BILL

To amend the Division of Revenue Act, 2013, in accordance with the Money Bills Amendment Procedure and Related Matters Act, 2009 (Act No. 9 of 2009); and to provide for matters connected therewith.

PREAMBLE

WHEREAS section 214(1) of the Constitution of the Republic of South Africa, 1996, requires an Act of Parliament to provide for—

- (a) the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
- (b) the determination of each province's equitable share of the provincial share of that revenue; and
- (c) any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and any conditions on which those allocations may be made;

WHEREAS the Division of Revenue Act, 2013 (Act No. 2 of 2013), gives effect to section 214(1) of the Constitution in respect of the 2013/14 financial year;

AND WHEREAS section 12(4) of the Money Bills Amendment Procedure and Related Matters Act, 2009 (Act No. 9 of 2009), requires the Minister of Finance to table a division of revenue amendment Bill with a revised fiscal framework if the adjustments budget effects changes to the Division of Revenue Act for the relevant year,

BE IT THEREFORE ENACTED by the Parliament of the Republic of South Africa, as follows:—

Substitution of Column A of Schedules 1, 2 and 3, Part A of Schedule 4 and Parts A and B of Schedules 5 and 6 to Act 2 of 2013

1. (1) Column A of Schedule 1 to this Act is hereby substituted for Column A of Schedule 1 to the Division of Revenue Act, 2013 (hereinafter referred to as the principal Act), setting out the equitable division of revenue raised nationally among the national, provincial and local spheres of government for the 2013/14 financial year. 5

(2) Column A of Schedule 2 to this Act is hereby substituted for Column A of Schedule 2 to the principal Act setting out each province's equitable share of the provincial sphere's share of revenue raised nationally for the 2013/14 financial year. 10

(3) Column A of Schedule 3 to this Act is hereby substituted for Column A of Schedule 3 to the principal Act setting out each municipality's equitable share of the local government sphere's share of revenue raised nationally for the 2013/14 financial year. 15

(4) Column A of Part A of Schedule 4 to this Act is hereby substituted for Column A of Part A of Schedule 4 to the principal Act specifying the allocations to provinces for the 2013/14 financial year to supplement the funding of programmes or functions funded from provincial budgets.

(5) Column A of Parts A and B of Schedule 5 to this Act is hereby substituted for Column A of Parts A and B of Schedule 5 to the principal Act specifying the specific purpose allocations to provinces and municipalities, respectively, for the 2013/14 financial year.

(6) Column A of Parts A and B of Schedule 6 to this Act is hereby substituted for Column A of Parts A and B of Schedule 6 to the principal Act specifying the allocations-in-kind to provinces and municipalities, respectively, for the 2013/14 financial year. 5

**MEMORANDUM ON THE OBJECTS OF THE DIVISION OF
REVENUE AMENDMENT BILL, 2013**

1. BACKGROUND

- 1.1 Section 214(1) of the Constitution of the Republic of South Africa, 1996, requires that an Act of Parliament be enacted to provide for—
- (a) the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
 - (b) the determination of each province's equitable share of the provincial share of that revenue; and
 - (c) any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and any conditions on which those allocations may be made.
- 1.2 Section 12(4) of the Money Bills Amendment Procedure and Related Matters Act, 2009 (Act No. 9 of 2009), requires the Minister of Finance to table a division of revenue amendment bill with a revised fiscal framework if the adjustments budget effects changes to the Division of Revenue Act for the relevant year. As the adjustments budget for 2013 effects changes to the Division of Revenue Act, 2013 (Act No. 2 of 2013) ("the DoRA"), it is necessary for the Division of Revenue Amendment Bill, 2013 ("the Bill"), to be tabled with the adjustments budget.
- 1.3 The Bill is thus introduced in compliance with the requirements of the Constitution and the Money Bills Amendment Procedure and Related Matters Act, 2009.

2. SUMMARY OF BILL

- 2.1 Clause 1 of the Bill proposes the replacement in the DoRA of Column A of—
- (i) Schedules 1, 2 and 3;
 - (ii) Part A of Schedule 4; and
 - (iii) Parts A and B of Schedules 5 and 6.
- Column A specifies the allocations for the 2013/14 financial year. Amendments to allocations are indicated in Column A by indicating the adjustment and the adjusted amount. The Schedules to the Bill address the following matters:
- (a) Additional unconditional and conditional allocations to provinces and municipalities;
 - (b) the allocation of unallocated conditional allocations to provinces and municipalities;
 - (c) the re-allocation of conditional allocations in terms of section 19 of the DoRA;
 - (d) roll-overs of conditional allocations to provinces and municipalities not transferred by national departments during the 2012/13 financial year; and
 - (e) increases to a conditional allocation to a province or municipality through a virement under section 43 of the Public Finance Management Act, 1999 (Act No. 1 of 1999), or section 28(2)(d) of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003), as the case may be.
- 2.2 Clause 2 of the Bill provides for the short title.

