other changes that were effected after it was tabled, both to the equitable share and conditional grants. Having taken the revisions to the provincial fiscal framework into account, national transfers to provinces increase from R612.2 billion in 2019/20 to R649.3 billion in 2020/21. Over the MTEF period, provincial transfers will grow at an average annual rate of 6 per cent to R730.7 billion in 2022/23. Table W1.5 sets out the transfers to provinces for 2020/21. A total of R538.5 billion is allocated to the provincial equitable share and R110.8 billion to conditional grants.

### Changes to provincial allocations

For the 2020 MTEF, revisions to the provincial fiscal framework reflect a combination of fiscal consolidation reductions and reprioritisations in order to respond to the fiscal pressures faced by government while ensuring that provinces are able to deliver on their mandates. Table W1.6 provides a summary of the changes to the provincial fiscal framework.

The proposed changes to the wage bill discussed in Chapter 3 of the *Budget Review* are not yet reflected in the allocations to provinces in this annexure. Once effected, they will result in reductions to the provincial equitable share in the 2020/21 adjustment budget. These reductions will be fully offset by lower compensation spending by provinces as a result of the revised wage agreement.

Transfers to provincial governments are reduced by R27 billion over the 2020 MTEF period, of which direct transfers are reduced by R24.4 billion and indirect transfers are reduced by R2.6 billion.

The 2019 MTBPS announced a reduction of R7.3 billion in the provincial equitable share over the MTEF period, which is equivalent to 2 per cent of non-compensation expenditure funded by the equitable share. More recently, the effect of lower estimates of consumer price index inflation on projected compensation spending have allowed a further reduction of R2.5 billion in 2020/21 and R2.7 billion in 2021/22 from the provincial equitable share.

For the 2020 MTEF period, there are several increases to the provincial equitable share as a result of reprioritisations. To continue rolling out the Sanitary Dignity Programme, which was introduced in the 2019 MTEF period, R652 million has been added. A total of R398 million has been reprioritised from national government to provinces to continue to employ social workers in areas with high levels of gender-based violence, substance abuse and social problems affecting children, and an additional R315 million has been reprioritised to continue supporting non-profit organisations in implementing social behaviour change programmes to address social and structural drivers of HIV, TB and sexually transmitted infections. Further details of these allocations are contained in the provincial equitable share section, under the description of allocations made outside the formula. Where funds have been reprioritised from provincial conditional grants, these changes are reflected as technical adjustments in Table W1.6, while funds reprioritised from allocations to other spheres are shown as additions to the provincial fiscal framework.

Several technical adjustments to conditional grants are shown in Table W1.6. In the 2019/20 adjustment budget, an indirect *Ilima/Letsema grant* was created to fund the National Food and Nutrition Survey, conducted by the Human Sciences Research Council, which will benefit provinces and national government. This survey will establish a baseline for poverty and food security that can be used to improve the targeting of poverty-relief programmes. This indirect grant will continue in 2020/21 and R36 million has been shifted from the direct *Ilima/Letsema projects grant* to the newly created indirect component to complete the survey. The 2019/20 adjustment budget announced that the contracting of health professionals to implement national health insurance would shift from being funded through the *national health insurance indirect grant* to being funded through the direct *national health insurance grant*. This shift continues over the 2020 MTEF period, and R900 million is allocated to this grant over the three years. Funds for the completion of a project in Limpopo have been shifted from the *national health insurance indirect grant* to the direct *health facility revitalisation grant*. The introduction of a separate *informal settlements upgrading partnership grant* has been delayed until 2021/22, so the indicative baseline for this grant in 2020/21 has been shifted back to the *human settlements development grant*.

Over the 2020 MTEF period, R1.4 billion has been added to the *early childhood development grant* to increase the subsidy paid for children receiving early childhood development services and to provide for additional children to access these services. Several reprioritisations and technical changes to conditional grants that were announced in the 2019 MTBPS will be implemented over the 2020 MTEF period. These include a reprioritisation of R255 million over the MTEF period from the *comprehensive agricultural support grant* to the Department of Agriculture, Land Reform and Rural Development to support animal and plant health to sustain exports. The funds will be used to improve laboratory capacity, border control and inspections by the national department. Funds are also reprioritised out of the *human settlements development grant* to support efforts to address pollution in the Vaal River system.

Reductions to provincial conditional grants, made as part of the fiscal consolidation announced in the 2019 MTBPS, were determined taking account of the factors described in Part 2 of this annexure. The details are discussed under individual grants. The *provincial roads maintenance grant* has been reduced by R500 million in 2020/21 and this amount has been set aside as a provisional allocation to fund disaster recovery projects.

Including all of the additions, reductions and technical changes, the provincial equitable share grows at an average annual rate of 6.3 per cent over the MTEF period, while direct conditional grant allocations grow at an average annual rate of 4.7 per cent.

## The provincial equitable share

The equitable share is the main source of revenue through which provinces are able to meet their expenditure responsibilities. To ensure that allocations are fair, the equitable share is allocated through a formula using objective data to reflect the demand for services across all nine provinces. For each year of the 2020 MTEF period, the following amounts are allocated to the provincial equitable share respectively: R538.5 billion, R574 billion and R607.6 billion.

### *The equitable share formula*

The equitable share formula consists of six components that account for the relative demand of services and take into consideration the change of demographics in each of the provinces. The structure of the two largest components, education and health, is based on the demand and the need for education and health services. The other four components enable provinces to perform their other functions, taking into consideration population size of each province, the proportion of poor residents in each province, the level of economic activity and the costs associated with running a provincial administration. For the 2020 MTEF, the formula has been updated with data from Statistics South Africa's 2019 mid-year population estimates on population and age cohorts and the 2019 preliminary data published by the Department of Basic Education on school enrolment from the Learner Unit Record Information and Tracking System (LURITS) database. Data from the health sector, the 2018 General Household Survey for medical aid coverage and the Risk Equalisation Fund for the risk-adjusted capitation index is also used to update the formula. Allocation changes tend to mirror shifts in population across provinces, which result in changes in the relative demand for public services across these areas. The impact of these data updates on the provincial equitable shares will be phased in over three years (2020/21 – 2022/23).

The provincial equitable share formula continues to be reviewed. Further details of this review are discussed in Part 6.

### *Summary of the formula's structure*

The formula's six components, shown in Table W1.7, capture the relative demand for services across provinces and take into account specific provincial circumstances. The components are neither indicative budgets nor guidelines as to how much should be spent on functions. Rather, the education and health components are weighted broadly in line with historical expenditure patterns to indicate relative need. Provincial executive councils determine the departmental allocations for each function, taking into account the priorities that underpin the division of revenue.

For the 2020 Budget, the formula components are set out as follows:

- An *education component* (48 per cent), based on the size of the school-age population (ages five to 17) and the number of learners (Grades R to 12) enrolled in public ordinary schools.
- A *health component* (27 per cent), based on each province's risk profile and health system caseload.
- A *basic component* (16 per cent), derived from each province's share of the national population.
- An *institutional component* (5 per cent), divided equally between the provinces.
- A *poverty component* (3 per cent), based on income data. This component reinforces the redistributive bias of the formula.
- An *economic activity component* (1 per cent), based on regional gross domestic product (GDP-R, measured by Statistics South Africa).

### *Education component (48 per cent)*

The education component has two sub-components, accounting for school-age population (five to 17 years) and enrolment data. Each element is assigned a weight of 50 per cent.

In 2018/19, the data source for enrolment numbers was changed as part of the review of the provincial equitable share, from the SNAP survey to the Department of Basic Education's data collection system, LURITS. The LURITS system allows data to be verified and learners' progress to be tracked throughout their school careers. It also allows for duplicates and repetitions to be detected, improving the integrity of the numbers that are reported. When the changes were implemented in the 2018 MTEF, the data was phased in over three years, with the 2018 MTEF and the 2019 MTEF enrolment numbers including data from the old SNAP survey. This phased approach is now complete, and from 2020/21 only the LURITS data is used to update learner enrolment numbers.

As a result of the review of the formula, the data used for the school-age population sub-component has also changed. From 2019/20, the use of Statistics South Africa's annual mid-year population estimates for the five-year-old to 17-year-old age cohort is being phased in. This data is updated yearly, unlike the 2011 Census data, which was used to update the school-age population previously. This will help limit the shocks of updating the sub-component after a lag between Census updates. This change is being phased in over three years, ending in 2021/22. In 2020/21, the data used to update the age cohort sub-component takes two thirds of its data from the mid-year population estimates and one third from the 2011 Census. From 2021/22, the data used comes only from the mid-year population estimates. Table W1.8 shows how this phase-in is calculated and the age cohort numbers used in the formula.

### Health component (27 per cent)

The health component uses a risk-adjusted capitation index and output data from public hospitals to estimate each province's share of the health component. These methods work together to balance needs (risk-adjusted capitation) and demands (output component).

The health component is presented in three parts below. Table W1.10 shows the shares of the risk-adjusted component, which accounts for 75 per cent of the health component.

**Table W1.10 Risk-adjusted sub-component shares**

The risk-adjusted sub-component estimates a weighted population in each province using the risk-adjusted capitation index, which is calculated using data from the Council for Medical Schemes' Risk Equalisation Fund. The percentage of the population with medical insurance, based on the 2018 General Household Survey, is deducted from the 2019 mid-year population estimates to estimate the uninsured population per province. The risk-adjusted index, which is an index of each province's health risk profile, is applied to the uninsured population to estimate the weighted population. Each province's share of this weighted population is used to estimate their share of the risk-adjusted sub-component. The column on the right in Table W1.10 shows the change in this sub-component between 2019 and 2020.

The output sub-component (shown in Table W1.11) uses patient load data from the District Health Information Services. The average number of visits to primary healthcare clinics in 2017/18 and 2018/19 is calculated to estimate each province's share of this part of the output component, which makes up 5 per cent of the health component. For hospitals, each province's share of the total patient-day equivalents at public hospitals in 2017/18 and 2018/19 is used to estimate their share of this part of the output sub-component, making up 20 per cent of the health component. In total, the output component is 25 per cent of the health component.

Table W1.12 shows the updated health component shares for the 2020 MTEF period.

### Basic component (16 per cent)

The basic component derives from each province's share of the national population. This component constitutes 16 per cent of the total equitable share. For the 2020 MTEF, population data is drawn from the 2019 mid-year population estimates produced by Statistics South Africa. Table W1.13 shows how population changes have affected the basic component's revised weighted shares.

**Table W1.13 Impact of the changes in population on the basic component shares**

### Institutional component (5 per cent)

The institutional component recognises that some costs associated with running a provincial government and providing services are not directly related to the size of a province's population or factors included in other components. It is therefore distributed equally between provinces, constituting 5 per cent of the total equitable share, of which each province receives 11.1 per cent. This component benefits provinces with smaller populations, especially the Northern Cape, the Free State and the North West, because the allocation per person for these provinces is much higher in this component.

### Poverty component (3 per cent)

The poverty component introduces a redistributive element to the formula and is assigned a weight of 3 per cent. For this component, the poor population is defined as people who fall into the lowest 40 per cent of household incomes in the 2010/11 Income and Expenditure Survey. The estimated size of the poor population in each province is calculated by multiplying the proportion of people in that province who fall

into the poorest 40 per cent of South African households by the province's population figure from the 2019 mid-year population estimates. Table W1.14 shows the proportion of the poor in each province from the Income and Expenditure Survey, the 2019 mid-year population estimates and the weighted share of the poverty component per province.

**Table W1.14 Comparison of current and new poverty component weighted shares**

#### *Economic activity component (1 per cent)*

The economic activity component is a proxy for provincial tax capacity and expenditure assignments. Given that these assignments are a relatively small proportion of provincial budgets, the component is assigned a weight of 1 per cent. For the 2020 MTEF, 2017 GDP-R data is used. Table W1.15 shows the weighted shares of the economic activity component.

**Table W1.15 Current and new economic activity component weighted shares**

#### *Full impact of data updates on the provincial equitable share*

Table W1.16 shows the full impact of the data updates on the provincial equitable share per province, after the six updated components have been added together. It compares the target shares for the 2019 and 2020 MTEF periods. The size of each province's share reflects the relative demand for provincial public services in that province, and the changes in shares from 2019 to 2020 respond to changes in that demand. The details of how the data updates affect each component of the formula are described in detail in the sub-sections above.

**Table W1.16 Full impact of data updates on the equitable share**

### Phasing in the formula

The annual updates to the official data used to calculate the provincial equitable share formula result in changes to each province's share of the available funds. These changes reflect the changing balance of service delivery demands among the provinces, and the annual data updates are vital to ensuring that allocations can respond to these changes. However, provinces need stable and predictable revenue streams to allow for sound planning. As such, the new shares calculated using the most recent data are phased in over the three-year MTEF period.

The equitable share formula data is updated every year and a new target share for each province is calculated, as shown in Table W1.17. The phase-in mechanism provides a smooth path to achieving the new weighted shares by the third year of the MTEF period. It takes the difference between the target weighted share for each province at the end of the MTEF period and the indicative allocation for 2020/21 published in the 2019 MTEF, and closes the gap between these shares by a third in each year of the 2020 MTEF period. As a result, one third of the impact of the data updates is implemented in 2020/21 and two thirds in the indicative allocations for 2021/22. The updates are thus fully implemented in the indicative allocations for 2022/23.

**Table W1.17 Implementation of the equitable share weights**

### Allocations calculated outside the equitable share formula

In addition to allocations made through the formula, the provincial equitable share includes allocations that have been determined using other methodologies. These allocations are typically introduced when a new function or additional funding is transferred to provinces and national government indicates separately how

much funding has been allocated to each province for this specific purpose. Funds are also added through this approach when a priority has been identified through the national budget process and provincial government performs the function or when a conditional grant is absorbed into the equitable share.