3. ORGANISATIONS AND INSTITUTIONS CONSULTED

The following institutions were consulted on the adjustments proposed in the Bill:

- Financial and Fiscal Commission;
- South African Local Government Association; and
- National and provincial departments.

4. FINANCIAL IMPLICATIONS TO THE STATE

This Bill is necessitated by the proposed national adjustment budget for the 2013/14 financial year which affects the division of revenue between the three spheres of government. Financial implications to government are limited to the total transfers to provinces and local government as indicated in the Schedules to the Bill.

5. CONSTITUTIONAL IMPLICATIONS

This Bill, in conjunction with the DoRA, gives effect to section 214 of the Constitution.

6. PARLIAMENTARY PROCEDURE

- 6.1 The State Law Advisers and the National Treasury are of the opinion that this Bill must be dealt with in accordance with the procedure envisaged by section 76(1) of the Constitution, as it provides for legislation envisaged in Chapter 13 of the Constitution and as it includes provisions affecting the financial interests of the provincial sphere of government, as contemplated in section 76(4)(b) of the Constitution.
- 6.2 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.

**EXPLANATORY MEMORANDUM TO
THE DIVISION OF REVENUE
AMENDMENT**

Explanatory memorandum to the division of revenue amendment bill

■ Background

The allocation of resources to the three spheres of government is a critical step in the budget process, required before national government, the nine provinces and 278 municipalities can determine their own budgets. The allocation process takes into account the powers and functions assigned to the three spheres of government. The process for making this decision is at the heart of cooperative governance as envisaged in the Constitution. To foster transparency and ensure smooth intergovernmental relations, section 214(1) of the Constitution requires that every year a Division of Revenue Act determine the equitable division of nationally raised revenue between the three spheres of government. The Intergovernmental Fiscal Relations Act (1997) prescribes the process for determining the equitable sharing and allocation of revenue raised nationally.

This explanatory memorandum to the Division of Revenue Amendment Bill, 2013, (“the Bill”) fulfills the requirement set out in section 12(4) of the Money Bills Amendment Procedure and Related Matters Act, (Act No. 9 of 2009), that the Minister of Finance must table a division of revenue amendment bill with the revised fiscal framework if the adjustments budget effects changes to the Division of Revenue Act for the relevant year. Section 10(5) of the Intergovernmental Fiscal Relations Act requires that the Division of Revenue Bill must be accompanied by an explanatory memorandum detailing how the Bill takes account of the matters listed in sections 214(2)(a) to (j) of the Constitution; government’s response to the recommendations of the Financial and Fiscal Commission (FFC); and any assumptions and formulae used in arriving at the respective divisions among provinces and municipalities. As the FFC’s recommendations are specific to the main budget and none of the formulae used in the Division of Revenue Act, 2013, have been changed, this explanatory memorandum only contains three parts:

- Part 1 describes the factors that inform the division of resources between the three spheres of government.
- Part 2 describes the proposed amendments to the Division of Revenue Act, 2013 and their impact on the different spheres of government.
- Part 3 describes changes to the frameworks and detailed allocations per province and municipality that have been gazetted in terms of section 15(1) of the Division of Revenue Act, 2013. These changes are submitted to parliament for consideration as envisaged in section 15(2) of the Division of Revenue Act, 2013.

The Division of Revenue Amendment Bill and its underlying allocations are the culmination of extensive consultation processes between national, provincial and local government. The Budget Council and Budget Forum deliberated on the matters discussed in this memorandum. The approach to local government allocations have been discussed with organised local government (South African Local Government Association) at technical meetings, culminating in a meeting of the Budget Forum.

■ Part 1: Constitutional considerations

Section 214 of the Constitution requires that the annual Division of Revenue Act be enacted only after taking account of factors in sub-sections (2)(a) to (j) of the Constitution. These include the national interest; provision for debt; the needs of national government and emergencies; the allocation of resources to provide basic services and meet developmental needs, fiscal capacity and efficiency of the provincial and local spheres; the reduction of economic disparities; and the promotion of stability and predictability. Annexure W1 to the 2013 Division of Revenue Bill outlined in detail how these considerations were taken into account in the 2013 Division of Revenue. None of the adjustments in this Bill alter the constitutional considerations that informed the 2013 Division of Revenue.

■ Part 2: Summary of changes in the Division of Revenue Amendment Bill, 2013

An adjustments budget provides for unforeseen and unavoidable expenditure; appropriation of monies already announced during the tabling of the annual budget (but not allocated at that stage); the shifting of funds between and within votes where a function is transferred; the utilisation of savings; and the roll-over of unspent funds from the preceding financial year. If the adjustments budget effects changes to the division of revenue as contained in the Division of Revenue Act for the relevant year the Minister of Finance must table a Division of Revenue Amendment Bill with the revised framework. There are amendments to the 2013 Budget that affect the Division of Revenue Act, 2013 which will be effected through the Division of Revenue Amendment Act, 2013, once enacted. The amendments as they impact on provinces and municipalities are discussed in detail below.

■ Changes to provincial allocations

Improved conditions of service

The provincial equitable share is adjusted upwards by R563.8 million to provide for higher than budgeted wage costs. The cost of wage increases in 2013/14 is higher than the costs provided for in the 2013 Budget as a result of higher than anticipated inflation. This addition is shared between provinces in proportion to their shares of personnel numbers as at 31 March 2013. The adjustments per province for improvements in conditions of service (ICS) and the adjusted provincial equitable share per province is shown in schedule 2 to the Bill.

A circular in December 2012 from the Department of Public Service and Administration provided for the re-grading of several clerical positions. Implementing the re-grading has significant cost implications for provinces, particularly in the health and education sectors. Additions of R690.8 million are made to the provincial equitable share to assist provinces with the cost of upgrading clerical positions. Funds are allocated among provinces based on data for the number of clerks in each province. These additions form part of the adjustment in schedule 2 of the Bill.

1. provincial equitable share (PES)

2. improved conditions of service (ICS)

The further education and training (FET) colleges grant is adjusted by R11.5 million for the higher than budgeted wage increases. These funds are allocated for the same purpose as the adjustments to the provincial equitable share explained above and are shared between provinces in proportion to their share of personnel in FET colleges. The adjustments per province for ICS in FET Colleges and the adjusted baselines per province are shown in schedule 4A to the Bill.

Roll-overs

When a department does not spend all of the funds allocated to it in a financial year, the remaining funds are returned to the National Revenue Fund. If departments had already committed these funds (or a part thereof) to be spent, then they can apply for the funds to be returned to them so that they can meet that commitment. The return of these funds is called a roll-over. The roll-over of national funds not yet transferred to provinces in 2012/13 is included in the Division of Revenue Amendment Bill, 2013.

A roll-over of R109.3 million was approved on the provincial equitable share for funds allocated to the *devolution of property rate funds grant* that were allocated but not transferred to provinces in 2012/13. The affected provinces are Western Cape, Mpumalanga and Free State with the provinces receiving R44.5 million, R28.2 million and R36.6 million respectively. As this grant has been phased-out and incorporated into the provincial equitable share over the

2013 MTEF, these funds are added to the equitable share transfer for each province. This adjustment forms part of the changes in schedule 2 of the Bill.

Roll-overs for two Basic Education grants are made as a result of funds committed to projects in the 2012/13 financial year. The *dinaledi schools grant* receives a roll-over of R4.0 million. This grant focuses on improvements in the participation and performance of learners in mathematics and physical science in line with the National Strategy for Mathematics. The *technical secondary schools recapitalisation grant* receives a roll-over of R10.6 million. This grant funds the improvement of conditions in technical schools to meet the teaching requirements of learners in technical fields. These adjustments are reflected in schedule 5A of the Bill.

Virement

R1 million is added to the *expanded public works programme integrated grant for provinces* for the Department of Economic Development in the Northern Cape. This provincial department should have received these funds in 2012/13 based on their past performance in creating employment, but a problem with the electronic payment system resulted in a delay in transfer and funds were not transferred before the end of the financial year. This addition is funded through the virement of funds on the vote of the national Department of Public Works. The adjustment forms part of the changes in schedule 5A of the Bill.