For the 2020 MTEF, three new adjustments are allocated outside the provincial equitable share formula. In the social development sector, R398 million has been reprioritised from national government to continue to employ social workers in areas with a high prevalence of gender-based violence, substance abuse and issues affecting children. The allocations to the provinces are based on the prevalence of these problems, population and geographic size, and the number of sites offering social work services. In addition, R315 million has been reprioritised from the Department of Social Development for provinces to continue to help non-profit organisations implement Social Behaviour Change Programmes to address social and structural drivers of HIV, TB and sexually transmitted infections. To scale up the Sanitary Dignity Programme, which provides sanitary products to indigent girl learners, funds were added to the equitable share in 2019/20. To continue rolling out this programme, R652 million has been added to the provincial equitable share over the 2020 MTEF period. These funds are proportionally allocated to the provinces based on the number of girl learners in Grades 4 to 12 in the poorest schools (quintiles 1–3) in each province.

Table W1.18 provides a summary of the allocations made outside the provincial equitable share in the 2020 MTEF period and a short description of how these amounts are allocated among provinces.

### *Final provincial equitable share allocations*

The final equitable share allocations per province for the 2020 MTEF period are detailed in Table W1.19. These allocations include the full impact of the data updates, phased in over three years, and the allocations that are made separately from the formula.

### **Conditional grants to provinces**

There are four types of provincial conditional grants:

- Schedule 4, part A grants supplement various programmes partly funded by provinces.
- Schedule 5, part A grants fund specific responsibilities and programmes implemented by provinces.
- Schedule 6, part A grants provide in-kind allocations through which a national department implements projects in provinces.
- Schedule 7, part A grants provide for the swift allocation and transfer of funds to a province to help it deal with a disaster or housing emergency.

#### *Changes to conditional grants*

The overall growth in direct conditional transfers to provinces averages 4.7 per cent over the medium term. Direct conditional grant baselines total R111 billion in 2020/21, R118 billion in 2021/22 and R123 billion in 2022/23. Indirect conditional grants amount to R4.1 billion, R4.8 billion and R5.1 billion respectively for each year of the same period.

Table W1.20 provides a summary of conditional grants by sector for the 2020 MTEF period. More detailed information, including the framework and allocation criteria for each grant, is provided in the 2020 Division of Revenue Bill. The frameworks provide the conditions for each grant, the outputs expected, the allocation criteria used for dividing each grant between provinces, and a summary of the grants' audited outcomes for 2018/19.

### Agriculture, land reform and rural development grants

The *comprehensive agricultural support programme grant* aims to support newly established and emerging farmers, particularly subsistence, smallholder and previously disadvantaged farmers. The grant funds a range of projects, including providing training, developing agro-processing infrastructure and directly supporting

targeted farmers. Over the 2020 MTEF period, R255.1 million is reprioritised from the grant to the Department of Agriculture, Land Reform and Rural Development to fund improved laboratory capacity, border control and inspections. Although funds have been reprioritised from this grant, over the 2020 MTEF period R4.8 billion is allocated to this grant, and the baseline grows from R1.5 billion in 2020/21 to R1.7 billion in 2022/23. The fiscal consolidation reductions for this grant are equivalent to 5 per cent of the grant's baseline in 2020/21, 6 per cent in 2022/23 and 7 per cent in 2022/23.

The *land care programme grant: poverty relief and infrastructure development* aims to improve productivity and the sustainable use of natural resources. Provinces are also encouraged to use this grant to create jobs through the Expanded Public Works Programme. Over the medium term, R257 million is allocated to this grant. The fiscal consolidation reductions for this grant are equivalent to 5 per cent of the grant's baseline in 2020/21, 6 per cent in 2022/23 and 7 per cent in 2022/23.

The *Ilima/Letsema projects grant* aims to boost food production by helping previously disadvantaged farming communities. The grant's baseline is R1.8 billion over the 2020 MTEF period. This includes R36 million in 2020/21, which is allocated through the *Ilima/Letsema indirect grant* to complete the National Food and Nutrition Survey. These funds were previously ring-fenced in the direct *Ilima/Letsema projects grant*, and this shift will allow the national Department of Agriculture, Land Reform and Rural Development to pay the Human Sciences Research Council directly for the survey. The fiscal consolidation reductions for this grant are equivalent to 5 per cent of the grant's baseline in 2020/21, 6 per cent in 2021/22 and 7 per cent in 2022/23.

### Basic education grants

The *education infrastructure grant* provides supplementary funding for ongoing infrastructure programmes in provinces. This includes maintaining existing infrastructure and building new infrastructure to ensure school buildings meet the required norms and standards. The grant's total allocation for this period is R35 billion: R11 billion in 2020/21, R11.7 billion in 2021/22 and R12.3 billion in 2022/23. The fiscal consolidation reductions for this grant are equivalent to 4 per cent of the grant's baseline in 2020/21, 5 per cent in 2022/23 and 5.9 per cent in 2022/23.

Provincial education departments have to go through a two-year planning process to be eligible to receive incentive allocations for infrastructure projects. To receive the 2020/21 incentive, the departments had to meet certain prerequisites in 2018/19 and have their infrastructure plans approved in 2019/20. The national Department of Basic Education and the National Treasury assessed the provinces' infrastructure plans. The national departments, provincial treasuries and provincial departments of basic education undertook a moderation process to agree on the final scores. Provinces needed to obtain a minimum score of 60 per cent to qualify for the incentive. Table W1.21 shows the final score and incentive allocation for each province.

The national Department of Basic Education uses the indirect *school infrastructure backlogs grant* to replace unsafe and inappropriate school structures and to provide water, sanitation services and electricity on behalf of provinces. This grant is allocated R6.5 billion over the medium term in the Planning, Information and Assessment Programme. An allocation of R1.7 billion in 2020/21 will be used to replace 40 inappropriate and unsafe schools with newly built ones, provide clean water to 432 schools and provide appropriate sanitation services to 1 033 schools.

The *national school nutrition programme grant* aims to improve the nutrition of poor school children, enhance their capacity to learn and increase their attendance at school. The programme provides a free daily meal to learners in the poorest schools (quintiles 1 to 3). To provide meals to more children, while still providing quality food, growth in the grant's allocations over the MTEF period averages 5.8 per cent, with a total allocation of R24.3 billion. The fiscal consolidation reductions to this grant are equivalent to 0.4 per cent of the grant's baseline in 2020/21, 0.5 per cent in 2021/22 and 0.6 per cent in 2022/23.

The *maths, science and technology grant* provides for ICT, workshop equipment and machinery to schools, which should lead to better outcomes in maths and science in the long term. The grant's total allocation is R1.3 billion over the medium term. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

The *HIV and AIDS (life skills education) programme grant* provides for life skills training, and sexuality and HIV/AIDS education in primary and secondary schools. The programme is fully integrated into the school system, with learner and teacher support materials provided for Grades 1 to 9. The grant's total allocation is R767 million over the medium term. The fiscal consolidation reductions to this grant are equivalent to 8.8 per cent of the grant's baseline in 2020/21, 9.5 per cent in 2021/22 and 11.5 per cent in 2022/23.

The *learners with profound intellectual disabilities grant* aims to expand access to education for these learners. Over the MTEF period, the grant will provide access to quality, publicly funded education to such learners by recruiting outreach teams. This grant has been allocated R765 million over the 2020 MTEF period.

#### *Cooperative governance grant*

The *provincial disaster relief grant* is administered by the National Disaster Management Centre in the Department of Cooperative Governance. It is unallocated at the start of the financial year. The grant allows the National Disaster Management Centre to immediately release funds (in-year) after a disaster is declared, without the need for the transfers to be gazetted first. The reconstruction of infrastructure damaged by disasters is funded separately through ring-fenced allocations in sector grants. Strategies to mitigate the effects of the ongoing drought have, in part, been funded by this grant.

To ensure that sufficient funds are available in the event of a disaster, section 21 of the 2019 Division of Revenue Bill allows for funds allocated to the *municipal disaster relief grant* to be transferred to provinces if funds in the *provincial disaster relief grant* have already been exhausted, and vice versa. The bill also allows for more than one transfer to be made to areas affected by disasters so that an initial payment for emergency aid can be made before a full assessment of damages and costs has been completed. Over the 2020 MTEF period, R438 million has been allocated to the *provincial disaster relief grant*.

#### *Health grants*

The *national tertiary services grant* provides strategic funding to enable provinces to plan, modernise and transform tertiary hospital service delivery in line with national policy objectives. The grant operates in 29 tertiary hospitals across the nine provinces and continues to fund medical specialists, equipment, and advanced medical investigation and treatment according to approved service specifications. Patient referral pathways often cross provincial borders and, as a result, many patients receive care in neighbouring provinces if the required services are unavailable in their home province. For the 2020 MTEF period, the national Department of Health has reprioritised R176 million within this conditional grant to develop and expand tertiary services in the Eastern Cape, Limpopo, Mpumalanga and the North West. The funds have

been ring-fenced in the 2020/21 allocations for these provinces and left unallocated for 2021/22 and 2022/23. These developmental allocations will allow the provinces to develop their capacity in offering tertiary services within their facilities. A similar approach to allocating developmental funds is taken in the statutory human resources component of the *statutory human resources, training and development grant* and further details on the amounts ring-fenced are discussed under this grant. The urban areas of Gauteng and the Western Cape continue to receive the largest share of the grant because they provide the largest proportion of high-level, sophisticated services.

The national Department of Health has reviewed the allocation criteria under this grant and is working with provinces to develop a new allocation model to ensure continued fairness in allocations. The grant is allocated R44.1 billion over the medium term: R14.1 billion in 2020/21, R14.7 billion in 2021/22 and R15.3 billion in 2022/23. The fiscal consolidation reductions to this grant are equivalent to 1 per cent of the grant's baseline in 2021/22 and 1 per cent in 2022/23.

The *health facility revitalisation grant* funds the construction and maintenance of health infrastructure, including large projects to modernise hospital infrastructure and equipment, general maintenance and infrastructure projects at smaller hospitals, and the refurbishment and upgrading of nursing colleges and schools. A total of R199 million in 2020/21 and R5.7 million in 2021/22 has been shifted from the *national health insurance indirect grant: health facility revitalisation component* to this grant for upgrades to Pietersburg Hospital in Limpopo. These funds were initially part of the Limpopo allocations in the *national health insurance indirect grant*. The province will now undertake the upgrades, so the funds will be transferred directly to the province. Over the 2020 MTEF period, R20 billion has been allocated to this grant. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

Like the *education infrastructure grant* discussed previously, a two-year planning process is also required for provinces to access this grant's incentive component. The national Department of Health and the National Treasury assessed the provinces' infrastructure plans. This was followed by a moderation process between the national departments, provincial treasuries and provincial departments of health to agree on the final scores. Provinces had to obtain a minimum score of 60 per cent to qualify for the incentive. Funds for the incentive component in the outer years are shown as unallocated. Table W1.22 sets out the final score and the incentive allocation per province.

The *human resources capacitation grant* and the *health professions training and development grant* have been merged to create a new *statutory human resources, training and development grant* from 2020/21. The conditional grant has two components and has been allocated R4.2 billion in 2020/21, R4.3 billion in 2021/22 and R4.5 billion in 2022/23. The health professions training and development component funds the training of health sciences professionals, including specialists, registrars and their supervisors (who were previously funded from the *health professions training and development grant*). The statutory human resources

component will fund intern and community service posts (which were previously funded from the *human resources capacitation grant*), as well as some posts previously funded from the equitable share. When the *human resources capacitation grant* was introduced, it was primarily meant to fund the shortfall in funding for interns and community service posts, but its scope expanded to include other vacant posts in the health sector. These non-statutory posts will now be funded through the provincial equitable share. Therefore, the grant will be able to fund some additional internship and community service posts that were previously funded from the equitable share. Over the 2020 MTEF period, similar to the national tertiary services grant, R65 million has been ring-fenced in the health professions training and development component of this grant for the development and expansion of tertiary services in the Eastern Cape, Limpopo, Mpumalanga, the Northern Cape and the North West. The funds have been allocated to these provinces for 2020/21, and are left unallocated for the outer two years of the MTEF period.

The *HIV, TB, malaria and community outreach grant* supports HIV/AIDS prevention programmes and specific interventions, including voluntary counselling and testing, prevention of mother-to-child transmission, post-exposure prophylaxis, antiretroviral treatment and home-based care. In the 2016 MTEF, the grant's scope was extended to include tuberculosis. In the 2018 Budget, a sub-component for community outreach services was introduced, so that funds used to support community health workers could be explicitly earmarked. This will help ensure that these workers are better integrated into national health services. In 2020/21, R800 million has been reprioritised to the community outreach services component from the HIV and AIDS component of the grant to cover a shortfall in the salaries of community health workers in that year. In 2019/20, two new components were added to the grant, to strengthen the continued fight against malaria in three provinces and to monitor the activities and outcomes of the TB portion of the grant. In the 2020 MTEF, the *human papillomavirus vaccine grant* has been merged into the *HIV, TB, malaria, community outreach grant* and a separate component will be created within the grant to continue funding human papillomavirus vaccinations. Two new components for mental health and oncology will be introduced in 2021/22, with funds of R452 million reprioritised from the national health insurance: personal services component for the two outer years of the 2020 MTEF period. The grant's total baseline amounts to R82 billion over the medium term. The fiscal consolidation reductions to this grant are equivalent to 1 per cent of the grant's baseline in 2020/21, 1 per cent in 2021/22 and 1 per cent in 2022/23.

The *national health insurance indirect grant* continues to fund all preparatory work for universal health coverage, as announced in 2017/18. Over the 2020 MTEF period, this will be done through three components: health facility revitalisation and two integrated components (personal services and non-personal services). The personal services component funds priority services for national health insurance, which include:

- Expanding access to school health services, focusing on optometry and audiology.
- Contracting general practitioners based on a set annual amount per patient instead of fees per service provided.
- Providing community mental health services, maternal care for high-risk pregnancies, screening and treatment for breast and cervical cancer, hip and knee arthroplasty, cataract surgeries and wheelchairs.

Non-personal services will test, and scale up when ready, the technology platforms and information systems needed to ensure a successful transition to national health insurance. In 2020/21, this component will also pilot new initiatives to improve the quality of health in preparation for accreditation to deliver national health insurance services. The non-personal services component is allocated R2.2 billion over the medium term to continue funding initiatives to strengthen health information systems, clinics, and the dispensing and distribution of centralised chronic medicines. This indirect grant is allocated a total of R7.5 billion over the 2020 MTEF period. The fiscal consolidation reductions to this grant are equivalent to 9.8 per cent of the grant's baseline in 2020/21, 4 per cent in 2021/22 and 4.7 per cent in 2022/23.

In the 2019/20 adjustment budget, funds for contracting health professionals were shifted from the personal services component of the indirect grant to create a new direct *national health insurance grant*. The contracting of health professionals in former national health insurance pilot sites was previously administered at national level, but the contracting was being carried out at provincial level with the

requirement that provinces submit claims for the costs they incurred. Transferring these funds to provinces allows them to pay contractors directly. The contracting of health professionals will continue to be funded in the direct *national health insurance grant* over the MTEF period through an allocation of R900 million.

### *Human settlements grants*

The *human settlements development grant* seeks to establish habitable, stable and sustainable human settlements in which all citizens have access to social and economic amenities. Over the 2020 MTEF period, a total of R44 billion has been allocated to this grant. The fiscal consolidation reductions to this grant are equivalent to 13.1 per cent of the grant's baseline in 2020/21, 12.9 per cent in 2021/22 and 14.8 per cent in 2022/23.

This grant is allocated using a formula with three components:

- The first component shares 70 per cent of the total allocation between provinces in proportion to their share of the total number of households living in inadequate housing. Data from the 2011 Census is used for the number of households in each province living in informal settlements, shacks in backyards and traditional dwellings. Not all traditional dwellings are inadequate, which is why information from the 2010 General Household Survey on the proportion of traditional dwellings with damaged roofs and walls per province is used to adjust these totals so that only dwellings providing inadequate shelter are counted in the formula.
- The second component determines 20 per cent of the total allocation based on the share of poor households in each province. The number of households with an income of less than R1 500 per month is used to determine 80 per cent of the component and the share of households with an income of between R1 500 and R3 500 per month is used to determine the remaining 20 per cent. Data used in this component comes from the 2011 Census.
- The third component, which determines 10 per cent of the total allocation, is shared in proportion to the number of people in each province, as measured in the 2011 Census.

Table W1.23 shows how the *human settlements development grant* formula calculates the shares for each province and the metropolitan municipalities within the provinces. Section 12(6) of the Division of Revenue Act requires provinces to gazette how much they will spend within each accredited municipality (including the amounts transferred to that municipality and the amounts spent by the province in that municipal area). Funds for mining towns and disaster recovery are allocated separately from the formula.

In 2019/20, the structure of the *human settlements development grant* was changed to intensify efforts to upgrade informal settlements in partnership with communities. To promote this objective, a new component was introduced with specific conditions relating to such upgrades.

The new component amounts to 15 per cent of the formula-based grant allocation to each province. The funds ring-fenced for each province are a minimum expenditure requirement, allowing them to invest more if necessary. The component requires the use of a partnership approach that promotes community ownership and participation in the upgrades. Provinces are required to work with municipalities to identify and prioritise informal settlements for upgrading and to submit a plan for each settlement to be upgraded, prepared in terms of the National Upgrading Support Programme's methodology.

This component will remain in place in 2020/21, serving as a planning and preparatory platform for the introduction of a new *informal settlements upgrading grant* in 2021/22. The new grant will be created by reprioritising funds from the *human settlements development grant*. A similar approach is being taken in the *urban settlements development grant*, discussed in Part 5, with an informal settlements upgrading component and the intention to introduce a separate grant for metropolitan municipalities in the outer years of the MTEF period.

A total of R544 million is ring-fenced within the *human settlements development grant* in 2020/21 to upgrade human settlements in mining towns in six provinces. These allocations respond to areas with significant informal settlement challenges, with a high proportion of economic activity based on the natural resources sector.

The *human settlements development grant* previously had funds ring-fenced for the eradication of the pre-2014 title deeds registration backlog. Given the slow progress to date, along with the impairment it had on the functioning of the property market, the *title deeds restoration grant* was introduced to accelerate the backlog eradication process. The grant was introduced in 2018/19 and comes to an end in 2020/21. It has an allocation of R578 million in 2021/22, which has been indicatively incorporated back into the *human settlements development grant* baseline in that year.

A *provincial emergency housing grant* was also introduced in 2018/19 to enable the department to rapidly respond to emergencies by providing temporary housing in line with the Emergency Housing Programme. However, the grant is limited to funding emergency housing following the immediate aftermath of a disaster, and not the other emergency situations listed in the programme. In 2019/20, the grant's purpose was expanded to fund the repair of houses damaged in disasters, if those repairs are cheaper than the grant's funding of relocating households to temporary shelter. Over the 2020 MTEF period, a total of R932 million has been allocated to this grant.

### *Public works and infrastructure grants*

The *expanded public works programme (EPWP) integrated grant for provinces* incentivises provincial departments to use labour-intensive methods in infrastructure, environmental and other projects. Grant allocations are determined upfront based on the performance of provincial departments in meeting job targets in the preceding financial year. The grant is allocated R1.3 billion over the MTEF period. The fiscal consolidation reductions to this grant are equivalent to 9 per cent of the grant's baseline in 2020/21, 10 per cent in 2021/22 and 10.1 per cent in 2022/23.

The *social sector EPWP incentive grant for provinces* rewards provinces for creating jobs in the preceding financial year in the areas of home-based care, early childhood development, adult literacy and numeracy, community safety and security, and sports programmes. The grant's allocation model incentivises provincial departments to participate in the EPWP and measures the performance of each province relative to its peers, providing additional incentives to those that perform well. The grant is allocated R1.3 billion over the MTEF period. The fiscal consolidation reductions to this grant are equivalent to 9 per cent of the grant's baseline in 2020/21, 10 per cent in 2021/22 and 10.1 per cent in 2022/23.

### *Social development grants*

The *early childhood development grant* supports government's prioritisation of early childhood development, as envisioned in the National Development Plan. The grant aims to improve poor children's access to early childhood programmes and ensure that early childhood centres have adequate infrastructure. The grant baseline totals R3.2 billion over the 2020 MTEF period, which includes an additional R1.4 billion. For 2020/21, the additional allocations have been used to increase the per-child subsidy from R15 per day to R17 per day in 2020/21. The subsidy is then projected to increase in line with inflation to R17.77 in 2021/22 and R18.57 in 2022/23.

The grant additions cover the cost of increasing the per-child subsidies funded from the provincial equitable share in 2020/21 as well as those funded directly from the grant. The additions also fund a small expansion in access to early childhood development services, which can be implemented by increasing the number of subsidies for centre-based early childhood development services or by providing subsidies for non-centre-based early childhood development services. The allocation of funds in the maintenance component of the grant, for the two outer years of the 2020 MTEF period, will be informed by the outcomes of the infrastructure assessments that need to be conducted in each province. As a result, 80 per cent of the allocations in this component remain unallocated in these two outer years.

### *Sports, arts and culture grants*

The *community library services grant*, administered by the Department of Sports, Arts and Culture, aims to help South Africans access information to improve their socio-economic situation. The grant is allocated to the relevant provincial department and administered by that department or through a service-level agreement

with municipalities. In collaboration with provincial departments of basic education, the grant also funds libraries that serve both schools and the general public. Funds from this grant may also be used to enable the shift of the libraries function between provinces and municipalities. The grant is allocated R4.7 billion over the next three years. The fiscal consolidation reductions to this grant are equivalent to 6.6 per cent of the grant's baseline in 2020/21, 5.7 per cent in 2021/22 and 4.7 per cent in 2022/23.

The *mass participation and sport development grant* aims to increase and sustain mass participation in sport and recreational activities in the provinces, with greater emphasis on provincial and district academies. Over the MTEF period, an amount of R90 million has been reprioritised within this grant to support the Netball World Cup, which will be hosted in the Western Cape in 2023. The grant is allocated R1.9 billion over the medium term. The fiscal consolidation reductions to this grant are equivalent to 8.8 per cent of the grant's baseline in 2020/21, 10 per cent in 2021/22 and 10.5 per cent in 2022/23.

### *Transport grants*

The *public transport operations grant* subsidises commuter bus services. It helps ensure that provinces meet their contractual obligations and provide services. Most of the contracts subsidised through this grant continue to operate on long-standing routes that link dormitory towns and suburbs established under apartheid to places of work. The grant allows provinces to renegotiate contracts and routes, and/or to devolve the function and funding to municipalities. This provides an opportunity for routes to be restructured in line with new settlement patterns and to promote more integrated urban development patterns in future. The grant is allocated R21 billion over the MTEF period. The fiscal consolidation reductions to this grant are equivalent to 4 per cent of the grant's baseline in 2022/23.

The *provincial roads maintenance grant* is a supplementary grant that supports the cost of maintaining provincial roads. Provinces are expected to fund the construction of new roads from their own budgets and supplement the cost of maintaining and upgrading existing roads. Grant allocations are determined using a formula based on provincial road networks, road traffic and weather conditions. These factors reflect the varying costs of maintaining road networks in each province. The grant requires provinces to follow best practices for planning, and to use and regularly update road asset management systems.

The incentive portion of the grant is meant to be based on performance indicators relating to traffic loads, safety engineering and visual condition indicators. However, the Department of Transport was unable to provide updated data on the incentive calculation in time to determine incentive allocations for 2020/21. As a result, the full grant is allocated through the formula described above. The Department of Transport and the National Treasury agree that the grant should be used to incentivise improved performance in provincial roads departments and will work together in 2020 to revise the incentive component in time to determine allocations from the R1.6 billion unallocated incentive pool in 2021/22. The total allocation for the MTEF period is R36 billion. The fiscal consolidation reductions to this grant are equivalent to 8.3 per cent of the grant's baseline in 2021/22 and 9.1 per cent in 2022/23. This grant has been reduced by R500 million in 2020/21 and this amount has been set aside as a provisional allocation to fund disaster recovery projects during the same year.

## **Part 5: Local government fiscal framework and allocations**

This section outlines the transfers made to local government and how these funds are distributed between municipalities. Funds raised by national government are transferred to municipalities through conditional and unconditional grants. National transfers to municipalities are published to enable them to plan fully for their 2020/21 budgets, and to promote better accountability and transparency by ensuring that all national allocations are included in municipal budgets.

Over the 2020 MTEF period, R426.4 billion will be transferred directly to local government and a further R23.4 billion has been allocated to indirect grants. Direct transfers to local government over the medium term account for 8.8 per cent of national government's non-interest expenditure. When indirect transfers are

added to this, total spending on local government increases to 9.3 per cent of national non-interest expenditure.

The local government fiscal framework responds to the constitutional assignment of powers and functions to this sphere of government. The framework refers to all resources available to municipalities to meet their expenditure responsibilities. National transfers account for a relatively small proportion of the local government fiscal framework, with the majority of local government revenues being raised by municipalities themselves through their substantial revenue-raising powers. However, each municipality varies dramatically, with poor rural municipalities receiving most of their revenue from transfers, while urban municipalities raise the majority of their own revenues. This differentiation in the way municipalities are funded will continue in the period ahead. As a result, transfers per household to the most rural municipalities are more than twice as large as those to metropolitan municipalities.

## Changes to local government allocations

Over the next three years, above-inflation growth in allocations to the local government equitable share continues, while growth in conditional grants is slower as a result of reductions announced in the 2019 MTBPS. As a result, total direct allocations to local government grow at an annual average rate of 6.6 per cent over the MTEF period.

The changes to each local government allocation are summarised in Table W1.25.

Technical adjustments in Table W1.25 summarise the shifting of funds between different local government allocations, but do not change the total amount allocated to local government. These changes to the grants include the shifting of:

- R400 million in 2020/21 from the *municipal infrastructure grant*, the *water services infrastructure grant* and the *urban settlements development grant* to the indirect *regional bulk infrastructure grant* to assist in funding the rehabilitation of wastewater treatment infrastructure in the Vaal River System.
- R160 million from the direct *neighbourhood development partnership grant* to the indirect component of the grant over the MTEF period.
- R3 billion that had been indicatively allocated to the new *informal settlement upgrading partnership grant* in 2020/21. This amount is shifted back to the *urban settlements development grant* following the decision to extend the informal settlements window within this grant for another year.
- R166 million over the 2020 MTEF period from the *municipal infrastructure grant* to the *integrated urban development grant* for the entry of one additional municipality into the grant.

In addition to funds shifted from other local government grants, R250 million has been added to the indirect *regional bulk infrastructure grant* in 2020/21 to assist with addressing pollution in the Vaal River System. These funds were reprioritised from allocations in other spheres of government.

The local government equitable share is reduced by R3.2 billion over the 2020 MTEF period as part of the fiscal consolidation measures announced in the 2019 MTBPS. The reductions in 2020/21 and 2021/22 eliminate the unallocated funds set aside in the equitable share to provide for possible higher increases in bulk costs. As a result, these reductions will not affect the indicative allocations for individual municipalities.

Reductions to local government conditional grants, due to fiscal consolidation measures announced in the 2019 MTBPS, were determined taking account of the factors described in Part 2 of this annexure. These reductions to direct conditional grants to local government total R16.8 billion over the 2020 MTEF period. Indirect grants to local government have been reduced by R1.2 billion over the medium term, through a reduction to the indirect *integrated national electrification programme grant*. The details are discussed later under individual grants.

### **The local government equitable share**

In terms of section 227 of the Constitution, local government is entitled to an equitable share of nationally raised revenue to enable it to provide basic services and perform its allocated functions. The local government equitable share is an unconditional transfer that supplements the revenue that municipalities can raise themselves (including revenue raised through property rates and service charges). The equitable share provides funding for municipalities to deliver free basic services to poor households and subsidises the cost of administration and other core services for those municipalities with the least potential to cover these costs from their own revenues.