Reimbursements

The President appointed an Inter-Ministerial Committee (IMC) to coordinate and lead all support activities to families and relatives of the deceased and injured who were admitted to hospitals following the tragedy at Marikana in August 2012. In line with the IMC directive, national government undertook to reimburse provinces for funeral costs incurred for those killed in the tragedy. As a result, an amount of R0.4 million will be added to the provincial equitable share for the Free State and Mpumalanga provinces. This adjustment forms part of the changes in schedule 2 of the Bill.

Provincial roads maintenance grant

A new formula for allocating the *provincial roads maintenance grant* was used to determine allocations in the Division of Revenue Act, 2013. The new formula is based on provincial road networks, road traffic and weather conditions. These factors reflect the different costs of maintaining road networks in each province. The introduction of this new formula led to large changes in the allocations to provinces, some of whom could no longer fund all of their planned expenditure for 2013/14 that had been based on the forward estimates for the grant contained in the Division of Revenue Act, 2012. National Treasury, the national Department of Transport and provinces agreed to revise the allocations for this grant so that instead of implementing the new formula immediately in 2013/14, it will be phased-in over the three years of the 2013 MTEF. As a result, allocations for 2013/14 are revised in the Division of Revenue Amendment Bill, 2013 to reduce the scale of both increases and decreases to allocations in 2013/14, and taking into account the ability of provinces to spend the funds during this financial year. Details of how the phase-in will affect the allocation to each province over the rest of the 2013 MTEF have been communicated to provinces through supplementary allocation letters; this will facilitate planning for 2014/15. The adjustments to the *provincial roads maintenance grant* are presented in schedule 4A to the Bill.

Rescheduling of national health grant funds

The *national health grant* was created in the Division of Revenue Act, 2013 as an allocation-in-kind, or indirect grant, through which the national department spends funds on behalf of provinces. Following a lack of spending on the *health facility revitalisation* component of this grant, which funds the construction of health infrastructure, R200 million is being declared as savings in the 2013 Adjustment Budget. Within the remaining grant, R167 million will be converted to a direct grant to KwaZulu-Natal and Northern Cape provinces and transferred as part of their *health facility revitalisation grant* allocations. These adjustments form part of the changes in schedules 5A and 6A of the Bill.

2014 African Nations Championship host provinces

South Africa will host the 2014 African Nations Championship football tournament in January 2014. R6 million was made available to support host provinces to provide emergency medical services for the tournament. These funds are allocated to a schedule 6A grant as an allocation-in-kind through which the national department will pay suppliers on behalf of the host provinces. At the time the Division of Revenue Act, 2013 was tabled not all of the host cities and provinces had been confirmed and so the *2014 African Nations Championship health and medical services grant* remained unallocated. In the Division of Revenue Amendment Bill, 2013, the funds are allocated among the following host provinces: Free State, Limpopo and Western Cape. This adjustment forms part of the changes in schedule 6A of the Bill.

Disaster allocations

A number of disasters occurred in 2012 and 2013 that damaged provincial infrastructure. Funding for the repair and replacement of damaged infrastructure will be allocated through the Division of Revenue Amendment Bill, 2013 for affected provinces. A total of R103.2 million will be added to the following provincial sector grants for the repair or replacement of infrastructure in each sector: *provincial roads maintenance grant, human settlements development grant, comprehensive agricultural support programme grant, education infrastructure grant* and the *health facility revitalisation grant*. These adjustments form part of the changes in schedules 4A and 5A of the Bill.

■ Changes to local government allocations

Roll-overs

Roll-overs of R2.4 million for the *municipal infrastructure grant* and R11.3 million for the local government equitable share have been approved for the Bela-Bela Local Municipality. These funds were not transferred to the municipality during 2012/13 as all transfers to the municipality had been stopped in terms of National Treasury's responsibility to enforce compliance with treasury norms and standards as set out in section 216 of the Constitution. The municipality has shown substantial progress in complying with treasury norms and standards and is eligible to receive transfers again and accordingly the funds that the municipality would

have received in 2012/13 have been rolled-over and will be transferred to the municipality. These adjustments form part of the changes in schedules 3 and 5B of the Bill.

A roll-over of R58 million has been approved on the *regional bulk infrastructure grant* for projects in five municipalities where funds were committed but had not yet been paid at the end of the 2012/13 financial year. Most of these delays in spending were the result of delays in importing materials and equipment needed for projects. This grant supplements the financing of the social component of regional bulk water and sanitation infrastructure. It targets projects that cut across several municipalities or are large bulk projects within one municipality. The grant also supplements regional bulk collection and wastewater treatment works. This adjustment forms part of the changes in schedule 6B of the Bill.