In the process of determining the baseline for the outer year (2022/23) of the 2020 MTEF period, the local government equitable share allocation has grown by 7.6 per cent, well above the standard 4.8 per cent baseline increase. The difference is equivalent to an amount of R2.2 billion in that year. This should cover the anticipated increase in the costs of providing free basic services to a growing number of households, and accounts for likely above-inflation increases in the costs of bulk water and electricity. It will also allow for above-inflation increases in allocations to poorer and rural municipalities through the redistributive components of the equitable share formula.

Over the 2020 MTEF period, the local government equitable share, including the Regional Service Council/Joint Service Board (*RSC/JSB*) *levies replacement grant* and *special support for councillor remuneration and ward committees grant*, amounts to R243 billion (R74.7 billion in 2020/21, R81.1 billion in 2021/22 and R87.2 billion in 2022/23). Due to previous increases, as well as the revised baseline for 2022/23, the local government equitable share grows at an average annual rate of 8.1 per cent over the MTEF period.

### *Formula for allocating the local government equitable share*

The portion of national revenue allocated to local government through the equitable share is determined in the national budget process and endorsed by Cabinet (the vertical division). Local government's equitable share is divided among the country's 257 municipalities, using a formula to ensure objectivity (the horizontal division). The principles and objectives of the formula are set out in detail in the Explanatory Memorandum to the 2013 Division of Revenue.

### *Structure of the local government equitable share formula*

The formula uses demographic and other data to determine each municipality's portion of the local government equitable share. It has three parts, made up of five components:

- The first part of the formula consists of the *basic services component*, which provides for the cost of free basic services for poor households.
- The second part enables municipalities with limited resources to afford basic administrative and governance capacity, and perform core municipal functions. It does this through three components:
  - The *institutional component* provides a subsidy for basic municipal administrative costs.
  - The *community services component* provides funds for other core municipal services not included under basic services.
  - The *revenue adjustment factor* ensures that funds from this part of the formula are only provided to municipalities with limited potential to raise their own revenue. Municipalities that are least able to fund these costs from their own revenues should receive the most funding.
- The third part of the formula provides predictability and stability through the *correction and stabilisation factor*, which ensures that all of the formula's guarantees can be met.

Each of these components is described in detail in the sub-sections that follow.

#### **Structure of the local government equitable share formula**

$$LGES = BS + (I + CS) \times RA \pm C$$

where

**LGES** is the local government equitable share

**BS** is the basic services component

**I** is the institutional component

**CS** is the community services component

**RA** is the revenue adjustment factor

**C** is the correction and stabilisation factor

### *The basic services component*

This component helps municipalities provide free basic water, sanitation, electricity and refuse removal services to households that fall below an affordability threshold. Following municipal consultation, the formula's affordability measure (used to determine how many households need free basic services) is based on the level of two state old age pensions. When the 2011 Census was conducted, the state old age pension was worth R1 140 per month, which means that two pensions were worth R2 280 per month. A monthly household income of R2 300 per month in 2011 has therefore been used to define the formula's affordability threshold. Statistics South Africa has calculated that 59 per cent of all households in South Africa fall below this income threshold. However, the proportion in each municipality varies widely. In 2020 terms, this monthly income is equivalent to about R3 700 per month. This threshold is not an official poverty line or a required level to be used by municipalities in their own indigence policies. If municipalities choose to provide fewer households with free basic services than they are funded for through the local government

equitable share, then their budget documentation should clearly set out why they have made this choice and how they have consulted with their community during the budget process.

The number of households per municipality, and the number below the poverty threshold, is updated annually. The number of households per municipality used to calculate indicative allocations for the outer years of the MTEF period is updated based on the growth experienced between the 2001 Census and the 2016 Community Survey. Provincial growth rates are then rebalanced to match the average annual provincial growth reported between 2002 and 2018 in the annual General Household Survey. Statistics South Africa has advised the National Treasury that, in the absence of official municipal household estimates, this is a credible method of estimating the household numbers per municipality needed for the formula. Statistics South Africa is researching methods for producing municipal-level data estimates, which may be used to inform equitable share allocations in future.

The proportion of households below the affordability threshold in each municipality is still based on 2011 Census data. This is because the 2016 Community Survey did not publish data on household income. The total number of households in each municipality is adjusted every year to account for growth. Although the share of households subsidised for free basic services through the formula remains constant, the number of households subsidised increases annually in line with estimated household growth.

The basic services subsidy is typically allocated to 100 per cent of households that fall below the poverty threshold. This is the case in 2020/21 and 2021/22. In 2022/23, the subsidy is allocated to 99.4 per cent of households below the poverty threshold to ensure that the effect of the reduction in that year is spread across all the components of the formula. The number of households that receive free basic services should not be affected because municipalities have not yet extended the provision of free basic services to reach all poor households. The basic services subsidy will fund:

- 10.4 million households in 2020/21.
- 10.6 million households in 2021/22.
- 10.8 million households in 2022/23.

The basic services component provides a subsidy of R435.04 per month in 2020/21 for the cost of providing basic services to each of these households. The subsidy includes funding for the provision of free basic water (six kilolitres per poor household per month), energy (50 kilowatt-hours per month) and sanitation and refuse removal (based on service levels defined by national policy). The monthly amount provided for each service is detailed in Table W1.26 and includes an allocation of 10 per cent for service maintenance costs.

The formula uses the fairest estimates of the average costs of providing each service that could be derived from available information. More details of how the costs were estimated can be found in the discussion paper on the proposed structure of the new local government equitable share formula, available on the National Treasury website. The per-household allocation for each of the basic services in Table W1.26 is updated annually based on the following factors.

The electricity cost estimate is made up of bulk and other costs. Bulk costs are updated based on the bulk price determination approved by the National Energy Regulator of South Africa. In March 2019, the

regulator approved tariff increases of 9.4 per cent in 2019/20, 8.1 per cent in 2020/21 and 5.2 per cent in 2021/22. However, Eskom submitted an application to the court to increase the bulk tariffs. While the court has found merit in Eskom's case, it has ruled that the matter is not urgent. The court will only rule on the merits of the case after the 2020 Budget has been tabled. Due to uncertainty about the exact tariffs for the municipal financial years (which are different to those for national financial years) and the pending court decision, the equitable share formula continues to use the 8 per cent bulk tariff increase in 2020/21 and 2021/22 that was used when the baselines for these years were calculated in the 2018 and 2019 MTEF periods. The electricity cost estimate for 2022/23 is calculated using an electricity price bulk increase of 8.9 per cent, which is the average annual tariff increase for the National Energy Regulator of South Africa's multi-year price determination period of 1 April 2019 to 31 March 2022. Other (non-bulk) electricity costs are updated based on the National Treasury's inflation projections in the 2019 MTBPS.

The water cost estimate is also made up of bulk and other costs. Bulk costs are updated based on the average increase in bulk tariffs charged by water boards (although not all municipalities purchase bulk water from water boards, their price increases serve as a proxy for the cost increases for all municipalities). The average tariff increases for bulk water from water boards in 2019/20 was 10.4 per cent. Other costs are updated based on the National Treasury's inflation projections in the 2019 MTBPS.

The costs for sanitation and refuse removal are updated based on the National Treasury's inflation projections in the 2019 MTBPS.

The basic services component allocation to each municipality is calculated by multiplying the monthly subsidy per household by the updated number of households below the affordability threshold in each municipal area.

#### **The basic services component**

$$BS = \text{basic services subsidy} \times \text{number of poor households}$$

Funding for each basic service is allocated to the municipality (metro, district or local) that is authorised to provide that service. If another municipality provides a service on behalf of the authorised municipality, it must transfer funds to the provider in terms of section 29 of the Division of Revenue Act. The basic services component is worth R54.1 billion in 2020/21 and accounts for 79.5 per cent of the value of the local government equitable share formula allocation.

#### *The institutional component*

To provide basic services to households, municipalities need to be able to run a basic administration. Most municipalities should be able to fund the majority of their administration costs with their own revenue. But, because poor households are not able to contribute in full, the equitable share includes an institutional support component to help meet some of these costs. To ensure that this component supports municipalities with limited revenue-raising abilities, a revenue adjustment factor is applied so that municipalities with less potential to raise their own revenue receive a larger proportion of the allocation. The revenue adjustment factor is described in more detail later in this annexure.

In 2020/21, this component consists of a base allocation of R7.4 million, which goes to every municipality, and an additional amount that is based on the number of council seats in each municipality. This reflects the relative size of a municipality's administration and is not intended to fund the costs of councillors only (the Minister of Cooperative Governance and Traditional Affairs determines the number of seats recognised for the formula). The base allocation acknowledges that there are some fixed costs that all municipalities face.

### The institutional component

$$I = \text{base allocation} + [\text{allocation per councillor} \times \text{number of council seats}]$$

The institutional component accounts for 8.2 per cent of the equitable share formula and is worth R5.6 billion in 2020/21. This component is also complemented by special support for councillor remuneration in poor municipalities, which is not part of the equitable share formula.

### The community services component

This component funds services that benefit communities rather than individual households (which are provided for in the basic services component). It includes funding for municipal health services, fire services, municipal roads, cemeteries, planning, storm water management, street lighting and parks. To ensure this component assists municipalities with limited revenue-raising abilities, a revenue adjustment factor is applied so that these municipalities receive a larger proportion of the allocation.

The allocation for this component is split between district and local municipalities, which both provide community services. In 2020/21, the allocation to district and metropolitan municipalities for municipal health and other services is R10.39 per household per month. The component's remaining funds are allocated to local and metropolitan municipalities based on the number of households in each municipality.

### The community services component

$$CS = [\text{municipal health and related services allocation} \times \text{number of households}] + [\text{other services allocation} \times \text{number of households}]$$

The community services component accounts for 12.3 per cent of the equitable share formula and is worth R8.4 billion in 2020/21.

### The revenue adjustment factor

The Constitution gives local government substantial revenue-raising powers (particularly through property rates and surcharges on services). Municipalities are expected to fund most of their own administrative costs and cross-subsidise some services for indigent residents. Given the varied levels of poverty across South Africa, the formula does not expect all municipalities to be able to generate similar amounts of own revenue. A revenue adjustment factor is applied to the institutional and community services components of the formula to ensure that the funds assist municipalities that are least likely to be able to fund these functions from their own revenue.

To account for the varying fiscal capacities of municipalities, this component is based on a per capita index using the following factors from the 2011 Census:

- Total income of all individuals/households in a municipality (as a measure of economic activity and earning).
- Reported property values.
- Number of households on traditional land.
- Unemployment rate.
- Proportion of poor households as a percentage of the total number of households in the municipality.

Based on this index, municipalities were ranked according to their per capita revenue-raising potential. The top 10 per cent of municipalities have a revenue adjustment factor of zero, which means that they do not receive an allocation from the institutional and community services components. The 25 per cent of municipalities with the lowest scores have a revenue adjustment factor of 100 per cent, which means that they receive their full allocation from the institutional and community services components. Municipalities between the bottom 25 per cent and top 10 per cent have a revenue adjustment factor applied on a sliding scale, so that those with higher per capita revenue-raising potential receive a lower revenue adjustment factor and those with less potential have a larger revenue adjustment factor.

The revenue adjustment factor is not based on the actual revenues municipalities collect, which ensures that this component does not create a perverse incentive for municipalities to under-collect revenue to receive a higher equitable share.

Because district municipalities do not collect revenue from property rates, the revenue adjustment factor applied to these municipalities is based on the *RSC/JSB levies replacement grant* allocations. This grant replaces a source of own revenue previously collected by district municipalities and it is still treated as an own revenue source in many respects. Similar to the revenue adjustment factor for local and metropolitan municipalities, the factor applied to district municipalities is based on their per capita *RSC/JSB levies replacement grant* allocations. District municipalities are given revenue adjustment factors on a sliding scale – those with a higher per capita *RSC/JSB levies replacement grant* allocation receive a lower revenue adjustment factor, while those with lower allocations have a higher revenue adjustment factor.

#### *Correction and stabilisation factor*

Providing municipalities with predictable and stable equitable share allocations is one of the principles of the equitable share formula. Indicative allocations are published for the second and third years of the MTEF period to ensure predictability. To provide stability for municipal planning, while giving national government flexibility to account for overall budget constraints and amend the formula, municipalities are guaranteed to receive at least 90 per cent of the indicative allocation for the middle year of the MTEF period.

#### *Ensuring the formula balances*

The formula is structured so that all of the available funds are allocated. The basic services component is determined by the number of poor households per municipality and the estimated cost of free basic services, so it cannot be manipulated. This means that balancing the formula to the available resources must take place in the second part of the formula, which includes the institutional and community services components. The formula automatically determines the value of the allocation per council seat in the institutional component and the allocation per household for other services in the community services component to ensure that it balances. Increases in the cost of providing basic services can result in lower institutional and community services allocations.

#### *Details of new allocations*

In addition to the three-year formula allocations published in the Division of Revenue Bill, a copy of the formula, including the data used for each municipality and each component, is published online ([http://mfma.treasury.gov.za/Media\\_Releases/LGESDiscussions/Pages/default.aspx](http://mfma.treasury.gov.za/Media_Releases/LGESDiscussions/Pages/default.aspx)).

### **Other unconditional allocations**

#### *RSC/JSB levies replacement grant*

Before 2006, district municipalities raised levies on local businesses through a Regional Services Council (RSC) or Joint Services Board (JSB) levy. This source of revenue was replaced in 2006/07 with the *RSC/JSB levies replacement grant*, which was allocated to all district and metropolitan municipalities based on the amounts they had previously collected through the levies. The *RSC/JSB levies replacement grant* for metropolitan municipalities has since been replaced by the sharing of the general fuel levy. The *RSC/JSB levies replacement grant*'s value increases every year.

In 2020/21, the grant increases by 7.2 per cent for district municipalities authorised for water and sanitation and 2.4 per cent for unauthorised district municipalities. The different rates recognise the various service-delivery responsibilities of these district municipalities.

#### *Special support for councillor remuneration and ward committees*

Councillors' salaries are subsidised in poor municipalities. The total value of the support provided in 2020/21 is R969 million, calculated separately to the local government equitable share and in addition to the funding

for governance costs provided in the institutional component. The level of support for each municipality is allocated based on a system gazetted by the Minister of Cooperative Governance and Traditional Affairs, which classifies municipal councils into six grades based on their total income and population size. Special support is provided to the lowest three grades of municipal councils (the smallest and poorest municipalities).

The Minister of Cooperative Governance and Traditional Affairs last gazetted a notice on the determination of upper limits of salaries in December 2018. This is due to an ongoing review of wages which has resulted in a wage freeze for 2020/21. Using this last notice for maximum remuneration for part-time councillors, cost savings of R46 million are realised in 2020/21, with savings of R55 million carried through in 2021/22 and R63 million in 2022/23. A total of R164 million over the 2020 MTEF period is therefore shifted from support for councillor remuneration and ward committees to the local government equitable share formula.

A subsidy of 90 per cent of the gazetted maximum remuneration for a part-time councillor is provided for every councillor in grade 1 municipalities, 80 per cent for grade 2 municipalities and 70 per cent for grade 3 municipalities. In addition to this support for councillor remuneration, each local municipality in grades 1 to 3 receives an allocation to provide stipends of R500 per month to 10 members of each ward committee in their municipality. Each municipality's allocation for this special support is published in the Division of Revenue Bill appendices.

### **Conditional grants to local government**

National government allocates funds to local government through a variety of conditional grants. These grants fall into two main groups: infrastructure and capacity building. The total value of conditional grants directly transferred to local government increases from R43.8 billion in 2020/21 to R46.2 billion in 2021/22 and R48.1 billion in 2022/23.

There are four types of local government conditional grants:

- Schedule 4, part B sets out general grants that supplement various programmes partly funded by municipalities.
- Schedule 5, part B grants fund specific responsibilities and programmes implemented by municipalities.
- Schedule 6, part B grants provide in-kind allocations through which a national department implements projects in municipalities.
- Schedule 7, part B grants provide for the swift allocation and transfer of funds to a municipality to help it deal with a disaster or housing emergency.

### **Infrastructure conditional grants to local government**

National transfers for infrastructure, including indirect or in-kind allocations to entities executing specific projects in municipalities, amount to R155 billion over the 2020 MTEF period.

### *Municipal infrastructure grant*

The largest infrastructure transfer to municipalities is made through the *municipal infrastructure grant*, which supports government's aim to expand service delivery and alleviate poverty. The grant funds the provision of infrastructure for basic services, roads and social infrastructure for poor households in all non-metropolitan municipalities. The grant's baseline is reduced by R783 million in 2020/21, R842 million in 2021/22 and R882 million in 2022/23. The fiscal consolidation reductions to this grant are equivalent to 5 per cent of the grant's baseline in 2020/21, 5 per cent in 2021/22 and 5 per cent in 2022/23. These reductions do not include an amount of R166 million shifted to the *integrated urban development grant* over the 2020 MTEF period, following approval for Steve Tshwete Local Municipality to participate in the programme from 2020/21. In 2020/21, R150 million is reprioritised from this grant to the indirect *regional bulk infrastructure grant* for the Vaal River system intervention. The total allocations for this grant amount to R47.5 billion over the 2020 MTEF period and grow at an average annual rate of 4.3 per cent.

The *municipal infrastructure grant* is allocated through a formula with a vertical and horizontal division. The vertical division allocates resources between sectors and the horizontal division takes account of poverty, backlogs and municipal powers and functions in allocating funds to municipalities. The five main components of the formula are described in the box below.

**Municipal infrastructure grant = C + B + P + E + N**

- C** Constant to ensure a minimum allocation for small municipalities (this allocation is made to all municipalities)
- B** Basic residential infrastructure (proportional allocations for water supply and sanitation, roads and other services such as street lighting and solid waste removal)
- P** Public municipal service infrastructure (including sport infrastructure)
- E** Allocation for social institutions and micro-enterprise infrastructure
- N** Allocation to the 27 priority districts identified by government

Allocations for the water and sanitation sub-components of the basic services component are based on the proportion of the national backlog for that service in each municipality. Other components are based on the proportion of the country's poor households located in each municipality. The formula considers poor households without access to services that meet sector standards to be a backlog.

**Data used in the municipal infrastructure grant formula**

Component	Indicator used in the formula	Data used (all data is from the 2011 Census)
B	Number of water backlogs	Number of poor households <sup>1</sup> that do not have adequate access to water (adequate access defined as piped water either inside their dwelling, in the yard or within 200 metres of their dwelling)
	Number of sanitation backlogs	Number of poor households that do not have adequate access to sanitation (adequate access defined as having a flush toilet, chemical toilet, pit toilet with ventilation or ecological toilet)
	Number of roads backlogs	Number of poor households
	Number of other backlogs	Number of poor households that do not have access to refuse disposal at Reconstruction and Development Programme levels of service
P	Number of poor households	Number of poor households
E	Number of poor households	Number of poor households
N	Number of households in nodal areas	Allocated to the 27 priority districts identified by Cabinet as having large backlogs. Allocation is based on total households (not poor households)

1. Poor household defined as a monthly household income of less than R2 300 per month in 2011 Census data

Table W1.28 sets out the proportion of the grant accounted for by each component of the formula.

The constant component provides a R5 million base to all municipalities receiving *municipal infrastructure grant* allocations.

The *municipal infrastructure grant* includes an amount allocated outside of the grant formula and earmarked for specific sport infrastructure projects identified by the Department of Sports, Arts and Culture. These earmarked funds amount to R759 million over the MTEF period (R253 million in each year of the 2020 MTEF period). In addition, municipalities are required to spend a third of the P-component (equivalent to 4.5 per cent of the grant) on sport and recreation infrastructure identified in their own integrated development plans. Municipalities are also encouraged to increase their investment in other community infrastructure, including cemeteries, community centres, taxi ranks and marketplaces.

#### *Integrated urban development grant*

The *integrated urban development grant* is allocated to selected urban local municipalities in place of the *municipal infrastructure grant*. The grant recognises that municipalities differ in terms of their context and introduces a differentiated approach to encourage integrated development in cities. It is intended to:

- Support spatially aligned public infrastructure investment that will lead to functional and efficient urban spaces.
- Enable and incentivise municipalities to invest more non-grant funding in infrastructure projects in intermediate cities.

The grant extends some of the fiscal reforms already implemented in metropolitan municipalities to non-metropolitan cities and is administered by the Department of Cooperative Governance.

Municipalities must meet certain criteria and apply to receive the *integrated urban development grant* instead of the *municipal infrastructure grant* in terms of a process set out in section 27(5) of the Division of Revenue Act. The qualification criteria cover the following areas:

- Management stability (low vacancy rates among senior management).
- Audit findings.
- Unauthorised, irregular, fruitless and wasteful expenditure.
- Capital expenditure.
- Reporting in terms of the Municipal Finance Management Act.

To remain in the grant, cities must continue to meet or exceed the entry criteria. If they do not do so, they will be placed on a performance improvement plan. If they still do not meet the criteria in the subsequent year, they will shift back to receiving grant transfers through the *municipal infrastructure grant*, which comes with closer oversight and support from national and provincial departments. The base allocations a

municipality receives through the *municipal infrastructure grant* and the *integrated urban development grant* will be the same and are determined in terms of the *municipal infrastructure grant* formula described above.

In addition to the basic formula-based allocation, municipalities participating in the *integrated urban development grant* are also eligible to receive a performance-based incentive component, which is based on performance against the weighted indicators set out below.

<b>Performance-based component weighted indicators for integrated urban development grant</b>			
<b>Indicator</b>	<b>Purpose</b>	<b>Weight</b>	<b>Scores</b>
1. Non-grant capital as a percentage of total capital expenditure	Encourages cities to increase their capital investment funded through own revenue and borrowing	40%	1 if 70% or higher 0 if 30% or lower Linear scale in between
2. Repairs and maintenance expenditure as percentage of operating expenditure	Rewards cities that take good care of their existing asset base	30%	1 if 8% or higher
3. Asset management plan	Must have a plan in place, has been approved by municipal council and updated in the last three years	30%	1 if yes for all three 0 if no for any of the three
4. Land-use applications in priority areas 5. Building plan applications in priority areas	Due to the lack of available data, these indicators, which are intended to reward spatial targeting of investment, remain dormant in 2020/21	0%	1 if 50% or higher 0 if 10% or lower Linear scale in between

The allocations for the *integrated urban development grant* are R948 million in 2020/21, R1 billion in 2021/22 and R1.1 billion in 2022/23. These allocations include additions of R56 million in 2020/21, R52 million in 2021/22 and R57 million in 2022/23, following the addition of Steve Tshwete Local Municipality to the pool of municipalities participating in the grant. The allocations for 2020/21 include R15 million in funds ring-fenced for sports infrastructure projects. These funds were shifted from the *municipal infrastructure grant*. The fiscal consolidation reductions to this grant are equivalent to 5 per cent of the grant's baseline in 2020/21, 5 per cent in 2021/22 and 5 per cent in 2022/23.

### Urban settlements development grant

The *urban settlements development grant* is an integrated source of funding for infrastructure for municipal services and upgrades to urban informal settlements in the eight metropolitan municipalities. It is allocated as a supplementary grant to cities (schedule 4, part B of the Division of Revenue Act), which means that municipalities are expected to use a combination of grant funds and their own revenue to develop urban infrastructure and integrated human settlements. Cities report their progress on these projects against the targets set in their service-delivery and budget implementation plans. Since 2019/20, cities have been required to report in line with the requirements of the Municipal Finance Management Act Circular 88. This is the result of a process led by the National Treasury to rationalise and streamline built environment reporting for the eight metropolitan municipalities. Cities report on one agreed set of indicators used by multiple stakeholders to monitor progress on the integrated and functional outcomes, rather than reporting separately to each department. These reforms will progressively be extended to non-metropolitan municipalities over the medium term.

As discussed under the *human settlements development grant* in Part 4, a new component was introduced in 2019/20 for the upgrading of informal settlements. It sets a minimum amount each city must spend on informal settlement upgrades and requires cities to work in partnership with communities. The component has been extended for one more year, to 2020/21, and amounts to 20 per cent of the *urban settlements development grant*. The extension of this component serves as a planning and preparatory platform for a new *informal settlements upgrading partnership grant*, planned for 2021/22. Provided the component is a success, the new grant will be created through the reprioritisation of funds from the *urban settlements development grant*. Initial amounts of R3.9 billion in 2021/22 and R4.2 billion in 2022/23 have been set aside for this new grant in the outer years of the MTEF period. Further details on the new grant are discussed in Part 6.

The *urban settlements development grant*, including allocations for the new *informal settlements upgrading partnership grant*, is allocated R34.2 billion over the medium term. The allocation per municipality is based on the *municipal infrastructure grant* formula. Up to 3 per cent of the grant may be used to fund municipal capacity in the built environment in line with the Department of Human Settlements' capacity-building guideline. Because this grant has been previously reduced by a smaller proportion than the *municipal infrastructure grant*, the *urban settlements development grant* is reduced by R1.3 billion in 2020/21, R2 billion in 2021/22 and R2.7 billion in 2022/23 in order to fund other government priorities. The fiscal consolidation reductions to the *urban settlements development grant* are equivalent to 13.1 per cent of the grant's baseline in 2020/21, 21 per cent in 2021/22 and 25.8 per cent in 2022/23. Reductions to the *informal*

*settlement upgrading partnership grant* are equivalent to 10 per cent of the grant's baseline in 2021/22, and 9.9 per cent in 2022/23. In 2020/21 R150 million is reprioritised from the *urban settlements development grant* to the indirect *regional bulk infrastructure grant* for the Vaal River system intervention.

#### *Integrated city development grant*

The 2019 MTBPS announced that, subject to certain conditions, programme and project preparation funding would be provided to metros through the grant system. Following consultations with cities, including through the City Budget Forum and a workshop, it has been agreed that cities will be able to use at least half of their *integrated city development grant* allocations for programme and project preparation activities in 2020/21. The remaining allocations from this grant can be used to complete planned investments funded from the grant, so that the full grant amount can be allocated to programme and project preparation activities from 2021/22.

In order to be eligible to use these funds for project preparation costs, metros will need to:

- Submit a letter to the National Treasury indicating their commitment to establishing and institutionalising an effective system of programme and project preparation.
- Prove they have not had an adverse or disclaimed audit opinion in the last two financial years.
- Have formally adopted council resolutions on adopting the Cities Infrastructure Delivery and Management Systems guidelines, establishing a programme and project approval committee, and committing to co-financing contributions and budget management arrangements.

Total allocations over the 2020 MTEF period amount to R1 billion and grow at an average annual rate of 5.2 per cent. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

#### *Public transport network grant*

The *public transport network grant*, administered by the Department of Transport, helps cities create or improve public transport systems in line with the National Land Transport Act (2009) and the Public Transport Strategy. This includes all integrated public transport network infrastructure, such as bus rapid transit systems, conventional bus services, and pedestrian and cycling infrastructure. The grant also subsidises the operation of these services. It is allocated R20.4 billion over the medium term. The grant has been reduced by R1 billion in 2020/21, R1.6 billion in 2021/22 and R1.7 billion in 2022/23. These fiscal consolidation reductions to this grant are equivalent to 14 per cent of the grant's baseline in 2020/21, 18.8 per cent in 2021/22 and 19.5 per cent in 2022/23.

Of the 13 cities that have been receiving the grant, three have been in the planning phase since the introduction of the grant in the 2006 MTEF period. These three cities have been suspended from the grant for the 2020 MTEF period, but this should have a minimal impact on service delivery because the cities were not transporting any passengers through this grant. The suspended cities are Buffalo City, Mbombela and Msunduzi.