A roll-over of R100.5 million has been approved on the *rural households infrastructure grant*. This grant funds the provision of on-site solutions for water and sanitation services for rural households where piped infrastructure is not feasible. The grant became a direct grant to municipalities in 2013/14, having previously been an allocation-in-kind through which the Department of Human Settlements provided on-site infrastructure in rural areas. From 2013/14, funds are transferred directly to municipalities for these projects. This will allow municipalities to manage community consultation processes and align funding with the responsibility for ensuring the infrastructure is maintained, providing a much greater incentive for maintenance planning to be included in projects from the beginning. As the roll-over is for funds allocated to the grant in 2012/13, it is a roll-over of funds in the previous allocation-in-kind grant, the schedule 6B (allocation-in-kind) *rural households infrastructure grant* is added to the Division of Revenue Amendment Bill, 2013 to provide for this roll-over.

Virement

R0.6 million is added to the *expanded public works programme integrated grant for municipalities* for Naledi municipality in the Free State. This municipality should have received these funds in 2012/13 based on their past performance in creating employment, but a problem with the electronic payment system resulted in a delay in the transfer and funds were not transferred before the end of the financial year. This addition is funded through the virement of funds on the vote of the national Department of Public Works. The adjustment forms part of the changes in schedule 5B of the Bill.

Reimbursements

The President appointed an Inter-Ministerial Committee (IMC) to coordinate and lead all support activities to families and relatives of the deceased and injured who were admitted to hospitals following the tragedy at Marikana in August 2012. In line with the IMC directive, national government undertook to reimburse municipalities for funeral costs incurred for those killed in the tragedy. As a result, an amount of R1.9 million will be added to the local government equitable share transfer to Bojanala District Municipality for the 2013/14 financial year. This adjustment forms part of the changes in schedule 3 of the Bill.

Disaster allocations

A number of disasters have occurred in the Western Cape, Eastern Cape, Limpopo and KwaZulu-Natal that resulted in significant damage to municipal infrastructure. Funds for the repair and replacement of damaged municipal infrastructure are allocated for affected municipalities. The funds will be allocated through a new *municipal disaster recovery grant* transferred by the Department of Cooperative Governance. This new grant is included in schedule 5B of the Bill. The total value of the grant in 2013/14 is R118.3 million and it is allocated to individual municipalities as follows:

■ Part 3: Changes to gazetted frameworks and allocations

Together with the tabling of the Division of Revenue Amendment Bill, National Treasury also submits to parliament proposed changes to gazetted conditional grant frameworks and allocations. Section 15(2) of the Division of Revenue Act, 2013, requires National Treasury to consult parliament on any proposed changes to a conditional grant framework for the purposes of correcting an error or omission.

The proposed changes to provincial and local government conditional grants are described below and the revised frameworks and detailed allocations are included in the annexures and appendices to the Division of Revenue Amendment Bill, 2013. While these changes do not form part of the Bill, parliament is requested to consider them in terms of the process set out in Section 15(2) of the Division of Revenue Act, 2013.

■ Changes for provincial government

Changes to frameworks

The addition of disaster recovery allocations to a number of provincial conditional grants requires the addition of conditions to the respective grant frameworks to ensure that these funds are spent appropriately. The affected conditional grants are: *human settlements development grant, education infrastructure grant, comprehensive agricultural support programme grant, provincial roads maintenance grant and health facility revitalisation grant*. The conditional grant frameworks for these grants will be amended and regazetted to include the following conditions:

- (a) Business plans for the allocated disaster funds in line with the post disaster verification assessment reports must be submitted to the National Disaster Management Centre (NDMC).
- (b) Disaster reconstruction and rehabilitation funds may only be utilised for approved projects as listed in the post disaster verification assessment reports and approved business plans.

- (c) Quarterly reports on the expenditure of disaster funds must be submitted to the NDMC.
- (d) The amount per province that can only be used for disaster recovery is stipulated.

Education infrastructure grant

Changes to the *education infrastructure grant* framework are included to align it with preparations for the next financial year and 2015/16 financial year as set out in section 26(4) of the Division of Revenue Act, 2013. These changes correct the misalignment between this grant framework and the new requirements introduced in the Division of Revenue Act, 2013, that provinces begin submitting plans for health and education infrastructure projects two years in advance of receiving allocations. These new requirements are intended to improve the rollout of provincial infrastructure by requiring better planning in provinces.