Despite support provided by the national Department of Transport, the cities of Cape Town, Johannesburg and eThekweni have not been able to scale up rollout to levels that justify their baseline allocations. As a result, the department proposed reductions to their allocations, based on performance and the ability of the cities to cover the shortfall from own revenue.

The allocations for this grant are determined through a formula, which determines 95 per cent of the allocations, and a performance-based incentive component introduced in 2019/20, which accounts for the remaining 5 per cent. The formula increases certainty about the extent of national funding that municipalities can expect when planning their public transport networks, and encourages cities to make more sustainable public transport investments.

To qualify for an allocation from the performance incentive, a city must have an operational municipal public transport system approved by the national Department of Transport and it must have spent more than 80 per cent of its grant allocation in the previous financial year. Incentive allocations are then calculated based on the coverage of costs from fares, passenger trips and the city's own financial commitment to the system. Cities must exceed the minimum threshold in at least one of these three indicators. The calculation of the performance incentive allocations for 2020/21 is set out in Table W1.30 below. The raw scores for the cities are weighted using the sum of the base and formula components to account for the size of the city.

**Table W1.30 Public transport network grant incentive**

In the formula for the grant, a base component accounts for 20 per cent of total allocations and is divided equally among all participating cities – this ensures that smaller cities in particular have a significant base allocation to run their transport system regardless of their size. The bulk of the formula (75 per cent) is allocated based on three demand-driven factors, which account for the number of people in a city, the number of public transport users in a city (the weighting of train commuters is reduced as trains are subsidised separately through the Passenger Rail Authority of South Africa) and the size of a city's economy.

Table W1.31 sets out how the final allocation for each municipality is determined, taking account of both the formula and incentive components.

1. Excludes additional funds for Cape Town allocated through the Budget Facility for Infrastructure

2. These three cities are suspended from the grant

Source: National Treasury

In addition to the formula and performance incentive, R4 billion is allocated through the *public transport network grant* over the medium term for the City of Cape Town's MyCiti public transport network, approved through the Budget Facility for Infrastructure. The facility seeks to support quality public investments through robust project appraisal, effective project development and execution, and sustainable financing arrangements. The process includes engaging with relevant stakeholders, the National Treasury and the Presidential Infrastructure Coordinating Commission. This additional amount will fund a new public transport corridor for the MyCiti network, linking the underserved areas of Khayelitsha and Mitchells Plain to the city centre.

#### *Neighbourhood development partnership grant*

The *neighbourhood development partnership grant* supports municipalities in developing and implementing urban network plans. The grant funds the upgrading of identified precincts in order to stimulate third-party public and private investment. In metropolitan municipalities, the focus is on upgrading urban hubs in townships. The National Treasury, in collaboration with other stakeholders, including the Department of Agriculture, Rural Development and Land Reform and the Department of Cooperative Governance, has identified a cohort of non-metropolitan municipalities to implement new projects as part of this grant. The National Treasury will be partnering with these municipalities to identify, plan and implement infrastructure upgrades in targeted urban hub precincts. The allocations for this grant in the 2020 MTEF period amount to R2 billion, made up of R1.7 billion for the direct capital component and R263 million for the indirect technical assistance component. An amount of R160 million, consisting of R30 million in 2020/21, R60 million in 2021/22 and R70 million in 2022/23, has been shifted from the direct component to the indirect component. The fiscal consolidation reductions to this grant are equivalent to 10 per cent of the grant's baseline in 2020/21, 11 per cent in 2021/22 and 10.9 per cent in 2022/23.

#### *Water services infrastructure grant*

This grant, administered by the Department of Water and Sanitation, aims to accelerate the delivery of clean water and sanitation facilities to communities that do not have access to basic water services. It provides

funding for various projects, including the construction of new infrastructure and the refurbishment and extension of existing water schemes. It has both direct and indirect components. In areas where municipalities have the capacity to implement projects themselves, funds are transferred through a direct grant. In other areas, the Department of Water and Sanitation implements projects on behalf of municipalities through an indirect grant.

The direct component of this grant is reduced by R426 million in 2020/21, R541 million in 2021/22 and R698 million in 2022/23. Although these reductions mean that the implementation of some projects will be delayed, they will not negatively impact water augmentation projects in drought-affected municipalities. This component of the grant has a total allocation of R10.8 billion over the 2020 MTEF period. The fiscal consolidation reductions to this grant are equivalent to 11 per cent of the grant's baseline in 2020/21, 13 per cent in 2021/22 and 15.9 per cent in 2022/23.

The indirect component of this grant is reduced by R100 million in 2020/21, with a total allocation of R2.1 billion over the medium term. Of this amount, R106 million is allocated to municipalities in the Free State and Northern Cape to complete outstanding bucket eradication projects and R181 million is allocated for drought relief projects.

#### *Regional bulk infrastructure grant*

This grant supplements the financing of the social component of regional bulk water and sanitation infrastructure. It targets projects that cut across several municipalities or large bulk projects within one municipality. The grant funds the bulk infrastructure needed to provide reticulated water and sanitation services to individual households. It may also be used to appoint service providers to carry out feasibility studies, related planning or management studies for infrastructure projects. It has both direct and indirect components. In areas where municipalities have the capacity to implement projects themselves, funds are transferred through a direct grant. In other areas, the Department of Water and Sanitation implements projects on behalf of municipalities through an indirect grant. A parallel programme, funded by the Department of Water and Sanitation, also funds water boards for the construction of bulk infrastructure. Though not part of the division of revenue, these projects still form part of the Department of Water and Sanitation's larger programme of subsidising the construction of regional bulk infrastructure for water and sanitation.

The direct component of this grant is reduced by R174 million in 2020/21, R187 million in 2021/22 and R196 million in 2022/23. An amount of R650 million is added to the indirect component of this grant to accelerate the implementation of repairs to the sewerage system in Emfuleni Local Municipality, which is currently spilling raw sewage into the Vaal River, and a further R100 million is reprioritised within the grant for the Vaal River intervention. This component also includes R241 million for the completion of bucket eradication projects. The fiscal consolidation reductions for this grant are equivalent to 8 per cent of the grant's baseline in 2020/21, 8 per cent in 2021/22 and 7.9 per cent in 2022/23.

The grant has a total allocation of R17 billion over the medium term, consisting of R6.4 billion and R10.6 billion for the direct and indirect components respectively.

#### *Integrated national electrification programme grants*

These grants aim to provide capital subsidies to municipalities to provide electricity to poor households and fund bulk infrastructure to ensure a constant supply of electricity. Allocations are based on the backlog of households without electricity and administered by the Department of Mineral Resources and Energy. The grant only funds bulk infrastructure that serves poor households. The national electrification programme has helped provide 91 per cent of all poor households with access to electricity, as reported in the 2016 Community Survey (up from the 85 per cent reported in the 2011 Census). To sustain this progress, government will spend R15.7 billion on the programme over the next three years.

The *integrated national electrification programme (municipal) grant* is reduced by R119 million in 2020/21, R128 million in 2021/22 and R134 million in 2022/23. It has a total allocation of R6 billion over the medium

term and grows at an average annual rate of 4.4 per cent. The fiscal consolidation reductions to this grant are equivalent to 6 per cent of the grant's baseline in 2020/21, 6 per cent in 2021/22 and 5.9 per cent in 2022/23.

The *integrated national electrification programme (Eskom) grant* is allocated R9.7 billion over the medium term and grows at an average annual rate of 5.7 per cent. It is reduced by R61 million in 2020/21, R826 million in 2021/22 and R279 million in 2022/23 to fund other government priorities. The reductions to this grant are equivalent to 2 per cent of the grant's baseline in 2020/21, 21.6 per cent in 2021/22 and 7 per cent in 2022/23.

### ***Energy efficiency and demand-side management grant***

The *energy efficiency and demand-side management grant* funds selected municipalities to implement projects with a focus on public lighting and energy-efficient municipal infrastructure. The grant continues to make provision for municipalities to use funding from the *energy efficiency and demand-side management grant* for planning and preparing for the Energy Efficiency in Public Infrastructure and Building Programme. The programme aims to create a market for private companies to invest in the large-scale retrofitting of municipal infrastructure, and then be paid back through the savings on energy costs achieved. This has the potential to unlock energy and cost savings on a much larger scale. Municipalities can use 15 per cent of their *energy efficiency and demand-side management grant* funding to develop a project pipeline and thereby strengthen the market for energy companies that offer this service. This scaling up of energy-efficiency retrofits is a key part of meeting the goals in the National Climate Change Response Strategy and the United Nations Framework Convention on Climate Change.

This approach will also allow municipalities to benefit from donor financing. A Guarantee Fund from the Nationally Appropriated Mitigation Action Facility has been jointly established with funding from the German and United Kingdom governments to help private energy service companies obtain loans to implement the Energy Efficiency in Public Infrastructure and Building Programme. The programme will have significant long-term effects on energy savings, carbon emissions and the market for energy-efficient technologies. The grant is allocated R691 million over the medium term. The fiscal consolidation reductions to this grant are equivalent to 9 per cent of the grant's baseline in 2020/21, 9 per cent in 2021/22 and 8.9 per cent in 2022/23.

### ***Rural roads asset management systems grant***

The Department of Transport administers the *rural roads asset management systems grant* to improve rural road infrastructure. The grant funds the collection of data on the condition and usage of rural roads in line with the Road Infrastructure Strategic Framework for South Africa. This information guides investments to maintain and improve these roads. District municipalities collect data on all the municipal roads in their area, ensuring that infrastructure spending (from the *municipal infrastructure grant* and elsewhere) can be properly planned to maximise impact. As data becomes available, incentives will be introduced to ensure that municipalities use this information to plan road maintenance appropriately. The *municipal infrastructure grant* stipulates that municipalities must use data from roads asset management systems to prioritise investment in roads projects.

The Department of Transport will continue to work with the *municipal infrastructure grant* administrators to ensure that municipal roads projects are chosen, prioritised and approved using roads asset management systems data wherever possible. This grant is reduced by R12 million in 2020/21, R13 million in 2021/22 and R13 million in 2022/23 to fund other government priorities. The grant is allocated R108 million in 2020/21, R114 million in 2021/22 and R121 million in 2022/23. The fiscal consolidation reductions to this grant are equivalent to 10 per cent of the grant's baseline in 2020/21, 10 per cent in 2021/22 and 9.9 per cent in 2022/23.

### **Capacity-building grants and other current transfers**

Capacity-building grants help to develop municipalities' management, planning, technical, budgeting and financial management skills. Other current transfers include the *EPWP integrated grant for municipalities*,

which promotes increased labour intensity in municipalities, and the *municipal disaster relief grant*. A total of R6.6 billion is allocated to capacity-building grants and other current transfers to local government over the medium term.

#### *Local government financial management grant*

The *local government financial management grant*, managed by the National Treasury, funds the placement of financial management interns in municipalities and the modernisation of financial management systems. This includes building in-house municipal capacity to implement multi-year budgeting, linking integrated development plans to budgets, and producing quality and timely in-year and annual reports. The grant supports municipalities in the implementation of the Municipal Finance Management Act and provides funds for the implementation of the municipal standard chart of accounts.

This grant is reduced by R17 million in 2020/21, R18 million in 2021/22 and R19 million in 2022/23 to fund other government priorities. Total allocations amount to R1.7 billion over the MTEF period and grow at an average annual rate of 3.8 per cent. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

#### *Infrastructure skills development grant*

The *infrastructure skills development grant* develops capacity within municipalities by creating a sustainable pool of young professionals with technical skills in areas such as water, electricity and town planning. The grant places interns in municipalities so they can complete the requirements of the relevant statutory council within their respective built environment fields. The interns can be hired by any municipality at the end of their internship.

This grant is reduced by R5 million in each year of the 2020 MTEF period. The grant's total allocations amount to R482 million over the 2020 MTEF period and grow at an average annual rate of 3.9 per cent. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

#### *Municipal systems improvement grant*

The *municipal systems improvement grant* funds a range of projects in municipalities in support of the Back to Basics strategy, including helping municipalities set up adequate record management systems, drawing up organograms for municipalities and reviewing their appropriateness relative to their assigned functions, implementing the Integrated Urban Development Framework, and assisting municipalities with revenue collection plans and the implementation of the municipal standard chart of accounts. The Department of

Cooperative Governance implements the indirect grant. The grant's total allocations amount to R404 million over the 2020 MTEF period and grow at an average annual rate of 8.1 per cent.

#### *EPWP integrated grant for municipalities*

This grant promotes the use of labour-intensive methods in delivering municipal infrastructure and services. To determine eligibility for funding, municipalities must have reported performance on the EPWP, including performance in the infrastructure, social and environment and culture sectors and on the full-time equivalent jobs created in these sectors in the last 18 months. A formula then determines allocations on the basis of this performance as well as the labour intensity of the work opportunities created. The number of bands in which labour intensity are recorded in the formula have been expanded from seven to eight, providing an incentive for labour-intensive projects to further increase their intensity. The formula is weighted to give larger allocations to rural municipalities. The grant's baseline is reduced by R23 million in 2020/21, R24 million in 2021/22 and R26 million in 2022/23. The impact of these reductions will be spread across municipalities in line with the grant's formula. The grant is allocated R2.4 billion over the MTEF period and grows at an average annual rate of 3.9 per cent. The fiscal consolidation reductions to this grant are equivalent to 3 per cent of the grant's baseline in 2020/21, 3 per cent in 2021/22 and 3 per cent in 2022/23.

#### *Municipal disaster relief grant*

The *municipal disaster relief grant* is administered by the National Disaster Management Centre in the Department of Cooperative Governance as an unallocated grant to local government. The centre is able to disburse disaster-response funds immediately, without the need for the transfers to be gazetted first. The grant supplements the resources local government would have already used in responding to disasters. To ensure that sufficient funds are available in the event of disasters, section 21 of the Division of Revenue Bill allows for funds allocated to the *provincial disaster relief grant* to be transferred to municipalities if funds in the municipal grant have already been exhausted, and vice versa. The bill also allows for more than one transfer to be made to areas affected by disasters, so that initial emergency aid can be provided before a full assessment of damages and costs is conducted. Over the MTEF period, R1.1 billion is available for disbursement through this grant. To ensure that sufficient funds are available for disaster relief, clause 20(6) of the Division of Revenue Bill allows funds from other conditional grants to be reallocated for this purpose, subject to the National Treasury's approval.

#### *Municipal emergency housing grant*

The *municipal emergency housing grant* is intended to enable the Department of Human Settlements to rapidly respond to emergencies by providing temporary housing and repairs in line with the Emergency Housing Programme. The grant is limited to funding emergency housing and repairs following the immediate aftermath of a disaster, and not the other emergency situations listed in the programme. Over the MTEF period, R502 million is available for disbursement through this grant.

## **Part 6: Future work on provincial and municipal fiscal frameworks**

The fiscal frameworks for provincial and local government encompass all their revenue sources and expenditure responsibilities. As underlying social and economic trends evolve and the assignment of intergovernmental functions change, so must the fiscal frameworks. The National Treasury, together with relevant stakeholders, conducts reviews to ensure that provinces and municipalities have an appropriate balance of available revenues and expenditure responsibilities, while taking account of the resources available and the principles of predictability and stability.

This part of the annexure describes the main areas of work to be undertaken during 2020/21 as part of the ongoing review and refinement of the intergovernmental fiscal framework. Provinces and municipalities will be consulted on all proposed changes.

### **Review of the provincial equitable share formula**

The Constitution stipulates that provinces are entitled to a share of nationally raised revenue to deliver on their mandates. Provincial funds are allocated using a formula that considers the spread of the burden of service delivery across provinces. The provincial equitable share formula contains weighted elements that reflect government priorities and incorporates elements to redress inequality and poverty across provinces.

The periodic review of the formula to assess its continued appropriateness and equity continues in 2020. During the year, the review will focus on:

- Refining options for a revised poverty component in the formula.
- Developing options for how the formula can account for costs associated with being in a rural location.
- Working with the Department of Health to revise and update the risk-adjusted factor as part of a broader overhaul of the health component.
- Working with the Department of Basic Education to develop options for how to account for the different funding needs of different types of schools and learners.

The formula is being reviewed by a provincial equitable share task team made up of representatives from the National Treasury and provincial treasuries. The task team partners with sector departments, Statistics South Africa and the FFC on different components of the review. The task team reports to the Technical Committee on Finance, and the Budget Council considers and approves any proposed changes to the formula.

### **Preparing for national health insurance implementation**

South Africa aims to make significant strides towards universal health coverage through the progressive implementation of national health insurance, as outlined in the National Health Insurance White Paper, which government adopted in 2017, and the National Health Insurance Bill, which was tabled in 2019 and is currently being considered in Parliament. Establishing the National Health Insurance Fund is likely to have significant implications for provincial finances, which are being discussed through consultative structures like the Technical Committee on Finance. In parallel, efforts to strengthen the health system in preparation for national health insurance will continue, including developing and piloting provider payment mechanisms, expanding the national insurance beneficiary registry, and purchasing and providing a prioritised set of health services. Government is also piloting a new quality improvement activity within the non-personal services component of the *NHI indirect grant* that will help facilities meet the envisaged standards required for NHI accreditation. The experience gained from this pilot will inform future efforts to improve quality. Two grants related to capacity development in the health sector have been merged in 2020/21, and the National Treasury and the Department of Health will work together during 2020 to develop a strategy for further reforms to the structure of all the health conditional grants to ensure that they are aligned to support NHI implementation.

### **Shift of nursing and agricultural colleges to national government**

For nursing colleges and agricultural colleges to be accredited as higher education colleges in terms of the Higher Education Act (1997), the function for administering these colleges needs to move from provinces to national government. The Department of Higher Education and Training is coordinating with the departments of Health and Agriculture, Land Reform and Rural Development, as well as their provincial counterparts to prepare for this proposed function shift. The National Treasury will work with provincial treasuries and the FFC to assess the financial impacts of the proposed shift.

### **The role of provinces in promoting economic development**

All three spheres of government must work with businesses and other relevant stakeholders to provide an enabling environment for faster and more inclusive economic growth. An Economic Development Coordination Forum has been established to improve the coordination of economic development initiatives between provincial and national governments. This forum is chaired jointly by the National Treasury and the Department of Trade, Industry and Competition, and includes participants from provincial treasuries and

sector departments, as well as the Department of Small Business Development, the Department of Cooperative Governance and SALGA. This year, the forum will establish work streams to examine data for economic development, policy and alignment issues, and township economic development (including industrial parks).

### **Improving intergovernmental coordination on infrastructure investment**

Public infrastructure investments can play a major role in transforming South Africa's spatial development patterns. This requires a significant improvement in intergovernmental coordination in planning and budgeting for infrastructure. The National Treasury is working with provinces to ensure that their investments in schools, roads, health facilities and housing are made in locations that align with the spatial development plans of municipalities. Municipalities must be consulted and agree on the location and bulk services requirements of all provincial infrastructure projects. Progress has been made in holding joint planning sessions between provinces and municipalities, and support in this area will continue in 2020. National departments will also be supported to participate in intergovernmental planning and to review sector policies and funding strategies to promote better alignment with spatial development frameworks.

The National Treasury will review provincial infrastructure sector funding policies and propose how grants, incentives and other funding sources can best be structured to strengthen funding coordination to achieve spatial development objectives.

### **Disaster funding**

The National Treasury will work with the National Disaster Management Centre to review the funding of disaster response and recovery activities. Climate change will make extreme weather events more common, and the disaster funding system needs to adapt to this new reality. The current system is designed to allow for the rapid release of funds immediately following the declaration of a disaster, and to fund the repair or reconstruction of infrastructure after an event. While there are problems and inefficiencies within the existing system that need to be addressed through this review, it must also consider how to place greater emphasis on being prepared before disasters occur. The system also needs to be adapted to respond better to long-running disasters such as drought conditions that may last for several years.

### **New informal settlements upgrading grants for provinces and municipalities**

Informal settlement upgrades are a priority over the medium term. This is an inclusive process through which informal residential areas are incrementally improved, formalised and incorporated into the city or neighbourhood by extending land tenure security, infrastructure and services to residents of informal settlements.

Following the introduction of dedicated components to fund informal settlement upgrades in the provincial *human settlements development grant* and the municipal *urban settlements development grant* in 2019/20, the Department of Human Settlements is leading the design of two new informal settlements upgrading grants for provinces and municipalities, which will be introduced in the 2021 MTEF period. These separate grants were intended to be introduced in 2020/21, but additional time is needed for provinces and municipalities to complete their informal settlements upgrading strategies. These strategies will guide how spending on the new grant will be prioritised. Having an additional year will allow the design of the new grants to draw on the lessons learnt from a full year of implementing the components within the existing grants. The design of the new grants will include consultations with provinces, municipalities, community organisations and other interested stakeholders. These consultations will also address the respective roles of provinces and municipalities in upgrading informal settlements.

## Review of the local government fiscal framework

### *Budget Forum lekgotla*

The local government fiscal framework refers to all of the revenue sources that are available to local government and all the expenditure responsibilities that they have. A well-designed fiscal framework allows each municipality to balance its revenue sources against its expenditure responsibilities. Many stakeholders have expressed concern that elements of the current local government fiscal framework make it difficult for municipalities to balance their revenues with their expenditure responsibilities. The Minister of Finance has therefore proposed that the Budget Forum hold a special lekgotla in 2020 to review the structure of the framework and to agree on which issues in local government are attributable to the structure of the fiscal framework and which are related to other factors such as problems in governance, intergovernmental relations and the assignment of functions between spheres. This will help to resolve contentious issues and build consensus.

The Budget Forum is chaired by the Minister of Finance and includes Members of the Executive Council (MEC) responsible for finance in each province and SALGA. In order to facilitate improved cooperation across sectors, the Minister and MECs responsible for cooperative governance are also invited to participate in meetings of the Budget Forum. The Chairs of Parliament's Standing and Select Committee on Appropriations and Finance and as well as representatives of the FFC are invited to attend.

Items for the lekgotla will be prepared in a collaborative process that includes inputs from officials from all of the participating organisations. The outcomes are expected to inform a reform agenda for the local government fiscal framework over the next five years that will complement the ongoing reforms discussed below.

### *Refinements to the local government equitable share formula*

Government continues to work with stakeholders to improve the local government equitable share formula. Areas of work in the period ahead include:

- Improving the responsiveness of the formula to the different functions assigned to district and local municipalities. This work depends on the availability of credible official records of the functions assigned to each sphere of government. Policy and administrative work under way in the National Disaster Management Centre could help improve the targeting of funding for fire services.
- Reviewing and updating how the special support for councillor remuneration is calculated. This support is calculated separately from the rest of the equitable share formula, but transferred with equitable share allocations. Support is only provided to small and poor municipalities and the data used for determining eligibility needs to be updated.
- Working with Statistics South Africa to explore how new population estimates at municipal level can be incorporated into the formula updates.

### *Review of local government infrastructure grants*

As part of the ongoing review of local government infrastructure grants, the National Treasury, the Department of Cooperative Governance, Department of Planning, Monitoring and Evaluation, SALGA and the FFC will work closely to implement the reform agenda agreed to through the review, including:

- Improving the administration of conditional grants by national departments.
- Further consolidating conditional grants.
- Increasing differentiation in the grant system, so that grants are well aligned to the different circumstances found across the country's 257 municipalities.
- Reviewing grant formulas to ensure that allocations are equitable across the different types of municipalities that receive allocations from differentiated grants, such as the *urban settlements*

*development grant* (for metros), the *integrated urban development grant* (for intermediate cities) and the *municipal infrastructure grant*.

- Identifying ways to incorporate incentives for improved asset management into the grant system.

### *Review of the municipal capacity support system*

Government is reviewing the system of capacity support provided to municipalities. It invests public funds of more than R3 billion in capacity support for municipalities every year through a broad range of grants and programmes. These various forms of capacity development and support tend to be planned and managed separately from one another. The National Treasury is managing the review, with the aim of identifying ways to improve the impact of this spending. Preliminary results may inform initial changes to the capacity-building system in the 2021 Budget.

### **Reforms to local government own revenue sources**

Municipalities play a critical role in boosting economic growth and providing an enabling environment for job creation by providing well-maintained and functioning infrastructure services. However, municipalities are finding it increasingly difficult to build the infrastructure required for growth and meet the demands of rapid urbanisation. The National Treasury continues to explore how cities and other municipalities with a significant own revenue base can use a broader package of infrastructure financing sources to meet their developmental mandate. The National Treasury is implementing the reforms discussed below.

#### *Development charges*

Despite their potential as an alternative option for financing infrastructure, municipalities have not fully used development charges due to uncertainty surrounding the regulatory frameworks. These once-off charges are imposed by a municipality on a land owner applying for land development approval. The charges are based on the concept that urban growth and expanded land use creates the need for additional infrastructure services, so the developer should pay the incidence costs. To deal with the regulatory framework's challenges, the National Treasury is amending the Municipal Fiscal Powers and Functions Act to incorporate the regulation of development charges. The draft amendment bill has been submitted to Cabinet and was published for public comment in January 2020. The due date for submitting comments is 31 March 2020. Parallel to the public participation process, the National Treasury intends to undertake provincial and national workshops to provide clarity on the technical provisions of the draft bill. The draft legislation can be accessed on the National Treasury website: [http://www.treasury.gov.za/legislation/draft\\_bills](http://www.treasury.gov.za/legislation/draft_bills).

#### *Municipal borrowing*

The 2017 update to the Policy Framework for Municipal Borrowing and Financial Emergencies will be submitted to Cabinet shortly.

The updates aim to address the limitations of the original policy framework of 2000 and to respond to the changing needs and conditions in the municipal borrowing market by permitting the use of innovative infrastructure financing mechanisms. The updated policy framework makes specific recommendations on the role of development finance institutions in financing creditworthy municipalities. It proposes that these institutions should play a developmental, complementary and supportive role to transactions rather than competing directly with private financiers. It also suggests that development finance institutions should establish clear and measurable development impact indicators for their municipal operations in general, and for specific transactions. Each institution must, well in advance of any proposed lending to a municipality, obtain written agreement from the National Treasury that specifically outlines the development objectives and indicators of the loan, before entering into any transaction.

The National Treasury continues to publish the Municipal Borrowing Bulletin on a quarterly basis. Copies can be obtained from [www.mfma.treasury.gov.za](http://www.mfma.treasury.gov.za).