Changes to allocations

The changes relating to the *national health grant* to provide for savings and the conversion of a portion to a direct grant have been discussed above. The gazette provides detail of the revised allocation per province for each of the grant components. The addition of disaster funding to the *health facility revitalisation grant* similarly requires the regazetting of the detailed allocations per province for each component of the grant.

■ Changes for local government

Changes to frameworks

The *public transport network operations grant* was introduced in 2013/14 to provide cities operating systems built through the *public transport infrastructure grant* with an identifiable and separate source of operating subsidies that they could use in their planning and budgeting. One error and one omission in the framework will be corrected:

- (a) Insurance is added to the list of indirect operating expenses that can be funded from the grant.
- (b) An incorrect reference to funding from the *public transport network operating grant* will be corrected to reflect the possibility that funds from the *public transport operations grant* (a grant to provinces) could be transferred to cities to support their bus services.

Two corrections are proposed to the framework for the *municipal water infrastructure grant* that was introduced in 2013/14 to accelerate the delivery of clean water to households that do not have access.

- (a) The first correction is needed to align the grant requirements with the Municipal Financial Management Act's regulations on supply chain management. In terms of these regulations the Department of Water Affairs (DWA) cannot sit on the adjudication panel for a municipal tender and so a condition requiring this is changed to require that DWA may request to be invited to participate on the bid specification and bid evaluation panels.
- (b) The second correction changes the requirement that DWA must approve the detailed designs of interventions and requires instead that DWA approves the technical reports and business plans for each project. This retains the requirement that DWA verifies that appropriate technologies are chosen for each project, but corrects the impractical condition that DWA approve the detailed design for each scheme.

The roll-over of funds for the *rural households infrastructure grant* indirect allocation means that changes are required to the framework for the grant to include allocations and conditions for the indirect portion of the grant. The current framework has conditions applicable only to a

direct grant and so requirements that indirect projects be implemented in terms of a service level agreement with municipalities are added.

New framework for municipal disaster recovery grant

The *municipal disaster recovery grant* is a new grant earmarked for the repair and replacement of damaged infrastructure. The main purpose and ultimate goal of this grant is to rehabilitate and reconstruct municipal infrastructure damaged by disasters. Given that the grant framework was not tabled in February 2013 Division of Revenue, it is proposed that the new grant be added to the Division of Revenue Amendment Bill, 2013.

Allocating unallocated funds

South Africa will host the 2014 African Nations Championship football tournament in January 2014. R120 million was made available to support host cities in the Division of Revenue Act, 2013 through the *2014 African Nations Championship host cities operating grant*. At the time the Division of Revenue Bill, 2013, was tabled only one city had confirmed it would host part of the tournament and so funds could only be gazetted for Cape Town. Mangaung and Polokwane have subsequently also confirmed that they will host matches and so allocations will now also be gazetted for these host cities.

Detail of changes to allocations

Details per municipality of the changes to allocations for the *municipal infrastructure grant*, *regional bulk infrastructure grant*, *rural households infrastructure grant* and *expanded public works programme integrated grant for municipalities* that have been described in Part 2 of this explanatory memorandum will be gazetted. These changes are show in annexures 3, 4 and 5 to the Bill.

ANNEXURE 1:
FRAMEWORKS FOR CONDITIONAL
GRANTS TO PROVINCES

Annexure 1: Frameworks for Conditional Grants to Provinces

Detailed frameworks on Schedules 4A and 5A grants to provinces

Introduction

This annexure provides a brief description of the framework for grants set out in Schedules 4A and 5A of the 2013 Division of Revenue Amendment Bill. The following are key areas considered for the grants:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority outcome(s) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between provinces
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2013 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving provincial departments
- Process for approval of business plans for 2014/15

The attached frameworks are not part of the Division of Revenue Amendment Bill, but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2013 Division of Revenue Amendment Bill is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2013/14 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

ANNEXURE 2:
FRAMEWORKS FOR CONDITIONAL
GRANTS TO MUNICIPALITIES

Annexure 2: Frameworks for Conditional Grants to Municipalities

Detailed frameworks on Schedule 5B and 6B grants to municipalities

Introduction

This annexure provides a brief description for grants in Schedules 5B and 6B of the 2013 Division of Revenue Amendment Bill. The following are key areas considered for the grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority outcome(s) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2013 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving municipalities
- Process for approval of 2014 MTEF allocations

The attached frameworks are not part of the Division of Revenue Amendment Bill, but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the 2013 Division of Revenue Amendment Bill is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2013/14 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.