## **Annexure W2: Frameworks for Conditional Grants to Provinces**

### **Detailed frameworks on Schedule 4, Part A; Schedule 5, Part A; Schedule 6, Part A; and Schedule 7, Part A grants to provinces**

#### **Introduction**

This annexure provides a brief description of the framework for the grants set out in Schedule 4, Part A; Schedule 5, Part A; Schedule 6, Part A; and Schedule 7, Part A of the 2020 Division of Revenue Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority(ties) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between provinces
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2020 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving provincial departments
- Process for approval of business plans for 2021/22

The attached frameworks are not part of the Division of Revenue Bill, but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the Division of Revenue Bill, 2020 is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2020/21 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

### Learners with Profound Intellectual Disabilities Grant

- Learners with severe, mild and moderate intellectual disabilities and with specific learning difficulties enrolled in special care centres should be assessed for placement in schools
  - Schools that have enrolled learners from special care centres should be supported through training and provision of necessary human and material resources to ensure continuous support for referred learners
  - A nationally approved learning programme for learners with profound intellectual disabilities should be offered at special care centres and targeted schools
  - Skills programmes for over age learners with severe intellectual disabilities who are enrolled in care centres and cannot be placed in special care centres should be offered at special care centres
  - Allocations must consider the number of learners, special care centres and schools with learners with profound intellectual disabilities to ensure equitable funding
  - The grant will support a total of 518 special care centres and 115 targeted schools across all provinces
  - The allocation of funds per provincial education department (PED) should be divided as follows:
    - 5 per cent for training of teachers, therapists, officials, caregivers and outreach teams
    - 18 per cent for learning and teaching support materials, classroom furniture and equipment for special care centres and designated schools for the benefit of learners with severe to profound intellectual disabilities
    - 65 per cent for compensation of transversal itinerant outreach team members and provincial grant managers
    - 12 per cent for administration including travel, vehicles, accommodation and subsistence
    - Provinces may deviate from the prescribed allocations only after having complied with the conditions of the framework and obtained the relevant approval from the transferring officer. The request for deviations must be submitted to the transferring officer not later than 20 November 2020
- Business planning process**
- The transferring and receiving departments must appoint or identify qualified and experienced person/s to administer, manage and coordinate the activities of the grant in accordance with the provisions of the framework and business plan
  - The receiving department must appoint outreach teams, as part of district-based support team, made up of one senior education specialist (learning support - post level 3), one chief education occupational therapist, one chief education speech therapist, one chief education physiotherapist and an educational psychologist
  - Outreach teams must be appointed and compensated in accordance with post levels as agreed upon with the national Department of Basic Education (DBE)
  - Outreach team members must be appointed as part of the district-based support team and be based at the district, circuit or school level, in order to ensure integration of the services they provide into district plans and efficiency, when they facilitate and support the implementation of the learning programme and provide psycho-social and other therapeutic support to learners enrolled in special care centres and targeted schools
  - Where in-service therapists are not available, outreach team members should provide therapeutic support to learners
  - Facilitating and supporting the implementation of the learning programme, shall include:
    - conducting assessment of children in enrolled special care centres and targeted schools (where there are no in-service therapists) to determine their intellectual functioning and level of support needed
    - supporting the implementation of lesson plans and baseline assessments in targeted special care centres
    - facilitating the development of learners Individual Support Plans, their implementation and monitoring in special care centres
    - facilitating the use of the learning programme by learners with profound intellectual disabilities in special care centres
    - facilitating and supporting the assessment of performance of learners using the learning programme for learners with severe to profound intellectual disabilities in special care centres
    - facilitating and supporting the preparation and submission of mark schedules and report cards of learners using the learning programme in special care centres
    - supporting teachers in targeted schools, that do not have access to in-service therapists, on the implementation of the learning programme, and the recording and reporting of learner performance
    - facilitating and supporting skills development for learners with severe intellectual disabilities who are awaiting placement in schools and those who because of age cannot be placed in schools
    - assessment of learners in special care centres and facilitating their placement in schools
    - providing therapeutic and psycho-social support to children/learners in special care centres and targeted schools that do not have access to therapists and their families
    - training of caregivers, teachers, in-service therapists, officials on the learning programme and other programmes that directly support the implementation of the learning programme
    - effective managing of information pertaining to services provided and using this information for planning and reporting
  - The transferring department must train outreach team members on the implementation of the learning programme and other programmes that enhance accountability in the implementation of the learning programme and provision of outreach services to targeted special care centres and schools
  - The receiving departments, using outreach team members and other officials, must train caregivers, teachers, in-service therapists and officials on the learning programme for learners with profound intellectual disabilities (LPID), and other programmes that directly enhance accountability in the implementation of the learning programme and provision of outreach services to targeted special care centres and schools
  - Provinces may contract specialist training providers to offer training that cannot be facilitated by outreach team members to directly enhance the implementation of the Learning Programme for LPID
  - The receiving departments must procure learning and teaching support materials and classroom furniture and equipment and assistive devices as per the minimum specifications defined by DBE in line with the

## **Annexure W3: Frameworks for Conditional Grants to Municipalities**

### **Detailed frameworks on Schedule 4, Part B; Schedule 5, Part B; Schedule 6, Part B; and Schedule 7, Part B grants to municipalities**

#### **Introduction**

This annexure provides a brief description for each grant in Schedule 4, Part B; Schedule 5, Part B; Schedule 6, Part B; and Schedule 7, Part B of the 2020 Division of Revenue Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority(ties) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2020 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving municipalities
- Process for approval of business plans for 2021/22

The attached frameworks are not part of the Division of Revenue Bill, but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the Division of Revenue Bill, 2020 is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2020/21 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

<b>Grant schedule</b>	<ul style="list-style-type: none"> <li>• Schedule 5, Part B</li> </ul>
<b>Strategic goal</b>	<ul style="list-style-type: none"> <li>• To support the National Land Transport Act (Act No. 5 of 2009) and Public Transport Strategy (PTS) and Action Plan in promoting the provision of accessible, reliable and affordable integrated municipal public transport network services</li> </ul>
<b>Grant purpose</b>	<ul style="list-style-type: none"> <li>• To provide funding for accelerated construction and improvement of public and non-motorised transport infrastructure that form part of a municipal integrated public transport network (IPTN) and to support the planning, regulation, control, management and operations of fiscally and financially sustainable municipal public transport network services</li> </ul>
<b>Outcome statements</b>	<ul style="list-style-type: none"> <li>• Improved public transport network infrastructure and services that function optimally and are safe, convenient, affordable, well managed and maintained</li> <li>• Public transport systems that are accessible to an increasing percentage of the population of urban municipalities and contribute to more spatially efficient urban areas</li> </ul>
<b>Outputs</b>	<p><b>Network Operations Component</b></p> <ul style="list-style-type: none"> <li>• Number of average weekday passenger trips carried on Public Transport Network Grant (PTNG) funded networks</li> <li>• Number and percentage of municipal households within a 500m walk to an integrated public transport network (IPTN) station or stop that has a minimum peak period frequency of 15 minutes or better</li> <li>• Percentage uptime for network operating systems as a proportion of the network's public operating hours</li> <li>• Passengers per network vehicle per average weekday</li> </ul> <p><b>Network Infrastructure Component</b></p> <ul style="list-style-type: none"> <li>• Public transport network infrastructure including dedicated lanes, routes and stops/shelters, stations, depots, signage and information displays, control centres and related information technology, fare systems and vehicles (if the national Department of Transport (DoT) in consultation with National Treasury approves use of grant funds to purchase vehicles), non-motorised transport (NMT) infrastructure that supports network integration (e.g. sidewalks, cycleways, cycle storage at stations, etc.)</li> <li>• Plans and detailed design related to IPTN infrastructure and operations</li> </ul>
<b>Priority of government that this grant primarily contributes to</b>	<ul style="list-style-type: none"> <li>• Priority 4: Spatial integration, human settlements and local government</li> </ul>
<b>Details contained in the business plan</b>	<ul style="list-style-type: none"> <li>• This grant uses IPTN operational and related plans that include financial modelling</li> </ul>
<b>Conditions</b>	<ul style="list-style-type: none"> <li>• Projects must be based on, and form part of, a strategic, municipal wide, long-term IPTN plan and strategy approved by the municipal council</li> <li>• Projects funded by this grant must be based on an operational and business plan, which must include a multi-year financial operational plan approved by the municipal council. This multi-year financial operational plan must cover the full duration of any contracts for each phase funded by the PTNG and include operating and maintenance costs and universal design access plans</li> <li>• Projects must support an integrated multi-modal network approach as defined in the National Land Transport Act (NLTA) and the Public Transport Strategy and municipalities must manage operations to progressively achieve the standard of service defined in the Public Transport Strategy within available resources</li> <li>• Projects in metropolitan municipalities must demonstrate alignment to Built Environment Performance Plans (BEPPs)</li> <li>• Projects should follow an environmental strategy and consider energy efficiency and environmental aspects, such as emission standards; mandatory specifications regarding average fleet emissions should be considered</li> <li>• The first tranche is subject to submission of milestones in terms of the template determined by DoT by 29 May 2020 or within seven working days upon adoption/approval by municipal council, as part of the annual budget appropriation</li> <li>• Subsequent payments will be conditional on the attainment of previously funded milestones as specified in the grant allocation letter to each municipality from the DoT. Milestones are based on the approved IPTN operational plans of cities and are defined after consultation with municipalities</li> <li>• All public transport infrastructure and services funded through this grant must ensure that there is provision for the needs of special categories of passengers (including disabled, elderly and pregnant passengers) in line with the requirements of section 11(c)(xiv) of the NLTA</li> <li>• Allocations for this grant are made through two components, with separate conditions applicable to each component as set out in the allocations criteria section below</li> <li>• Allocations for the Network Operations Component will be determined by DoT once municipalities submit an annual operations plan including financial forecasts for 2020/21 by 29 May 2020 or within seven working days, upon adoption/approval by municipal council, as a part of the annual budget appropriation. Funds for one component can be shifted to the other if approved by DoT and National Treasury</li> <li>• The second tranche is subject to cities submitting, by 31 July 2020, an updated multi-year financial operational plan (approved by council) for the duration of the vehicle operating contract/s pertaining to any phase on which 2020/21 grant funds will be spent</li> <li>• All new intelligent transport solutions (ITS) related contracts that will incur grant expenditure must be jointly approved by DoT and National Treasury before grant funds may be spent on them</li> </ul>

<b>Public Transport Network Grant</b>	
	<ul style="list-style-type: none"> <li>• An amount of R1.045 billion in 2020/21 is allocated to the City of Cape Town through the Budget Facility for Infrastructure (BFI) for MyCiti Phase 2A and may only be used for that purpose. Should there be cost variations of more than 10 per cent on the BFI funded project, the municipality is required to inform National Treasury and the transferring officer within 30 days</li> <li>• In order to ensure efficient usage of grant funds, the DoT can instruct that municipalities utilise national transversal appointments for IPTN related items such as professional services, vehicles and information technology including automated fare collection and vehicle tracking, where such contracts exist</li> </ul> <p><b>Network Operations Component</b></p> <ul style="list-style-type: none"> <li>• Operating subsidies from this component can fund security, station management, fare collection services, control centre operations, information and marketing, network management, insurance, compensation for the economic rights of existing operators and maintenance of infrastructure and systems</li> <li>• From the start of operations, IPTN systems must recover all the direct operating costs of contracted vehicle operators from fare revenue, other local funding sources and, if applicable, from any Public Transport Operations Grant contributions. These direct operating costs consist of fuel, labour, operator administration and vehicle maintenance</li> <li>• From the start of operations on a route, the grant can fund a portion of the per kilometre rate to subsidise up to 100 per cent of the capital cost (including interest and related fees) of vehicles purchased by the vehicle operating company</li> <li>• IPTN operational plans and on-going operations management must target improved farebox cost coverage, through minimising costs and maximising fare revenues. Municipalities operating network services are required to supply detailed operating performance and operating cost and revenue reports quarterly in the formats prescribed by the DoT</li> <li>• Operating subsidies for any new or existing service, line, route or phase, will only be transferred after a municipality meets the requirements of DoT's Operational Readiness Framework</li> <li>• Municipalities must enforce rules and by-laws regarding usage of dedicated lanes, fare payment, and operator/supplier compliance with contractual provisions</li> <li>• Municipalities are required to establish specialist capacity to manage and monitor public transport system contracts and operations</li> <li>• Verified data on operator revenue and profitability and draft agreements for the compensation of existing economic rights of affected operators must be provided to DoT prior to concluding agreements on compensation for economic rights</li> <li>• Municipalities must enforce agreements that only legal operators operate on routes subject to compensation agreements</li> </ul> <p><b>Network Infrastructure Component</b></p> <ul style="list-style-type: none"> <li>• The grant can fund all IPTN-related infrastructure, including for non-motorised transport, upgrades of existing public transport infrastructure and for new infrastructure</li> <li>• Municipalities must demonstrate in their IPTN operational plans that they have attempted to give maximum priority to public and non-motorised transport while minimising costs through using existing infrastructure, road space and public land</li> <li>• For each phase, final network routing, service design and related financial modelling must be submitted to DoT for review and approval before municipalities proceed with detailed infrastructure design</li> <li>• IPTN projects must meet the minimum requirements of the South African Bureau of Standards (including Part S of the Building Regulations)</li> <li>• Contracted operators should finance and own vehicles unless a case for the exceptional use of limited infrastructure funding for vehicle procurement is approved by DoT, in consultation with National Treasury. If approval is granted, any vehicles purchased with grant funds must remain the property of the municipality</li> </ul>
<b>Allocation criteria</b>	<ul style="list-style-type: none"> <li>• Allocations are only made to municipalities that submit business plans in line with the above conditions, that demonstrate sufficient capacity to implement and operate any proposed projects, and credibly demonstrate the long-term fiscal and financial sustainability of the proposed projects</li> <li>• 75 per cent of available funds are allocated according the three public transport demand factors. The three demand factors which are equally weighted are: <ul style="list-style-type: none"> <li>○ size of population</li> <li>○ size of economy</li> <li>○ number of public transport users</li> </ul> </li> <li>• 20 per cent of available funds are allocated through a base component shared equally between participating municipalities</li> <li>• 5 per cent of available funds are allocated as a performance incentive to operating municipalities based on following three indicators (with a minimum threshold that will be revised upwards periodically): <ul style="list-style-type: none"> <li>○ coverage of costs from farebox: fare revenue as a percentage of direct operating costs, which indicates commitment to reducing operational costs, and is a measure of efficiency. The minimum threshold is 35 per cent</li> <li>○ passenger trips: average weekday passenger trips as a percentage of the population. This indicates coverage of the system, in providing the services to residents. The minimum threshold is 1 per cent. The city should be operating for at least two months</li> <li>○ skin in the game: city own funding as a percentage of the city's total property rates used towards funding the IPTN construction and operation. This is a measure of the cities' own commitment towards the system. The minimum threshold is 2 per cent</li> </ul> </li> <li>• To be eligible for the incentive, municipalities must have spent at least 80 per cent of their PTNG allocation from the preceding year and exceed the minimum threshold in at least one of the three indicators</li> </ul>

<b>Public Transport Network Grant</b>	
	<ul style="list-style-type: none"> <li>The information used for the incentive comes from cities' multi-year financial plans.
